AN IMPRESSIVE EVENT OF 1900.

The Boston Artillery Company to Entertain the London Artillery Company.

Boston, Sept. 26 .- The Ancient and Honorable Artillery Company began its preparations this evening for the visit of the Honorable Artillery Company of London to this country in 1900. A Committee of Arrangements consisting of thirty members was chosen, with

consisting of thirty members was chosen, with Sidney M. Hedges as Chairman. The committee includes the present commander of the company, J. Payson Bradley. Col. Henry Walker, who commanded it on the visit to England in 1886, and Col. Henry A. Thomas, Postmaster. In general it is made up of the solid business men of the city. Col. Hedges made a report in which he said:

"This visit will undoubtedly be one of the most impressive and interesting events of the opening year of the new century. It will have a far-reaching and possibly world-wide resuit. It will do more to revive the ancient glories of thus old organization than anything it has yet done or attempted to do. It will require generous pledges and hearty co-operation and a solid front and a pull together that we may send our English brethren home with the best ideas of our company, our city and our country."

ideas of our company, our city and our country."

The Committee of Arrangements will meet for organization in a short time and definite plans vill then be made. At present it is only known that the London company will send about 200 men and that they will arrive some time in July. The Prince of Wales is the Colonel of the company and the Earl of Denbigh and Desmond is the Lieutenant-Colonel commanding. The Prince of Wales and Secretary John D. Long are the only honorary members of the Boston company. There was only one other honorary member, the late Chester A. Arthur.

RECEPTION OF LONDON ARTILLERY The first meeting of the committee appointed by the Ancient and Honorable Artillery Company of Massachusetts to arrange for the reception and entertainment of the Honourable Artillery Company of London in 1900 was held at the Parker House last Wednes-day eyening. It was called to order hy day eyening. It was called to order by Capt. Edward E. Allen, and organization was effected by the election of Col. Sidney M. Hedges as chairman, Capt. Albert A. Folsom as treasurer, and Arthur T. Lovell as clerk. George H. Morrill, Jr., of Norwood, was elected a member of the committee to fill the vacancy caused by the declination of Gen. Samuel C. Lawrence on account of pressure of other duties.

Sub-committees will be appointed by the chairman, and will probably include an executive committee, and committees on finance, transportation, hotels and banquets, press and printing.

Nothing is known as to the time of year at which the Honourable Artillery Company will make its visit, but the hope was expressed at he meeting by several committeemen that the English soldiers would be here at the time of the celebration of the company's anniversary in June.

While no steps have been taken looking toward a definite programme of entertainment or a definite course of travel, reports indicated a growing interest in the visit, and the probability that at least one or two other large cities would be anxious to Join in the entertainment to be given.

Sight-Seeing in That Year. Maj. L. N. Duchesney presided at the first smoke talk of the Ancient and Honorable Artillery Company for the season of '98 and '99, at the Quincy House last evening. There was muc

enthusiasm and a general good time. Maj. George S. Merrill, Col. Henry Walker, Col. S. M. Hedges, Capt. Jacob Fottler, past commanders, were present, while the guests were Maj. Maj. Duchesney welcomed the company, some 200, and introduced Mr. H. D. Atwood as the poet of the evening. Mr. Atwood recited a poem, "The Soldier of Shiloh." Then Maj. George S. Much interest centred in the speech of Col. Hedges, who took ocasion to read a communication which he had sent to the London company in anticipation of its visit in 1900. The letter, in part, read as follows:

the London company in anticipation of its visit in 1900. The letter, in part, read as follows:

BOSTON, Nov. 20, 1898.

To the Henourable Artillery Company of London—Gentlemen: Your communication advising us of the acceptance of the invitation of the Ancient and Honorable Artillery Company to visit the city of Boston in 1900 is received, and we are pleased to note the progress of arrangements, which are needful to the consummation of this much desired reunion of these two ancient corps.

The more announcement of the acceptance of our invitation has already caused an interest and enthusiasm in the event itself which is rapidly extending far beyond the borders of our own city and commonwealth. The recent outburst of friendly feeling between our respective countries, and the remarkable expressions of mutual good will and fraternal interests, will make your visit here a matter of the most direct and lasting effect in still further cementing the relations of these two lands. We are desirous that this point of view shall be adequately understood by our brethren in England, and that on this account the representation be as large and as commanding as is possible.

Our national government will undoubtedly take the fullest cognizance of the Honourable Artillery Company's presence among us, and of those whom we shall expect to be with us to extend the national welcome are the President of the United States and members of his cabinet, while in our harbor we expect to see a part of our feet, which has so recently added new glories not merely to the American name, but to all Angle-Saxondom. If, by the side of our President, there should be one whom we hardly dare to hope will be present, yet whose presence would give our countrymen the suprimest satisfaction, His Royal Highness the Prince of Wales, there would be presented to the world a spectacle which would be memorable in the world's history, and which would make the name and fame of these two commands lustrous forever.

It is yet too early to indicate the full extent of the plans which we propose, but something of an outline can be submitted, which we hope may ald our friends in coming to us in large numbers. The Boston portion of the proceedings will probably consume about one week, during which time your members will be at their own expense at the hotels where they are quartered. After this, we expect to tender to our guests a transcontinental tour consuming about two weeks' time, and being in a general way something as follows:

Boston to Montreal, through Crawford Notch, white Mountains, N. H.; Montreal to Magara Falls: Niagara Falls to Chicago; Ghicago to Pittsburg. Pittsburg to the battlefield of Gettysburg, across the Alleghany mountains, around the Horseshee curve; Gettysburg to Churay, Va., visit Luray caverns; Luray to Washington, while in Washington visit Arilington, the National cometery, and Mount Vermon, the home and burial place of George Washington; Washington to Philadelphia, Philadelphia to New York, while in New York visit West Point, the United States Military Academy; New York to Boston.

If found desirable, we can stop at intervening cities. This will give the visiting delacation;

just what they are to incur in the matter of expense. We hope, therefore, that arrangements may be made for landing directly in

The Greatest Event in History.

At the first winter campaign smoke talk of the Ancient and Honorable Artillery Company at Boston, on Monday night, there was "much enthusiasm and a general good time." Col. HENRY WALKER Capt. JACOB FOTTLER, Major GEORGE S. MERRILL, the inventor of side whiskers, and other thunderbolts of war were present. This counc of war assembled in the Quincy House, where the Ancients have dedicated au overflow armory. "BELLFORD's animated orchestra furnished music," and after the doughnuts and cider had been handed around, Col. SIDNEY MONTGOMERY HEDGES read a letter which he has sent to the Honourable Artillery Company of Lon don. The Honourables are to be the guests of the Ancients and Honorables next year. Col. HEDGES gives a vivid account of the universal thrill of expectation caused by the promise of the Honourables to come, impresses upon them the vast international significance of their expedition, and urges them to be large and commanding.

"The mere announcement of the acceptance of our invitation has already caused an interest and enour invitation has already caused an interest and en-thusiasm, in the event itself, which is rapidly ex-tending far beyond the borders of our own city and Commonwealth. The recent outburst of friends feeling between our respective countries, and the remarkable expressions of mutual good will and fraternal inforests, will make none wint here a matter of the most direct and lasting effect in still further temes ing the relations of these two lands. We are desired that this point of view shall be adequately under stood by our brethren in England, and that on this account the representation be as large and as commanding as is possible."

The Ancients have abandoned their designs against Canada. The English excursion of the Ancients laid the foundations of enduring friendship between the United States and Great Britain. The American excursion of the Honourables is to cement those foundations. Will the English vish ors be as large and commanding as possible, as much as possible like the Ancient and Honorable Artillery, which consists entirely of commanding commanders ?

In language that throbs with the deepest feeling of international brotherhood and an almost prophetic vision of the splendor of the twin giants of war with doves on their shoulders, Col. Henges paints the official decoration of which the scene will be worthy:

"Our national Government will undoubtedly take the fullest cognizance of the Honourable Artillery Company's presence among us, and of these whose we shall expect to be with us to extend the national welcome are the President of the United States and members of his Cabinet, while in our harlor we appear to see a part of our fleet, which has no recent added new glories not merely to the American hate-but to all Angle-Saxondon. SMOKE TALK OF THE ANCIENTS

It Dealt with Massachusetts Troops in the Field, the Harbor Defences and Other Matters-Jubilee Singers There

There was plenty of entertainment for the two hundred members and guests of the Ancient and Honorable Artillery Company who assembled at the Quincy House, last evening, for the second smoke talk of the winter. The Salem Cadet Orchestra provided spirited music during the dinner, and afterward, when the cigars had been lighted, a delegation from the Chicago Jubilee Singers, present through the courtesy of Sergeant Frank Stone gave jubilee and minstrel songs, with some skilful and en-tertaining imitations of birds and animals. It was evident that everybody enjoyed the occasion. There were speeches, but they were of the most informal nature. Major L. N. Duchesney presided; Lieutenant Colonel Balley of the Eighth Regiment told of the experiences of the troops at the worth of the work of the Volunteer Aid As sectation; and the State's support and equipment of its troops, as well as care of the sick and wounded, came in for praise from Dr. J. B. Clarkson, who was on the Bay State, off Cuba, and Colonel J. Payson Bradley, who compared Governor Wolcott in glowing terms to Governor Andrew, las a war governor. Captain Anderson of the Seventh Artillery, telling about the defenceless condition of this harbor when the war broke out, said that though guns were in place and could have been fired, they could not have been aimed on account of lack of sights. "If the Spanish had appeared off Boston," he said, "we could have made a noise, and nothing more." . "That would have been enough!" shouted some-body at the rear of the hall, and the rest of the company laughingly agreed. Colonel Henry Walker expressed his belief in the expansion policy, but Senator Morse of the Cape made a patriotic speech that was fol-lowed with much interest, and Lieutenant G. H. Innis told something of what woul be done toward entertaining the Honorable Aftillery Company of London, when it visits Boston, in 1900. The company joined in singing several old songs before breaking

Le prince de Galles aux Etats-Unis

Une grosse nouvelle s'est répandue aujourd'hui dans

Une grosse nouvelle s'est répandue au ound'au dans les clubs politiques et dans les régions officieles de la métropole. Certes, elle mérite encore confirmation, mais si je m'en rapporte à des informateurs d'ordinaire admirablement renseignés, on peut dès maintenant la considérer comme authentique : le prince de Galles serait décidé à se rendre aux Etats-Unis l'an prochain pour assister aux fêtes organisées pour célébrer le centenaire de la mort du général Washington.

J'ai lieu de croire la nouvelle vraie: je ne la crois cependant pas encore définitive. On est parfaitement décidé au voyage à Windsor et à Sandrigham, mais on se réserve de modifier le projet de l'henré actuelle selon l'action que lui opposera l'opinion. Si malgré les tentatives de rapprochement dont on relève tant de témoignages dans la politique du cabinot et dans les harangues de M. Joseph Chamberlain, la presse et l'opinion se souvenaient mal à propos des protestations formulées jusqu'à sa mort par le vieux lord Chatham, si l'orgueil britannique se complaisait (rop au splendide isolement préconisé par M. Goschen et dédaignait certaines alliances. le projet de voyage de l'héritier de la couronne ne serait jamals officiellement annoncé, et l'on s'évértuerait à démentir jusqu'à l'invitation au sujet de laquelle la couronne et le gouvernement ont déjà fait connaître leur avis.

On la représente comme n'émanant pas directement du Président des Etats-Unis, mais seulement d'une association libre sans quanté pour solliciter la présence du prince au delà des mers. On raconte que le président Mac Kinley reçut tout dernièrement à la Maison-Blanche une députation des loges maconniques de la Virginie chargée de lui promettre la contribution de ces loges aux fêtes patriotiques de l'an prochain. A cette occasion l'un des orateurs de la députation aurait rappelé au président Mac Kinley que le prince de Galles occupe depuis plusieurs aunées les hautes fonctions du grand-maitre de la franc-maçonnerie en Angleterre, et que les loges de l'Union seraient heureuses de le voir contribuer à l'éclat des hommages rendus à Washington. A quoi le président Mac Kinley aurait répoudu qu'il se ferait volontiers auprès du gouvernement britannique l'organe des francs-maçons américains et que, si le prince daignait honorer de sa présence les fêtes du centenaire, la Maison-Blanche serait mise à sa disposition. C'est d'ailleurs à la Maison-Blanche que l'héritier de la couronne d'Angleterre a été reçu lors de son premier voyage en Amérique.

Mises au courant de cette version les agences télégraphiques n'ont pas hésité à consulter leurs correspondants de l'autre côté de l'Atlantique, et ceux-clont aussitôt confirmé par câble l'authenticité de cette petite scène qui avait passé là-bas tout-à-fait inaperque. Le les journaux de demain.

lecteur anglais en trouvera donc la confirmation dans les journaux de demain.

L'avenir précisera le caractère de cette visite. Si l'opinion ne s'y montre pas favorable, les feuilles officieuses nous expliqueront avant peu que le prince n'est pas seulement le grand-maître de la franc-maçonnerie et qu'il ne saurait accepter l'invitation des loges américaines. Si, au contraire l'opinion, bien dirigée, se prononce en faveur du voyage, le président Mac Kinley reprendra personnellement l'invitation aviere. Kinley reprendra personnellement l'invitation aujour-d'hui un peu vague lancée à l'esprit public au nom des loges maçonniques de la Virginie, Et l'on illuminera dans les ménages anglo-améri-

We rather guess the New York Sun is swinging its favorite toy weapons when it advocates sending the Ancient and Honorable Artiflery Company up to Springfield to suppress the journalistic rioting up there.

Sun Joh Sim Jan 13, 1899

The Ancient and Honorable Artillery Company occupies a strong position in the Parker House and will continue to observe Gen. Sambo Bowles, who has mobilized himself and moved on Agawam. There he is collecting supplies and artillery. Military experts are in doubt whether he will move on Washington and usurpation by way of Mittineague and Feeding Hills or try to go down the Connecticut on his way to join AGUINALDO. If he goes down the Connecticut, the Putnam Phalanz will intercept him. If he tries to reach Feeding Hills by forced marches, his overshoe department may break down. He is said to have full rations, including files and verjuice, for six days, and his wagon trains are loaded with proclamations. His campaign promises to be very interesting, if his overshoes and suspenders stand the fatigue of the march. The rumor that an epidemic of chilblains had broken out in his army is said to be false.

Men Joh Sim

The Campaign of Gen. Sambo Bowles.

With this brevity, worthy of a bulletin of JULIUS CESAR, does Gen. SAMBO BOWLES record in the Springfield Republican the brilliant success of his campaign:

"Imperialism checked."

Seldom has a military movement had so instant a result, and not a drop of blood has been shed, with the exception of a dozen rare roast beef sandwiches, which Gen. Bowles tucked into his commissary department in the right inside pocket of his reefer before beginning his march from Springfield on the morning of Jan. 12.

When he left, amid the cheers of the whole anti-imperialist party of Springfield in a carry-all and two Concord buggies, his destination was unknown. The Putnam Phalanx was observing him in Hartford, the Ancient and Honorable Artillery at the Parker House, Boston. Instead of seeking the Massachusetts or the Connecticut seacoast and thence proceeding to relieve AGUINALDO, he determined to move on Washington and Mckinley by means of forced marches. Early Thursday evening he occupied Mittineague with no greater loss than that of his left overshoe, the roads being very heavy and communications difficult. Nobody, in fact, gave him a lift. By Friday at 3:15 he was intrenched in a deserted barn within cannonading distance of Feeding Hills. In spite of the severe weather he arrived in good order, though a portion of his army, in short, the right foot, had suffered considerably from chilblains.

Advancing on Feeling Hills as rapidly as the crippled condition of his overshoe department permitted, he was met by a courier in an ox wagon, who brought news that the imperialists had retired in confusion. Gen. Bowles at once loaded his army on the wagon. Subsequently he transferred his forces, without the loss of a single life, to a tin peddler's cart, and so reached Springfield and dictated the triumphant despatch which we have quoted.

Well may Gen. SAMBO BOWLES be proud of his campaign. To-day he will go over his route again and attempt to recover his straggling overshoe, but practically his war is over. It is true that the Ancient and Honorable Artillery Company is still in the Parker House observing him, but it must be remembered that Faneuil Hall is closed, whereas the Parker House is always open, and Gen. Bowles may attempt a junction with the Boston anti-Imperialists at any time.

OSTON'S "Ancients" smile at the report that His Royal Highness the Prince of Wales may visit America this summer to witness the big yacht race. "Oh, no, he won't come over for that," they say confidently." but if the Prince visits America at all he is most likely to accompany the Homourable Artillery Company, of which he is colond and captain-general, on its return visit to us."

Gossip at the smoke talks in "Fort Parker" has lost the reminiscent flavor which has distinguished it ever since the Ancients and Homorables invaded English and the store of the contemplation of the expected articles and won unmatched victories, and has become anticipatory in contemplation of the expected artival of the distinguished Englishmen to whom they are eager to offer entertained the most company is not company is not company is not company is not dear company is not dear at work devisering and not prefer that and not company is not device that that with a man device that that with a man device the committee appointed to arrange for its reception is hard at work devised that the preference appointed to arrange for its reception is hard at work devised the committee appointed to arrange for its reception is hard at work devised in the committee appointed to arrange for its reception is hard at work devised in the committee appointed to arrange for its reception is hard at work devised in the committee appointed to arrange for its reception is hard at work devised in the committee appointed to arrange for its reception is in the committee appointed to arrange for its reception is hard at work devised and an order and preference appointed to arrange for its reception is the committee and an order and preference and an order and arrange and arrange and arrange and arrange arrange and arrange arrange arrange arrange arrange arrange arrange arrang

Seldom has a military movement had so instant a result, and not a drop of blood has been shed, with the exception of a dozen rare roast beef sandwiches, which Gen. Several readers have recently written to me for information respecting the proposed visit of the Honourable Artillery Company to America. From enquiries which I have made, I am enabled to state on unexceptionable authority that no definite arrangements have as yet been made. The whole scheme, in fact, is at present very nebulous. Should the intended visit eventuate, it will, of course, be purely unofficial. No guns will be taken, as they are required in this country for drill purposes and mobilisation. Indeed, it is unlikely that the party will include more than a very few of the active members of the Corps. It will be mainly composed of men from the veteran company, whose time is more or less their own. For all that, I am sure that the detachment will be quite worthy of its regiment and the old country; and I sincerely trust that the idea will not be let drop,

IMARTIAL ARDOR AT OLD GUARD'S BALL.

Guests Danced to the Tune of Spain's Defeat in Cuba.

STAGE A TROPICAL SCENE.

Old Glory and the Cuban Colors Waved Together on Every Side.

Filled with enthusiasm over their country's new military honors, the Old Guard saw that their guests at the Metropolitan Opera House last night danced to the tune of Spain's defeat in Cuba. No previous annual ball of the organization and exhibited half the martial pride and symbolism of this one. Old Glory waved resplendent at every point of vantage. The stage, merged into the vast auditorium by the dancing floor that levelled both, was set with a Cuban scene, of which the back-ground was a tropical forest. In the centre the colors of the people that no longer bow to Spain waved beside those of their victorious champion. The orchestra, too, breathed a martial spirit that was numis.

The usual opening promenade at midnight was led by Major S. Bills Briggs, commandant of the guard. The rivalry between military pomp and civic display was sharp, and the cleverest judges would have been hard put to it to decide upon the relative merits. The military organizations repre sented in the promenade were: Worcester Continentals, Boston Light Infantry, Al-

It is that Fancuil Hall may always endure that ancient wood is to be cut out to make room for mill construction. The element that wanted to tear down the Old South church has no part in this. The familiar cupola with its grasshopper vane will remain, stained copper will counterfeit the decaying weatherboards, and the outline and general detail of the original building will be made permanent. The outer walls are of brick, and these have been so well preserved by mortar and paint that they are practically as good to-day as when first erected. But the entire interior of the building was of wood, and naturally this has been attacked by dry rot in places, and the danger from fire was very great. The fire chiefs had also called attention to the fact that the building was a menace to surrounding property, besides being a place that would surely endanger lives if a fire should once start in it.

Last summer the mayor appointed a committee to consider the reconstruction or repair of the building, and in Nevember work was commenced.

The plan adopted contemplates the entire

reconstruction of the interior above the ground floor. The old floors will be replaced by steel and brick, the new roof will be of slate and steel and the inside walls will be of slate and steel and the inside walls will be teel and plaster.

The greatest care will be taken to preserve the exact original interior finish in the reconstruction, except that steel will take the place of wood. It has been found that the original corners of the building stood on piles of common field stone. These have been replaced by grante and coment piles sixteen feet decreases.

In place of the old wooden stairways leading to the main hall, the balcony floor and the Ancient and Honorable Artillery armory everhead, Iron staircases are to be constructed. They will be molded in exact imitation of the old wooden ones, however, and the banisters will be identical with the wooden design formerly in use.

An innevation on the main hall floor will be the conversion of the room on the south side of the stairway, formerly used as a kitchen, into a matron's room. It is intended to provide a resting place for women who happen to be in that part of the city and in need of a place of retirement. A matron is to be in attendance at all times there. Teilet-rooms are also to be attached.

A new steel and terra cotta brick floor is to be built for the Ancients' hall. This floor is to be traised eighteen inches in order to make from for the heavy steel girders. The selfsame grasshopper, which has served as a weather vane more than 150 years, will again adorn the top of the cupola and point the direction of the wind as of old. Heretofore the hall and its various rooms have been heated by stoves. Steam heat will replace these and make the building so much less liable to fire, and a complete system of electric lights will replace the present gas fixtures.

The whole cost of the reconstruction will be only \$125,000, and when it is completed, about Aug. 1, the building will be fireproof in the best sense of the word above the street floor, while it will have lost absolutely none of its old-time architectural flavor or detail.

The street floor and basement of the building are occupied as meat stalls, and this part is known as Faneuil Hail market, the stalls being let by the city at a coniderable profit. The main floor is of good wood construction, which will very likely be replaced by fireproof construction as soon as the present leases expire, which will be about one year.

As outlined already, the itinerary of the visit of the Ancients of London is to include a foringht's sojourn at the

loveliest time of the year in doing Niagara, the Luray Caverns, Washington and the vacation resorts which have made America famous. The question of transportation is therefore one of the most vital interest, and the flying trip of Thursday from Boston to Philadelphia was made at the request of the management of one great tailway company to see what it would offer. The opportunity was the departure for the first time in public service of the "Golden Gate Limited," with a party of 98 highly favored tourists, with for the next five weeks, will flit from Jersey City to New Orleans, to Mexico, to Southern California, San Diego Santa Barbara, Los Angeles, on board the masterplece of the Fullman Company in vestibuled trains.

Mr. McDonough, representing the Boston office of the Pennsylvania Road, was in general direction and unremiting in his attention to the party. The trip to New York was made without incident. Breakfast was served at the Manhattan and then carriages were taken for the Twenty-third Street Ferry. The Hudson was found full of grinding ice, which rendered it difficult at times for the boats to make their slips.

Arrived at Jersey City the train was in waiting. Originally there were but five cars, but two more were added yesterday owing to the pressure on the part of those who wished to make the California excursion. The books were closed last Christmas and then some 75 persons were disappointed. The five cars are named the America, Atlantic, France, China and Germany. Mr. Geo. M. The train was at the Omaha Trans-Mississippi Exhibition and again at Atlanta, Ga. It has never been used until now for public travel, being returned to Pullman and carefully covered when not on exhibition.

The interior finish throughout the train is East India vermilion wood, beautifully carved by hand; the lavatories and tollettes are all in Mexican onyx. The vestibules and entrances are tiled. Every car is lighted with incandescent electric lamps.

The first car on the train is a combination. It contains the smoking room furnished with lounges and arm chairs upholstered in heavy leather.

There is a handsome writing desk, well supplied, and a library comprising a very good selection from Kipling, Cable and others. Forw d of the smoking room is the barber shop, elegantly fitted. The dome over the barber's chair is fine crystal and gold, and is said to have cost in itself several thousands of dollars. Forward of the barber's is the bathroom, which is quite commodious. Beyond the dining saloon is the compartment car. This has two suites of sleeping apartments delicately uphotsived, and each in different tluis. Five rooms can be thrown open to each other by means of communicating doors. A bridal suite in white, with white satin hangings, complete the apartments. Each room has its own lavatory and all toilet conveniences within itself.

The next coach contains the ladies boudoir and retiring rooms in blue, and the last on the train is an observation car, with parlog grand planot, tete-tetes, library, and at the end a roomy veranda which will seat 15 persons.

The train was the centre of interest in Jersey City. Its departure was delayed for nearly an hour. The run to philadelphia was made in good time. There the Boston visitors were met by Mr. Keyes, a friend of Col. Hedges,

who extended the hospitalities of the Union League. Dinner followed at the Walten, and the party left on the return at 140 P. M. It was three degrees below zero, unprecedented weather for Philadelphia, with a keen west wind that cut like a knife. At New York, coming back, the party separated, the majerity returning on the midnight express. All were enthusiastic over their trip. It was agreed that nothing in the Old World could approach such railway palaces as these, and the company pledged itself to furnish the same or better for the Ancients of London. George W. Balley, the veteran of the Pullman employ for the past 17 years, who was Major Domo for President Harrison, and also for the Pan-Americans, accompanied the party and explained everything.

The Ancients' special train for the London Ancients' visit is what is commonly known as "a dream of luxury" in railroading. The dome over the barber's chair is fine crystal and gold, and is said to have cost in itself several thousands of dollars. That of course adds greatly to the comfort of the tourist. The dining salon is supplied with ice boxes having a capacity for all cooked meats which may be necessary for 40 persons from Boston to 'Frisco. A bridal suite in white with white satin hangings, complete the apartments. Each room has its own lavatory and all toilet conveniences within itself. The contest for the occupancy of this opens up possibilities of martial warfare that are terrible.

The annual meeting and dinner of the "15 Club," composed of members of the Ancients, was held Wednesday at the Parker House. Capt. Hichborn presided, and as special guests the club entertained Col. Alexander M. Ferris, Licut. J. Stearns Cushing, Mr. Fred. M. Purmort and Mr. Joseph L. White. Capt. Fottler was made president for the coming year. After the dinner eight of those present, all prominent members of the Ancients, left for New York, where they are to inspect the train designed to carry a party of the distinguished foreign guests expected in 1900 on a tour of inspection through the eastern and some of the western states.

CHEERS FOR IMPERIALISM.

Captain Seaholm of the English Army One of the Guests of Honor.

AFFAIR WAS WHOLLY INFORMAL

The Ancient and Honorable Artillery The Ancient and Honorable Artillery Company celebrated the birthday of George Washington yesterday afternoon at the Quincy House through the medium of an elaborate dinner and an array of excellent speakers.

While the life, work, character and sayings of the great first President were the particular theme, there were throughout all the notable speeches ex-

hroughout all the notable speeches exressions apropos the time and the resent crisis in the nation's history. It dent by the enthusiastic recep in given to the utterances on "ex-insion" and "imperialism" that the ncients, as a body, are heartly in impathy with the policy of the pres-

sympathy with the policy of the present administration.

This was most forcibly manifested during the speech of the Rev. Stephen H. Roblin, president of the Universalist Club and an ex-chaplain of the company. He was pronouncedly for expansion, and created quite a stir by asserting that the farewell address of Washington was wilfully contorted to suit the purposes of those opposed to cleaving the provincialism of the past. He classed McKinlev as the third great President of the United States, and characterized Aguinaldo as a rascal and a child of the devil—this for the wilful shooting on the Red Cross wearers.

The speech was the most stirring of the evening, and his auditors were carried away by the flights of oratory. They stood and cheered and waved their napleins and yelled themselves hoarse when Mr. Roblin declared that America could do better than England, "for she was the young, vigorous off-spring of a sterling mother."

The "smoke talk" was largely at-nded, hearly 400 being present. At a head table sat Major Duchesney, mmander of the Ancients; Major commander of the Ancients; Major William Quinton, Captain A. W. Seatolm of the Fifteenth Hussars, General Choate of Maine, the Rev. S. H. Roblin, Colonel J. Payson Bradley, Captain Folsom, the Hon. Harrison Hume, George S. Merrill and J. H. Taylor. Seated at the head table was a captain in her Majesty's army, A. W. Seaholm of the Fifteenth Hussars. The captain wore his uniform and sat beside Colonel Payson Bradley. They had a lovely time, a reminiscent time. They talked of the never-to-be-worn-out visit to Longary 10 of the Fifteenth Captain was a sea of the never-to-be-worn-out visit to Longary 10 of the first terms of the first terms of the never-to-be-worn-out visit to Longary 10 of the first terms of the first terms of the first terms of the never-to-be-worn-out visit to Longary 10 of the first terms of the first t

fain had to lift his voice.

They, that is, the captain and the colonel, turned the course of their tetea-tets to the prospective visit of the Landon company to Boston next year. Above the turnult of the merry voices arms across the table the name of the Prince of Wales. Said the captain: "Why. for royalty about him. I hope he will come over. Why, my dear colonel, h would be great. He is a prime fellow.

Just then the band struck up "The British Grenadiers," a pretty compliment to the English guest, and the whole-hearted Ancients cheered, and the cap-

hearted Ancients cheered, and the capa-tain colored with pleasure.

"By joye, that could have been done no better at home."

With that wonderful versatility pecu-liar to the members of the company, they commenced singing "There'll Be a Hot Time" and "There'll Never Be One Like

You." Everybody meant somebody else.
The time usually set apart for the din-

The time usually set apart for the dinner courses is delightfully trespassed upon by many an Ancient into a period for the renewing of old acquaintances. There is a continual stream of callers meandering among the tables, and "Hello, old fellow," comes with the ring of genuine greeting.

"Joe White! Joe White!" yelled the coterie of Ancients at the back of the room. "Joe" is the Ancients' songster, but "Joe" wasn't quite ready.

Major Duchesney called the guests from refreshments to the oratorical exercises. His command to "come to order" was obeyed after a brief space. There was a lack of thorough military discipline in coming to attention. He was glad that the members had been "enjoying themselves," and he was glad to greet them all to the celebration of the birth of the greatest American of them all. (Applause.)

"Who was George Washington?" yelled

"Who was George Washington?" yelled

"Who was George Washington?" yelled a voice at the rear end of the banqueting hall. Came the answer:
"First in war, first in peace, first in the hearts of his countrymen." Thump, thump, thump, thump, thump, thump, Sergeant "Joe" White, without whose voice the Ancients gould not well exist, was called upon by his captain to sing a song. "Joe" sang and received the enthusiastic applause always given him by his comrades. his comrades.

his comrades.

Harrison Hume was called upon to respond to the toast, "George Washington." He said he was not a speechmaker, but he would be a poor man who could not say "God bless the memory of George Washington and God bless our native country."
"Today," he said, "the nation brought out by Washington extends from the

out by Washington extends from the rising to the going down of the sun. It now, for weal or for woe, never sets upon the American possessions." Mr. Hume spoke of the vast millions that now by war are under the flag of the United States, and brought home the grave responsibilities that now rest on this country. "Remember," he said, "that farewell address of Washington and give to these peoples the rights of liberty, of peace and of the pursuit of happiness." Colonel J. Payson Bradley responded to the toast, "The Governor." Colonel Bradley briefly reviewed what Massachusetts has done in the late war. The mention of the late war. The mention of the said one in the late war. has done in the late war. The mention of the name of Nelson A. Miles created the wildest enthusiasm. He stated that Mas-sachusetts had exceeded her quota in the Spanish war by over 5000, and the list is still growing. Mr. Bradley spoke of the friendly attitude that England has taken toward this country. He closed by introducing Captain Seaholm of the Fifteenth Hussars.

Captain Seaholm.

The company arose and cheered the ittle captain lustily. Captain Seaholm spoke of the miniature axes lying about he tables, and aptly remarked that the latchet had been burled between England America. As to an alliance, he ind America. As to an alliance, he ind at the latest the strength of the latest the latest the strength of the latest the leady existed. At the close of the latest latest

Major Quinton of the Fourteenth Infantry was the next speaker. As an
aftermath of she Spanish war, the questions of "beef" and the reorganization of
the army were taking up the attention of
the people. The reorganization of the

General Choate of Maine spoke enthu-instically of his native State and of her reat statesmen now in the service of

coming out of bondage and travelling to the promised land, which, he said, was civilization to the world. He likened McKinley to Moses, and urged that the people hold up his hands. Sergeant Blaisdell, formerly of the First Massachusetts Cavalry, greatly amused the company by his stories of the Civil War.

Mr. McFadden, sheriff of Kennebec county, Me., spoke. He was followed by Colonel Henry Walker, who made a remarkably fine eulogy on Washington. Other speakers followed.

The souvenirs of the occasion consisted of a hatchet, the gift of S. Raymond, and a small tumbler, the gift of the committee of arrangements. On the tumbler was ground a bust of Washington, the date of the smoke talk, the insignia of the company and the names of the committee.

The Favorite of the Ancients.

The Ancient and Honorable Artillery Company, which celebrates all the holidays of all nations, did not let Washington's Birthday escape it. It had a banquet at 2 P. M. and the enthusiasm was great. A toast to the memory of the Father of his Country was drunk with fervor. The patriotic sympathies of the Ancients never fail to respond to calls upon them. The subject of the toast doesn't matter; the toast's the thing. We take from the Boston Herald this picture of a corner of the banquet:

There was a war dance with hatchets, a semewhat dangerous amusement in view of the stern joy which these warriors feel at the dinner table. But the chief glory of a "celebration which will go down in history as the most interesting held for years," was the speech made by Col. J. PAYSON BRADLEE, a past commander of the company. He "paid a glowing tribute to Gen. NELSON A. MILES, the mention of whose name was followed by round after round of cheers.

This was as it should be. Heroes know heroes instinctively. The Ancients admire MILES, and we have no doubt that MILES admires the Ancients. They should make him!an honorary member at once.

It is not wholly improbable, it is hoped, that he may not come. The question of further entertainment to Sergt. Ousey by the London Committee will depend upon the length of his stay. He is no stranger to Boston, coming frequently here on business.

Visit of Londoners Next Year to Be the Event of a Lifetime.

GRAND RECEPTION PLANNED.

As now planned by the Ancient and As now planned by the Ancient and thonorable Artillery Company, the visit of the Honourable Artillery Company of London next year will be the greatest undertaking and the greatest success in the history of the company.

It is hoped by the committee that the greatest feature of it all will be when the Prince of Wales and William McKinley stand on the same platform and clasp hands before the assembled multitude.

The Rester "London" committee say

hands before the assembled multitude.

The Boston "Loudon" committee say also that the banquet to be given will be the most elaborate and the most magnificent ever attempted in this country; that the special train which will convey the visitors to Montreal, Niagara Falls, Chicago, Washington, Gettysburg, West Point and New York will be the most palatial ever run over American steel-

rails.

The Ancients, too, purpose doing all the entertaining out of their own pockets, and the finance committee have called for a fund of \$50,000.

The company is taking time by the forelock, and yesterday marked an epoch in the matter of preparations.

During the afternoon at the Parker House the London committee were in session, and at the meeting was Sergeant George R. Ousey, the representative House the London commerce was Sergeant George R. Major Laurence N. Duchesney, commander Major Laurence N. "With the beginning of our new national policy, already full of incident, and with Dewey still making history in the Philippine Islands, the place or position of the United States in the councils of the world is still one of those great questions about which no man can prophesy. Yet, of one thing I think we may rest assured, that, in whatever does come to us as a nation in the near or remote future, the Stars and Stripes and the Union Jack will be floating from the same masthead, and that he who undertakes to deal with the one must also deal with the other. We are not looking for trouble, but if trouble comes the Anglo. Saxon peoples of the world will be found on the same side of any difficulty which may arise.

"It is too early yet to say what the details

"It is too early yet to say what the details of the spiendid programme we are meditating will be, but there are a few things which I think we may hope for. First of all, the presence of H. R. H. Albert Edward, the Prince of Wales. Then again, the President of the United States should be among us. Then again, in our harbor, we shall hope to see some of the great ships of our fighting line, and possibly we shall hope to see some of the great ships of our fighting line, and possibly we may see among us the great hero of our war, Admiral George Dewey himself."

Sergeant Ousey has been in conference with the Ancient and Honorable Artillery of this city whose guests the members of the famous London military organization will be while in this country. The Boston company visited its namesake in London several years ago, the occasion being a notable one from the fact that it was the first occasion on which a body of armed Americans had set foot on English soil.

The Americans were accorded a hearty welcome and it is their intention to reciprocate the British hospitality by providing elaborate entertainment for the London Honorables when they come here next year. One of the features of the visit will be a two-weeks' trip all over the country in a special train gotten up as finely as is possible in America.

company was a part of the militia, they laiso should have the same exemption.

"Of late there have been a number of hues and cries about the Ancients," he said, "not alone in regard to this question. To my mind, there is no reason for this feeling, and I think it is due to the ignorance about the company. In my opinion the militia are rightly exempt from jury duty, and it is especially surprising that this right should be doubted at the present time, when we have seen the valuable services they have performed. Of ccurse, they are called upon for service only occasionally, but in addition to this they regularly perform various duties, such as drilling and yearly camp work, which alone would seem to entitle them to the privilege. Only a few years ago there were complaints about the commons cost of the militia to the State, but now I dare say that they could have almost anything they want.

"As records and history prove, the A. & H.'s were once the only defence of the State, always at the Governor's orders; and it from 10 me they are now periand parcel of the militia. Ninety-nine dundredths of the people of Boston, Massachusetts and the United States do not care a picayune whether the London trenchermen come over here next, year or stay at home, and they are not bothering their heads, either, whether int. The Ancients have at last met a foe. They are lined up in battle array against the Board of Election Commissioners. Annual Report of Election Board Issued

Department Work for the Year Is

In the annual report of the Board of Election Commissioners, which came from the press today, there is one recommendation at least which will be of much interest to many people. It is the clause which states that the commissioners see no good and sufficient reason why members of the Ancient and Honorable Artillery Company and the volunteer militia should be exempt from scrying as jurors. Suffice it to say that none of the four commissioners is a member of either organization.

The examptions from jury service slowed by law include so large a body of citizens that we believe such exemptions should be that we believe such exemptions should be reduced. We see no good and sufficient reason why members of the volunteer militia and of the Ancient and Honorable Artiflery Company should be relieved from serving as jurors, and we believe that an advantage would be gained if the limit of age were increased from sixty-five of seventy years. We therefore recommend such changes in the law. As the term of service of increases now so what we beservice of jurars is now so short, we helieve it would be wise and expedient to further change the law, so that a person shall be liable to be drawn and serve as a juror once in two years, instead of three years;

Providence Journal much 29, 1899.

The proposition that the members of the Ancient and Honorable Artiflery Company of Boston should be compelled to serve as jurors, like other men, is an attack upon their liberties which we are sure they will resist to the death. Exemption from such duty is little enough for their grateful countermount to the first limited. trymen to pay for their services, valor ous in war and peace alike. The headquarters should be the Parker House.

A DUTY, NOT A PUNISHMENT

If it was the purpose of the Election Commissioners to make a point against the Ancient and Honorable Artiflers Company (many or whose members un ubtedly joined it to escape jury duty; seems to us that they made a mistak expressing the opinion that not or e members of this company, serving in the volunteer militia are ex-supted from jury duty for the same reason that members of the police and fire departments and certain public offibials and persons engaged in designated employments are exempted. This reason is that their other duties are so in portant to the public that the publicannot afford to have those duties t terrupted by even so important a mat

It would be a dangerous experiment to remove the exemption from members of the militia. The Election Commissioners might have advanced tenable objection to the provision of the act of 1887, "any officer or soldier with has served continuously and faithful for nine years in the volunteer shall be exempt for life thereafts the performance of jury duty ishment which should by all mean considered, a sacred duty which the good citizen will attempt to e-

A USE FOR THE ANCIENTS.

The Board of Election Commission ers makes a very practical suggestion in its annual report in advising that the exemption from jury duty which members of the Ancient and Honorable Artillery Company have enjoyed from time immemorial be withdrawn. This seems to be reasonable, from whatever point of view it is regarded. The Ancients are essentially a representative organization and essentially peaceful. They are admitted, bearing arms, on foreign soil simply because of their peaceably representative character, and in this capacity they have served their country in London, at Windsor in the presence of royalty, in the Dominion of Canada and elsewhere. Why should they not extend their representative services to include the jury box?

There is no reason, other than the preservation of a traditional privilege, why the Ancients should be exempt from this duty. They are a class of men, moreover, who ought to take the lead in setting an example of willing service in this capacity. They unquestionably would make good jurors.

As for the volunteer militia, now exempt, which the election commissioners ask to have included in the same category, that is altogether another story. The militia render some actual service to the State which is fully an equivalent, in time and labor expended, to any service which militiamen might be called upon to render on juries. The militia ought to be exempt. And if the Ancients are to continue to enjoy their exemption, why not have that corps join in with the rest for militia duty?

It is proposed to repeal the law which exempts the members of the Ancient and Honorable Artillery Company from jury duty. If the law is changed there will be quite a falling off in the membership, for not a few of Boston's ablest and richest citizens cover themselves from service on juries with the folds of the ancient banner of the corps. Somebody who knows all about it says that a majority of the Ancients are upwards of 70 years of age, and exempt on that account, so that the corps would be able to maintain the ancient traditions and turn out with full ranks, even though the law should weed out some of the youngsters.

Very radical not to say revolutionary recommendations are made by the Massachusetts board of election commissioners with regard to exemptions from jury duty. They believe that members of the volunteer militia and of the Ancient and Honorable Artillery company should no longer be relieved from serving as jurors. One shudders to think of the consequences of this recommendation if it is carried into effect. The boys who occasionally wear the blue or brown in their country's service may step into the jury box without a murmur, but when it comes to the gaily panoplied warriors whose valiant assaults on many a well spread table are recorded in gastronomic history it is a different thing. They are all good men and true, of course, but to expose them to jury duty is not what they expected when they enlisted. The election commissioners should withdraw this recommendation ere it is too late or something dreadful may happen.

A BLOW AT THE ANCIENIS.

The elections commission of the city of Boston has made a recommendation in its annual report which, if adopted, would deal a deadly blow to one of the most picturesque and attractive institutions in Massachusetts, if not in the whole country. It has recommended that the members of of the Ancient and Honorable Artillery Company be deprived of their chief civic privilege-exemption from jury duty. Why did not the members of the commission exhibit the courage of their convictions and boldly advocate the disbandment or abolition of this venerable and martial body? "You might as well kill me," said Shylock, "as take away that by which I live." Make jury duty compulsory, and the Ancient and Honorable Artillery Company will vote itself out of commission and leave the community to the tender mercies of anarchists, socialists and other disturbers of the peace, foreign and domestic.

Boston is justly proud of her great corps of veteran and variegated warriors. They have been her prop and support in trying situations. They have dispensed her hospitality; they have carried her fame to other lands and climes; and they have contributed to her stock of military glory. When the Old Guard from New York, or the Putnam Phalaux from Hartford, or the City Troop from Philadelphia, contemplates a raid upon Boston the Ancients buckle on their armor and rush to the front to receive the shock and protect the city from plunder and lawlessness. No other body of troops in the state could successfully cope with these valiant trenchermen; and for these and numerous other services the only recompense they ask is that they be not com-

pelled to serve on the jury.
Who carried to the British capital the name and fame of Boston and made them household words in the royal palace at Windsor? The Ancient and Honorable Artillery Company. Princes and princesses, dukes and duchesses, lords and ladies, generals and admirals, statesmen and civilians, saw them on parade and realized at once that Boston was not only a great city, but a city that it would be folly to attack so long as the Ancients were willing to bear arms and dine at Faneuil Hall. Just now the command is engaged in making preparations to entertain the Honorable Artillery Company of London next year. This return visit, we are assured, is intended to cement still more closely the bond of brotherhood between the two nations, and to give notice to the world that further opposition to the progress of Anglo-Saxon civilization is futile. Shall this international and fraternal enterprise be jeopardized by the possibility that at the most

critical stage in the festive proceedings, the sheriff might step into the banquet hall and carry off to the court, precincts one of the leading lights? Let it not be. Let not the rude and vulgar hand of civil authority pollute the sacred uniform of the Ancient and Honorable Artillery Company, which has passed gloriously through three wars unscathed, and which is the pride and boast, as well as the guardian and protector, of the good city of Boston. Let the jury lists be enlarged. Let others now enjoying exemption from service be deprived of it, but the Ancients, never!

"On Sept. 20, 1814, thirty-nine members manfully piled a shovel on Noddle's Island. The company had also paraded on Sept. 5, the rogular field day, in a half uniform adopted during this period of warlike alarms—namely, a blue or black coat and pantaloons, boots, round hat and cockade; military stocks and cockades being affected at that time as generally by the men as the slouch hat has been by both sexes during the recent war. Gov. Strong was frequently met coming from his boarding place—at Mrs. Hatch's, on the corner of Winter and Tremont Streets—with a black suit, white-top boots, and cocked hat, on the front of which was a large black cockade."

Boslon Commercial Bullelin april 1, 1899.

If the suggestions of the Board of Election Commissioners are adopted, the usefulness of that already eminently useful organization, the Ancient and Honorable Artil. lery Company, will be extended. Its members will, in fact, be called on to adjudicate upon the quarrels of ordinary citizens as well as to protect them from the depredations of a common enemy. In other words, they are to hold themselves in readiness to serve apon a jury whenever occasion may require. The arduous nature of their military duties has hitherto exempted them, but it is felt. now that the war with Spain is over and Aguinaldo is as good as vanquished, that they can spare sufficient time from drill toassist in judicial proceedings. That their discretion will equal their valor no one

Everybody is indeed delighted with the contemplated arrangement, and the feeling that Boston is to be congratulated on the possession of this unique body, as servicea. ble in peace as in war, gains ground. Every year will add to the debt of gratitude we owe them. That it is already heavy must be admitted if we but recall the sense of security engendered, during the recent unpleasant. ness, by gazing on the stalwart forms and terrible weapons of these trusty warriors. We felt that if they were somewhat ancient they were also honorable, that they would never leave nor forsake us, that while others were at the front they would be right here parading manfully, dining jovially and teaching us all to despise the enemy, at a distance, as heartily as they themselves did.

The annual report of the Board of Lice tion Commissioners of the City of Boston contains a recommendation that will cause surprise, indignation, and pain in all parts of the United States, in Canada, in Great Britain, and in Paris. It is this:

"We see no good and sufficient reason why members of the American and Honorable Artillery Company should be relieved from acting as jurors."

We see hundreds of good and sufficient reasons why members of the Ancient and Honorable Company should be relieved from acting as jurors, and the Election Commissioners must be ungrateful and reckless men not to see or to seorn those reasons. The company is one of the most venerable of Massachusetts institutions only two years younger than Harvard Colege, only eight years younger or less old than Boston herself. It is entitled to special privileges for its antiquity, as well as for its shining modern services. If the musters which it has filled with its pomp were set in array, one after the other, they would reach from Boston Common to the headquarters of Gen. SAMBO BOWLES at Springfield. If the election sermons to which it has listened were bound together they would exceed in cubical contents, if not in weight, the writings of ALADDIN AT-RINSON and GAMALIEL BRADFORD. If the chief part of the rations that it has consumed in sprinkling the dusty ways of war were catalogued, there would be a complete istory of wet supplies from 1838 to 1899, from West India rum to and past New Engand rum, from ilip and negus to the wines of Kentucky and Champagne. Surely a company with such a history is to be protected tenderly. It is a monument.

There is little doubt that the disappearance of the Indians, including the powerful tibes of the Nipmucks and Hassammessets and OALEB CHEESHAHTEAUMUCK of Martha's Vineyard, was principally caused by fear of the Ancients. This is a fact not sufficiently elucidated by the historians, but accepted by all who can guess from the more recent. chievements of the company what a thunderbolt of war it must have been in the good old Colony times.

Of those more recent achievements it is superfluous to speak, even if they are not treasured by the Boston Election Commissloners. The world cannot forget the herole hand that has never allowed the tides of war to dilute the basement of supplies, and has charged desperately in buffet cars upon Quebec and Halifax. Who invaded England and brought her to her knees? Who celebrated the fall of the Bastile in Paris? Who has arranged a grand series of international banquets and excursions for the Honograble Artillery Company of London? Terrible in battle, yet missionaries of peace, the Ancients were never busier, never more beneficent than they are to-day. Their plan for international peace is more feasible than any that will be pregented at the Czar's conference at The Hague. They seek to stuff the world until it gots too fat to fight. If war ever ceases, they are the men that will have shortened its breadth and doubled its girth. NICHOLAS II. has much to learn of SID HEDGES and FRED PURMORT.

As men who can be depended upon to beat the sword into a corkserew the Ancients are justly exempted from jury duty. They gerye the State amply now. And if they were not entitled to exemption on their merits, they would still have to be exemptfor the unanswerable reason that they are so occupied in giving and consuming banquets as to have no time left. They are a perpetual jury to try bills of fare.

AN UNCOMMON CALL

The Boston papers of yesterday annonnced in their accounts of the arrangements for receiving the Ancient and Honourable Artillery company of London that the Ancient and Honorable Artillery company of Boston had elected as its Chaplain the Rev. William K. Hall, D. D., of Newburgh.

In some respects this is the highest social distinction that Boston can confer upon a clergyman, and it is especially an bonor now, on the eve of the visit to America of a famous company of Engushmen.

Among the predecessors of the Rev. Dr. Hall in his new office were Phillips Brooks, Henry Ward Beecher, Storrand Talmage. The Ancient and Honorable Artillery company was organized in

Tonight they return to us and we rejoice. Although the boys of Co. K did not partake in actual warfare, their bravery was none the less on that account. The courage of the battlefield is not the highest courage. It is the courage of camp life that often tries the soldiers and you have stood that trial well. You shared in the great work of joining all sections of the country and wiping out the last traces of sectionalism. Philbreck, who afterward became widely known as one of Boston's most advanced educators. At the recent 50th anniversary of the foundation of the school, observed by its flourishing alumni association, Dr. Hall made a very impressive and brilliant address. He was graduated at the public Latin school, and will be remembered by some of the older graduates for his oratorical gifts. He entered Yale University in 1855, and was graduated with high honors. He pursued his theological studies in New Haven and in Berlin, from which he returned to his native land to enter the civil war as the chaplain of the 17th Connecticut volunteers. British Guards' Band to Play Here Next Sunday and Monday.

For the first time in history since the days of 1776 when the English soldiers were driven out horse, foot, artillery, "baggage, bands and all," will Her Majesty's uniform be seen in Syracuse. That will be next Sunday when Lieutenant Dan Godfrey and his famous British Guards' Band arrive here.

This organization is the first military band in Great Britain, led by the conductor for forty years of Her Hajesty's Grenadier Guards and composed of men who have served in the "crack" regiments of Her Majesty's household They inaugurated their tour a month

ago by striking the first note in the White House before President McKinley and a distinguished gathering of Cabinet ministers and diplomats. In New York what is said to have been the largest audience of the season assembled in the Seventh Regiment Armory to cheer on the "Anglo American Alliance in In Boston the Ancient and Music." Honorable Artillery Company turned out as a body to the concert while a delighted audience gave rounds of cheers after each .nu'aber. Lieutenant Godfrey and his men won all hearts there by turning out to escort the home coming Fifth Massachusetts Regiment. and a unique sight was witnessed when the blue coats of Uncle Sam marched up Bunker Hill to the music of the British Grenadiers.

While the band is said everywhere to have been occasioning an outburst of international good feeling, the critics have been most enthusiastic in their commendation of its musical qualities. "Undoubtedly the best that has visited the city," was the comment of The New York Times. "In band concerts they have reached the pinnacle of excellence," said The Washington Post.

Lieutenant Godfrey and his Guardsmen will appear at the new Wieting Opera House Sunday evening next and there will be an extra matinee Monday afternoon. The soloists are all said to be remarkable artists and one of the drummers gives a number in which he plays no less than twelve different instruments.

ANCIENTS OBSERVE THE DAY.

Events of a Year Reviewed by Several Speakers.

The Rev. Stephen H. Roblin Speaks on Expansion - Dr. Horton Recalls the Origin of the Day-Maj. Quinton and Lieut. R. C. Smith for the Army and Navy.

A year ago yesterday the Ancient and Honorable Artillery Company and its friends assembled at the Quincy House to celebrate "Patriots' day." The talk then was of war and its dread results. Yesterday the company again gathered at the same place, to again celebrate the deeds of the men of Concord and Lexington and of Boston and Cambridge. The war cloud that hung suspended over the country in 1898 had burst; the war, with its dread realities, had come and had passed away, and it was natural that all of the speakers (should take occasion to refer to the difference in conditions existing a year

Continuing, the speaker said he believed in parties, but abhorred vicious partisanship. A strong opposition is ever a safeguard to honesty and efficiency in an administration. There are noble, unselfish patriots in all parties, and these do not deplore strong and efficient opposition ut of existence and sweep opposition out of existence and sweep opposition out of existence and sacrifice patriotism to personal power and insatiate greed.

Lieutenant Smith said that the work done by the navy now seemed simple enough, hecause-they had prepared them selves for just such work, and did the best they knew how. He gave these reasons for the success of the naval actions: First, an inferior foc: second, the interest and training of the American people in mechanical devices, and, third, strict; attention to duly. He advised the increase of the navy and concluded with some very interesting episodes of the war.

Rev. Mr. Horton and Chaplain Boblin Address the Ancients on War

About two hundred members of the Anclent and Honorable Artillery Company observed Patriots' Day by a smoke talk at the Quincy House yesterday afternoon. The out-of-town members included large delegations from Gloucester, Southbridge, New Bedford, Lowell and Taunton.

Among the guests were J. J. McCarthy, Major Quinton, U. S. A., Lieutenant R. C. Smith, U. S. N., who participated in the destruction of Cervera's fleet; Chaplain S. H. Roblin, Rev. Edward A. Horton, George Francis, Dr. A. D. Kinsley, Dr. S. S. Car-ruth, M. C. Campbell, A. M. Anderson, Fred W. Spring, Isaac Booth, William Jowett, J. H. Andros and Benjamin S.

Major Lawrence N. Duchesney, who presided, extended a cordial welcome and in-troduced as the first speaker Rev. Mr. Horton, who in the course of a patriotic address paid a glowing tribute to the late; Governor Greenhalge, the "man who made Patriots' Day." His reference to Secretary Long and the part he had taken since his advent into the McKinley cabinet was also loudly applauded. Continuing, he said: "I want to say to the creaters, the cynics." "I want to say to the croakers, the cynics and doubters that I believe in my country, and I believe in the way it is facing. For anyone who cannot see in the Stars and Stripes the salvation of the world, I can-not see what our free institutions, what our, public schools, have done for him." With, all respect to Senator Hoar, Mr. Horton, said he believed Aguinaldo to be a bribable, seifish man, they to be a bribable, selfish man; that if he could do what he did, accept the dollars of Spain and leave

Chaplain Roblin followed in the same lines. He was glad to hear Lyman Abbott say at the recent peace meeting, "Had I been in Manile and witcomids had ordered. been in Manila and exigencies had arisen, as they have arisen there, I would have done as General Otis did." Let it be said to the credit of Massachusetts that Tremont Temple, filled though it was by people assembled under a different propaganda, rang again and again with applicate, showing that when you get down to the heart of the people of Massachusetts it always rings sound and true. Representatives of England and America Talk About the Trip of the Ancient and Honorable Artillery Company, and an Anglo-Saxon Entente

Last evening the London Club, composed of members of the Ancient and Honorable Artillery Company, who went on the trip to England, had a ladies' night, consisting of a reception and dinner, in the Hotel Venof a reception and dinner, in the Hotel vendome. About five hundred members and guests were present. President Robert H. Upham told of the proposed trip of the London organization to this country hexty year, and also of the magnificent generality of the English organization to their American brethren. Letters of regret were read for the Brail Military responsed. from the Earl of Minto, governor general of Canada; from the military commander of the Canadian militia, General Edward H. the Canadian militia, General Edward H. Hutton, and from Premier Laurier, regretting their absence. The first toast was "The President of the United States," the orchestra playing the national anthem. The response, and the toast to Gleen Victoria was followed by "God Sate the Queen." "The Ladies," was the next toast, gracefully responded to by Hon W. A. Morse. "Our Country" was the deby Rev. A. A. Berle of Brighton, who as ted: "What does our country need today. That is the question 75,000,000 people are trying to solve, and no man can say now just what it does need. But our country does not need area.

need. But our country does not need area that it simply to be governed by the United States. It needs a larger brotherhood, a States. It needs a larger brotherhood, a greater personality and good citizenship. The guest of honor, Hon. A. A. Stockton of St. John, N. B., expressed thanks for the courtesy extended the royal family, and went on the say that last year, when he was in Boston, the war clouds were gathering, and at a public dinner he expressed hope that if war were declared, the union lack and the stars and stripes would be entwined together. "I am pleased to find both the flag of England and the flag of the United States decorating this hanquet hall tonight," he said, "and trust that in times of peace or war this may that in times of peace or war this may

always be the case."

Colonel Henry Walker spoke for the Ancient and Honourable Artillery Company of London, the parent organization. "God grant that the cordial relations existing between this country and England may ever exist," was the toast given to Hon. Patrick A. Collins, who was consul general London when the Ancients visited

here.
Mr. W. T. B. Ball read an original poem, and Rev. E. A. Horton expressed the begief that there must come a special alliance between this country and some other country. A certain cooperation of nations is needed, he said, although he maintained that the stars and stripes were fit to canoby the capitations of any people. Hon. Harrison Hume, Rev. S. H. The Hon. William Highborn of Charlestown navy yard, delivered an address Tuesday evening in the Maplewood Congregational course. This was the second of the Y. P. S. C. E. free entertainment series. Dr. J. H. Sexton presided and introduced the speaker. Mr. Hichborn traced the growth and changes of the American navy, and his anecdotes were exceedingly humorous. He related several experiences while abroad with the "Ancients," and graphically described the system of English docks. The large audience present thoroughly enjoyed his stories of the Charlestown navy yard and the vessels' constructed there. Mr. Hiehborn then touched upon the "Historic cruise of the training ship Enterprise," and closed by inviting his audience to visit him at the navy yard. Hearty applause attested his success at entertaining and instructing his hearers.

Charlestown Enterprise

A Charlestown enthusiast asks: "Why can't those influential members of the Ancient and Honorable Artillery Company who live in this district arrange to have the London Company, which visits this country in June, stop over until the Seventeenth and take part in Charlestown's big celebration?" He adds that the visitors after touring the country, return to Boston on the 15th and leave for home on the 16th. The occasion he believes would benotable in the annals of both countries, and another public manifestation of the bond of fellowship which exists between the two great countries; and on such a day, too, it would provoke the favorable comment of the entire world!

STRIFE AMONG THE ANCIENTS.

Can Sid Hedges Really Be Using Cramm to Defeat Col. Henry Walker?

Boston, April 29.—Dear, staid, prudish old Boston is on the very verge of a social revolu-tion, and it is all along of that brave though bibulous corps, the Ancient and Honorable Artillery Company. The Hub is shaken to its very centre, and the respiendently glided dome above the Bulfinch front of the State House is frighted from its propriety. The historic organization is at the present time composed of two bitterly hostile factions, and, indeed, so so great is their hatred, one of the other, that so great is their hatted, one of the other, man there are those who have fears for the exist-ence of the company. This is the account given of the matter by a man who says he knows all about it:

"The trouble has been brewing for three years, or before the command paid its visit to the shrine of its varent, the Honourable Artillery Company of London. The factions then, as lery Company of London. The factions then, as now, were respectively headed on the one part by the hirsuite and belligerent Col. Henry Walker and on the other by the adipose yet fascinating Sid Hedges. Walker's ambition lay in his being commander of the company on its visit to England, and the adipose was equally ambitious to down the hirsute one. When the election was held Walzer was largely in the ascendant, and though Sid Hedges an his followers fell like Liuster, yet that were not without hope, and expected to rise again since that time there has been no love lost be tween the rival contestants. holing every one to be sure to be there. By "both sides" I mean, of course, the partisans and the opponents of Henry Walker.

Every fight in the Ancients, for years, has been, in one form or another, waged around Henry as an issue. Now he wants to be commander again. His friends say that he is the only member who has the "front" to make a commander, and they are ridiculing Eddie Cram, who is the other candidate. The anti-Henrys affirm that if he is chosen for the third time, a considerable number of members will immediately resign, that his choice would be a personal affront to Col. Sid Hedges, C. R., who, as chairman of the committee to entertain the London Hons, next year, has quite a money raising task before him, and that Henry is rather overdoing the commander business. But some who are said to have talked with Col. Walker extensible the control of advising him to withdraw, are said never to have got so far as that part of their programme. They were congoaled before that stage in the proceedings.

Meantime, Hedges' friends are working as hard for Cram as they would if Hedges was the candidate himself, on the ground that he will not be able to get along at all, with Henry in command. But the latter is quoted as say-

the ground that he will not be able to get along at all, with Henry in command. But the latter is quoted as saying that he will "not retreat in face of the enemy." I do not think that he will. But if Henry could hear the things that fill the air at Parker's, he would realize, to his unutterable anguish, how little veneration is expressed, even towards a battle-scarred hero like himself. By the way, I hear that Lt. Col. Guild has expressed a desire to be an Ancient. There are votes there and Pates had better put in an ambatton.

MUCH MILITARY ENTHUSIASM.

Plans Complete for Next Week's Big Tournament.

Many Reminders of the Recent service of Massachusetts Troops in the Spanish War - Cavalry, Returned Volunteers and Naval Brigade to Participate.

Preparations for the military and naval tournament are complete, and Monday evening next will witness the inauguration of what promises to be the finest exhibition of its kind yet held in Boston. For six evenings Mechanics builling will be the rendezvous for the ex-soldiers and callors of the late war. Mussachusetts' patriot sons who have worn the uniform of Uncle Sam will be there, and representatives of every state organisation that enlisted in the

service of the nation, on land or sea, will participate.

Monday evening's programme is replete with stellar attractions. To begin with, Dodd's famous troop of cavalry troop F, 3d United States cavalry-will be there to open the exhibition with spectacular and rough riding drills. This troop will arrive in Boston on Sunday morning at 8 o'clock, coming from their post, Fort Ethan Allen, by special train. They come in at the North station where they will form on their arriva and march to the Mechanics' building. Beside this foreign attraction, local interest will be stirred to something like enthusiasm by the appearance of delegations from every state organization than entered the national service, including a company from each military regiment of infantry, five companies in all; troops from the heavy and light artillery service, and a provisional division from the Massachusetts navail brigade. All these will be reviewed at the Mechanics' building on Monday evening by the Governor and his staff, whose presence will virtually amount to an official opening of the tournament. Following the review there will be cadets of the Massachusetts Institute of Technology battalion, a mortar glill with 10-linch mortars by battery D, ist heavy artillery, ar rifle calisthenic drill by the cadets of the Massachusetts Institute of Technology battalion, a mortar glill with 10-linch mortars by battery artillery artillery, an extended order or skirmish drill, with black and smokeless powder used by opposite sides, and rough riding and music drill by Capital Conclude on each evening with the ceremony of retreat, as conducted at all United States army posts throughout the country, in which, the busic call being sounded, the troops line up facing the flag, and the colors are lowered while the band, the soldiers salute and the audience rises out of respect to "Oid Glory."

Rarely in the history of the Anteent and Honorable Artillery Company has such keen interest been taken in an election as in that of last evening.

The special fuctor in arousing this interest among the members was the expected visit of the London Ancients next year. This is expected to be one of the greatest events in the history of the organization, and the position of commander at that time will be such an exulted one that naturally it would have a great fascination for most men.

Ordinarily elections among the Ancients are to a large extent a matter of "rotation," but this year the expected London visit became the predominating influence. On this account Colonel Henry Walker, who was recently commander, became a candidate for the position once more. His ambition was considered reasonable enough by his friends. He was commander of the Ancients when they paid their famous visit to London three years ago, and it was considered quite natural that he silould desire to be commander again when the London Ancients paid their return visit.

But when the votes were counted last evening it was found that Colonel Walker evening it was found that Colonel Walker had been badly defeated; and Lieutenant Edward P. Cramm, who is a banker and broker on Water street, and has belonged to the company for a number of years, was elected commander.

The contest has been keen for several months between Colonel Walker and Lieutenant Cramm. Each has had his own hard-working adherents. Colonel Walker has been depending upon the Walker has been depending upon the Both sides have realized that the commander to while Lieutenant Cramm has looked for support from the younger and looked for support from the younger and looked for support from the younger and looked for his pear must wisher has his observed and capable of receiving very distinguished that the visit of the famous all along that the visit of the famous and the visit of the Ancients from Boston was tooked upon in London, as an occation for the return and civic cood-will between for the ween the United States and

This matter of chosing a commander of the Ancient and Honorable Artillery Company has been a lively contest probably the most keenly fought election which the organization has experienced for half a century, and the two factions-for Walker and Cramm-have. it seems, tern resorting to strenuous politics for several months. The Walker faction asserted that there was only one man qualified to take care of the reception of the Londoners, and he was Col. The other faction held, chiefly, that the Ancient and Honorable Artillery Company was made up of many men capable of the same performance; that Col. At the "smoker" of the Ancient and Handrashie Artiflery Company at the Quincy House on Partials day the chaplain and a past chaplain were among those who expounded patriotism as they interpret that commendable virtue. Rev. Stephen H. Roblin is quoted as having said in part: "I believe that the step we have taken is a step in the name of might, in the name of God, in the name of humanity, and is something which has the blessing of Aimighty upon it, which cannot but of itself make patriotism." In conclusion he said he "heard the voice as from the Aimighty calling to America, awake, for you have in your keeping the Siay and the men of all the races of the earth. It is for cosmopolitenism, no longer localism alone, that you must stand, and Old Glory is not only for the American but for the people of the wide, wide world." And his llateners applauded such irreligious remarks. If the Almighty wishes the American nation to enter on a campaign of conquestive have a big job on head. Mr. Roblin probably regards the progress of imperialism and is development of the providence of God and is fervent words prosent about as grotesque a picture of delty as one could find in the mythologies of any barbarous antion in the mythologies of any barbarous antion in the heart of Africa or the South Sea Islands, heart of the hereors of the Spanish-American van just ended, and the Philippine war now in progress! Think of the Evouth Sea Islands, heart of delty it is who brings shout this horrible condition in order that a few mission aries may go down to the Philippine war now in progress! Think of the Frince of Peace Would that there were somewhere in this world a nation civilized enough. On latining of condition the seat of war! Think of the prince of Peace Would that there were somewhere in this world a nation civilized enough. On latining of condition the solutions the say of God'

perialists are disregarding the immortal truths of that grand old document and are trampling it under foot. And they call themselves patriots, And they regard it as a "duty" to ignore the fundamental truths which Jefferson wrote when is pouned the Declaration of Independence. The Rev. Horton concluded his hield the ideal of brotherhood, the common humanity, the love of truth and histoe, into a glorious symphony of liberty!" That sounds nice, but to a humble citizen it is cant and hypocrisy. There is work enough in the United States to occupy the time of those who desire to see justice and liberty prevail, but no assistance in this direction comes from the clergy. They defend landlordism, monopoly, trusts, gold standard and protective tariff, and so long as they preach and talk injustice they will continue to have empty pows. Most of them would thrust on the Filipinos the unjust monopoles referred to.

A Former Lynn Man's Nomination.

Captain Charles W. Knapp, formerly of this city, has been nominated for Adjutant of the Ancient and Honorable Artillery Company, of Boston, and as this is virtually equivalent to an election, he will undoubtedly have considerable work to do in the reception of the Honourable Artillery Company of London, which visits Boston next year. Captain Knapp commenced his military career in the ranks of the Lynn Light Infantry, Company. pany D. Eighth Regiment Infantry, M. V. M., and upon the organization of the V. M., and upon the organization of the Seventh Battalion in 1876 was appointed Quartermaster on the staff of Major C. C. Fry. When Gen. B. F. Peach, Jr., was elected to be Brigadier-General he appointed then Lieutenant Knapp to be Brigade Quartermaster, with the rank of Captain, a position which he held for several years, when he resigned. Ho was formerly in the insurance business with C. H. Boardman, in Lynn, and afterwards went to Boston, where he is now in business at 45 Broad street, and resides in Auburndale. Ho joined the Ancient and Honorables in 1880, and has held several positions in the company during his membership.

The war in the Philippines is something of a struggle, but it doesn't begin to compare in ferocity with the "scrap" in the Ancient and Honorable Artillery company, just ended by a victory of Lieut. Cramm over Col. Henry Walker. The latter dearly wished to be commander when the London visitors arrived and has been making a gallant fight for the honor, But the insurgents on the other side were too strong, and the colonel was "trun down." It was the greatest conflict ever fought on the Parker house field, and the victors are naturally elated. Commander Cramm should be an excellent host to receive the Honorable Artillery company; he will remind them of their own Sergeant

The special factor in arousing this interest among the members was the re-

Gridnarily elections among the all cients are to a large extent a matter "rotation," but this year the experimental London visit became the predominate influence. On this account Color Henry Walker, who was recently commander, became a candidate for position once more. The contest has been been for several months between Colonel Walker and Lieutenant Cramm. Each has had his own hard-working adherents. C.I. n.! NEW COMMANDER OF THE ANCIENTS.

Lieutenant Edward P. Cramm to Welcome the Londoners in 1900.

An event of more than passing importance, indeed, of international importance, will be the visit to this city lery Company of London next year. The results will be far reaching, and it will be given to the historian to relate will be given to the historian to relate even greater things than the prophet dared anticipate. In some measure the visit of the Ancient and Honorable Artillery Company of this city to Eng-Arillery Company of this city to England a few years ago may be taken as a standard, and yet intervening events have added much to the significance of the return pilgrimage. The expressions of friendship and kinship interchanged during the Spanish war between England and America has intensified the bond, and the cementing process will be hastened by the visit of the London artillerymen in 1900. Demonstrative of the intense interest that has been aroused, and suggestive of the great international importance of the coming event, this short excerpt from a recent letter sent to the London-company by the Boston "London" committee is pertinent:

The mere announcement of the acceptance of our invitation has already, caused an interest and entitusiasm in the event itself which is rapidly extending far beyond the horders of our own city and Commonwealth. The recent cultures of friendly feeling between our respective contries, and the remarkable expressions of mutual good will and fraternol interests, will make your visit here a matter of the most direct and insting effect in still further comenting the relations of these two lends. We are desirous that this point of view shall desirous that this point of view shall desirous that this point of view shall be desirous that this point of view shall be also and instance of the most direct in the case of the countries in language.

I am memoers of its Cabinet, which in our and no expect to see a put of our fleet, which has so recently added new glories nat merely to the American name, but, to all Angle-Saxoudom. If by the side of our President there should be one who we hardly due to hope will be present, yet whose presence would give our countryment to appreciate satisfaction, H. R. H. the Prince of Wales, there would be presented to the world a spectacle which would be memorable in, the world's history, and which would make the mane and time of these two compands instroms forever.

The same sentiment is given prominence in the circular letter sent to all members of the Massachusetts compeny, urging a loyal support of the giga rile undertaking, it says:

For a know how greatly interested not only our own country and Englishmen were fin our visit to London, but how not less interested were like other nations of Europe, who ware looking on to see what these things might near in the great areas of international diploma. The world will look on equally interested in the conding visit of our English the fact in the conding visit of our English the fact in the first the planest hoter of our trail that we sturking the safe in the reference will that we sturking the safe in reference of the condition of the feeling which the less that the condition of the strength of the reasonabilities and great opportunities coupled with the event of 1800, the recent election of officers is made more that or ordinarily interesting.

The election of Lieutenant Edward P. Cramm to be commander of the Boston corps must be looked upon as a high personal compliment, for upon his shoulders must rest much of the ultimate success of the undertaking. As commander it will be the duty of Captain Cramm to formally receive the visitors, to preside at all the functions while the guests are in the city, to make the principal speech of welcome at the annual dinner, and in fact to be the first man of the company. It is an honor that inspires worthy endeavor to obtain it, but in the case of Mr. Cramm it came unsought, and he is fully equipped to be a worthy commander of an honorable corps. The affairs of the company are in good hands, and with Mr. Cramm at the head there is no doubting the success of 1900.

affairs of the company are in good hands, and with Mr. Cramm at the head there is no doubting the success of 1900.

In view of the prominent part allotted to Mr. Cramm in this great international affair a brief sketch of his life will be of peculiar interest. Lieutenant Edward P. Cramm is a stock broker at 28 Water street, Boston, He was born in Deerfield, N. H., and received his early education in the public schools of the town. He is a graduate of Eastman College, New York, and at one time was a resident of Fortage City, Wis., where for nearly two years he was assistant posting master. THE HONORABLE ARTILLERY COMPANY

The Ancient and Honorable artillery company of Massachusetts is preparing to entertain the Honourable artillery company of London in 1900. Sergeant Ousey of the London company, who was in Boston about the middle of March, stated that it had been deemed advisable to limit the absence of the London company from England to 31 days, and that, by leaving England about May 24 or 25, the company expected to be in Boston on the June anniversary of the Boston company. Arrangements are at present tentative, but probably the company will arrive at Boston June 1, will leave Boston June 6 for a trip West, will return to Boston June 15, and will sail for home June 16, the latest suggestion for the itinerary being as follows: Boston to Montreal, through Crawford Notch, White mountains, N. H., Montreal to Niagara Falls, Niagara Falls to Chicago, Chicago to Pittsburg, Pittsburg to Washington; while in Washington, visit Arlington, the national cemetery, and Mount Vernon, the home and burial place of George Washington; Washington, to Philadelphia, Philadelphia to New York; while in New York visit West Point, the United States military academy; New York to Boston. It is the expectation that probably 75, possibly 100, numbers of the London company will participate in the trip. Among those who have already signified their intention of coming are the earl of Denbigh, lieutenant-colonel commanding the Honourable artillery company; Col Baker, Maj Perkins, Maj Evans, Capt Hayward, Lieut Bell, Sergeant Moorris, Sergeant Green, W. A NOTABLE EVENT.

Coming Visit of the Honorable Artillery Company of London.

Col. James Edgar has been appointed one of the committee who is arranging for the Ancient and Honorable Artil arv ompany of Massachusetts to enterain in 1900 the Honorable artillery of ondon. The preparation will be exn i.e and every one of the artillery rking hard, that plans may be implete and results satisfactory. An dea of the magnitude of the affair may e gained by the hosts' desire to raise 50,000 for entertainment. The mem hers in this city have been apprised of that effort, and will contribute as gene ously certainly as others. The clents" were entertained in Londor three years ago, and Col. Edgar and J. A Hoarty were on the trip.

The English gentlemen are expected to arrive in Boston a year from now, o a little later, but at all events to be h the Hub in time for the June annive cary of the artiflery. The trip from West Point to New York will be made on a special boat to give the visitors an opportunity to see the Hudson river by daylight. A night and a day in New York and back to Boston June 15.

Naturally, residents of those places that are to be visited will show their appreciation of the honor, and it is likely that England will have genuine expressions of American hospitality. While they are in Boston they will stop at the hotels at their own expense, but everything else during the visit will be the obligation of the entertaining company. It is probable some 20 or 25 ladies will come over with the gentle-

The Great Coming International Event.

We are informed that the wages of typewriters in Boston have been increased not less than 621/4 per cent. in the last six months. This is explained by the amount of correspondence and reports required for "the great coming international event." That correspondence and those reports sent to this office bulk considerably larger than the United States Revised Statutes, and our collection is not complete. Nor can we pretend to have mastered it. Rather has it mastered us, and left criticism floundering in surprise. If in our readers the first flush of astonishment is not merged in a lasting glow of veneration for the great coming international event and the men who will celebrate it to the utmost edge of human capacity, then we have labored in vain for years to inculcate reverence for the Ancient and Honorable Artillery Company of Massachusetts.

For inevitably the coming great international event is the visit of the Honourable Artillery of London next year to the vineyards of the Ancient and Honorable Artillery Company in Boston. In the language of the Chairman of the Finance Committee, "the coming great international event stirs anew the amities and patriotic emotions of the English and American people." This is the language of studied moderation. In the language Rheims and Cognac there is stirring, too. During the Exposition year, Frenchmen and the visitors to France will look enviously to Boston. France, Kentucky, Medford will be stirred by the pangs of drought. The coming great international event will have serious economic consequences. Fortunately its importance will do much to soothe the sufferers. That it will be all-important, that it will transcend most things that have happened and shadow the world with olive is made clear in a protocol to which is signed the ever illustrious name of Col. Sidney Montgomery HEDGES:

"The mere approuncement of the acceptance of our invitation has already caused an interest and enour invitation has account their which is rapidly oxthusiasm in the orders of our own city and commonwealth. The recent outburst of friendly feeling botween our respective countries, and the feeling between our respective equations, and the remarkable expressions of mutual good will and fraternal interests, will make your visit here a matter of the most direct and lasting effect in still further comenting the relations of these two lands, further comenting the relations of these two lands. further cementing the relations of these two lands.

The lustre is safe. To be sure, the Prince of Walks has sacrificed his private wishes. The jealousy of the Emperor WILLIAM was roused by the prospect of seeing his uncle in virtual command of an army of veterans like the Ancients. But the Ancient and Honorable Artillery Company of Boston needs no princes. The warrior is greater than the king.

The Committee on Reception and Entertainment asks the company to subscribe \$50,000 for expenses. This sum, we believe, is to pay for food and car fare. No estimate of the main expense is made by the committee, but the company's accommodation fund must be immense by this time. Of the duty and pleasure of subscribing the committee speaks in these feeling words:

"We present this to you as a matter of patriotic "We present this to you as a matter of patriotic love of our country. You know how greatly interested not only our own countrymen and Englishmen were in our visit to London, but how not less interested were the other nations of Europe, who were tasted were the other nations of Europe, who were looking on to see what these things might mean in looking on to see what the an international diplomacy. The immediate responses have been most gratifying and Mr. A. Shuman, chairman of the finance committee, has been kept busy receiving the returns. The dining hall decorations also carried out the prevailing sentiment, the British colors and Old Glory intertwined and grouped almost exclusively, forming the features of the decorations. Back of the speaker's table two British standards formed a drapery from which was pendant a banner proclaiming the 80th anniversary of the birth of Queen Victoria, together with a portrait on silk. This was flanked on either side by Old Glory and the seals of Massachusetts and Boston.

Directly opposite, forming a design which announced the 23d anniversary of the society, were grouped and entwined the union jack, the stars and stripes the green standard of Ireland and the orange and red banner of Scotland.

Pres George Jepson presided over the exercises and made the opening address, saying in part:

We acknowledge with proper gratitude the receipt of an invitation to be present at the celebration of the anniversary of the Ancient and Honorable Artillery Company of Massachusetts, on the first Monday in June. Our regret is softened by the reflection that the Company has a celebration or an anniversary every afternoon and even-ing. It is nearly 261 years old, but the members regret that it is not vastly older. It should have been coeval with the discovery of iron or the invention of wine. It should and would have celebrated worthi everything that has happened since. As f is, history is several thousand years about of the Company, but the Company is epurt ing to make up for lost time. At present ! allows few events to slip by uncelebrated. The labor of the day must be great, but

the veterans perform it cheerfully. On the first Monday in June, military guests wil report to the Chief of Staff at 8:30 A M Civillan guests will be received at the State House at 9:80, and thence escented to the church, where the annual sermon will be delivered. Thence to Mechanics' Hal where the annual dinner will be serveearly in the afternoon, according to the Boston fashion. Thence to the Comm where the newly elected officers will receitheir commissions from His Excellen ROGER WOLCOTT. Then night and ot stern duties at the banquet board. PERCY SAWYER

Selected as Chief Marshal of the Military and Civic Parade.

DIVISION OF THE CELEBRATION FUND

Probable Naval Demonstration in Connection with the Morning Parade.

Some of the Features.

Captain David Percival Sawyer, who commanded the Charlestown Artillery during the recent war, is to be the chief marshal of the afternoon parade on the Seventeenth of June.

The announcement was officially made

CAPTAIN PERCY SAWYER.

last evening by Alderman Presho, chairman of the committee.

Captain Sawyer is still a member of the Artillery, and was active in the military even in his High School days. As a private he won prize honors for proficiency in drill. He will prove an efficient commander of

the parade.

The appropriation for the afternoon parade has been divided among the organizations as follows: Boston Latter Carriers' Association, \$300; Divisions 5 and 37, Ancient Order of Hibernians, \$175 each: Charlestown Cadets, City Guard and Artillery, \$100 each; Charlestown Veteran Volunteer Firemen's Association, \$250: High School Cadets, \$50: St. Francis de Bales' Cadets, \$125; Sherwood Court of Foresters, \$125; Knights of Pythias, \$125; Golden Eagle, \$100; Abraham Lincoln Camp, \$50; chief marshal, \$25.

There has been a reduction in the amount usually appointed for the various features of the day's celebration owing to the cut. ging off of \$600 from this year's approprie. tion because of the policy of retrenchment which is being observed in the manage. ment of the city's finances.

The Seventeenth of June Carnival Asso. ciation gets \$1700 or \$300 less than custin ary and \$200 less than last year. For music 8080 has been apportioned, \$100 for a grand stand, \$200 for freworks, \$300 for

decorations, and incidentals, \$45.

The Carnival Association is preparing for an unusually brilliant morning pageant, largely patriotic and naval in character, which promises to be augmented by the appearance in line of from 700 to 800 sailors and marines from the North Atlantic squadron, which is expected to arrive in Boston Harbor just prior to the Seven-

teenth. Several floats emblematic of the Navy are being designed by the association's artist, and to these the naval contingent will act as escort in the parade. The ship's companies of the flagship New York, battleships Indiana, Massachusetts, Texas, Brooklyn and New Orleans will make up the escorting delegation. Alderman Presho is in communication with Secretary Long, and it is likely that satisfactory arrangements will be concluded by the first

of next week.
It is a well-known fact that in day productions under the auspices of the Carnival Association in years past, those features commonly called foot features have given the best satisfaction as they more readily appeal to the on-looker because of humorous caricature or cleverness in point of design or construction. The floats have in a great many instances been successful, but it is believed that more satisfactory results can be obtained by presenting them at night when splendid effects in the darkness are made through the medium of calciums and electric lights. In the daytime, especially under the glare of the noonday sun all the defects of theatric

work are too plainly revealed. The Carnival Association is planning its parade largely with a view to the greatest number of foot features possible under the appropriation, and but few floats will appear in line. It is proposed to make the floats the basis of a grand night pageant

next year.

The artist has been at work on sketches for the foot features and up-to-date has evolved a number of good ideas. Among others may be mentioned a hit on the Cyrano de Bergerac craze, caricaturing the romantic French wit, man of letters and duelist in-a manner that cannot help meeting full appreciation of all who are not averse to good-natured satire.

The recent crusade against the English sparrow has appealed to the originating power of the caricaturist, and he gives the doughty, little warrior-bird a decided Anglo-Saxon dressing. Over twenty-five swell young sparrows with fore and aft caps, box overcoats, eye-glasses in their oculars, will march in procession to the tune of "See! The Conquering Hero

There will be considerable fun over the appearance of the Ancient and Honorable Artillery Company in burlesque. This distinguished aggregation of military lights will be depicted as they receive the visiting London delegation in June of next year. Accompanying the foot feature will he a float which is to represent the artillery section of the command, with the ammunition that is to be used in tendering the visitofa a befitting reception.

Kipling's "The White Man's Burden" finds clever application in a feature showing the white man's burden in the Philippines. TA number of United States soldiers carrying Filipinos on their backs makes an odd conceit which is well effected by means of papier mache figures carried by men. Costumes, uniforms and make. ups are as realistic as costumer and artist

oan devise. Expansion so far as it relates to the spreading out of monopolies and the formation of tr. 18 also comes in for a vigorous thrust from the feature producers. This also will be a footfeature, and will be presented by

an organization capable of carrying-out the idea of the artist. Each man represents a bloated bond holder with arms capable of extending eight or ten feet. When the arms are by the side of the man or at repose on his shoulders or shirt bosom they do not appear to be of hardly more than normal length, but when the owner contracts the monopolistic, grab-all fever, as he certainly will many times during his march over the streets of Charlestown. they reach out'in all directions and seem capable of taking everybody in their octopus-like grasp. The feature promises to make a lasting impression.

For color display, an ingenious conbination is shown in a feature representing one of the most popular flowers of the day. There will be thirty or forty walking exotics of choice selection, and the feature as a whole will probably make a charming nicture.

Fourthundred members of the Boys' Brigade will march as escort to one of the many patriotic features. Of these there is to be one representing Dewey and Victory and another showing the loyalty of the Charlestown soldiers and sailors in the recent war. The heroic men of the North during the Civil War epoch will also be glorified.

The Charlestown Cycle Club will conduct the introductory cycle division of the carnival parade which will comprise over one thousand wheelmen attired in fanciful and grotesque costumes. The Carnival Association has appropriated \$250 for prizes, and besides this each organization turning out twenty-five men or more will be given a handsome souvenir silver cup. Over a dozen clubs have already signified their intention of joining the pro-

To Invite Both Dewey and Aguinaldo to Her Celebration.

Chicago is to have an autumn festival in October, when she will lay the corner-stone of the new postoffice, and she proposes to invite George Dewey and Agulnaldo to participate in the exercises! "The desire to make the Filipino leader acquainted with the manners and methods of carrying forward a Chicago enterprise, and the wish to establish friendly relations between the races," is set forth as the object of this remarkable project. The races referred to are doubtless the Chicago race and the Filipino race, and it isn't hard guessing which one will be inside and which out after the acquaintance.

We hope Chicago will have Aguinaldo if she wants him. She is old enough to know her own mind and enterprising enough to have her own way. But if she gets him we respectfully suggest an order of procession for her festivites something like this:

CAN'T BURN II.

"Cradle of Liberty" is Now Fireproof.

Every Particle of Woodwork Possible Torn Out.

Steel and Terra Cotta and Plaster Replace It.

Ancient Walls Alone Left of Faneuil's Hall.

These Have Been Strengthened for Another Century.

Old Fancuil hall made new cannot fall down unless it is swallowed up by an earthquake, and it cannot burn unless a conflagration rages around or within it hot enough to melt metal.

Workmen have been tearing out and putting in, laboring assiduously these many weeks past, and yot today, viewing the ancient structure on three sides

from the street, the eye recognizes no change, save that scaffolding clings to the eaves and the familiar tower does not rise against the sky. The fourth side is disfigured by derricks, piles of lumber, and the shanty of the builders, high up on solid posts.

high up on solid posts.

Even at this moment the missing tewer is being restored, made of steel instead of wood, every architectural line reproduced, so that the exterior pictures in the next guide book published will be exactly like the pictures in the guide books of the last century.

It is a fact, strange as it may seem, that the ancient brick walls alone, as far as materials go, are practically the sole remnants of the cradle of liberty that has been rocked by many orators. including Webster and ending with

Mayor Quincy.

The meat men who occupy the first floor are hewing roasts and measuring tripe, as they have hewed and measured for years, yet the market in which their stalls are located strikes one as having been transformed. For instance, the celling overhead consists of terra cotta arched between steel beams. The foundations under foot have been made sufficient for all time to come. The electric light wires hang in rude fash-ion, in plain sight, later to be buried behind the plastering.

A courteous gentleman stands in the

doorway through which thousands have rushed to gain the stairs that led to the big half above. He is there to warn people that if they enter they are likely to have a brick dropped on their pates, accidentally, of course. The stairs are gone. The only means of mounting to the second story is a ladder. But the girders for the future steps are in positton and could quickly be covered if desired.

The visitor learns that every column and pillar end rafter of wood, from col-iar to carret of Fancuil hall, has been removed, to make way for metal. The wooden galleries and stage have departed. The floors and partitions have

been ripped out.
The upward look from the foot of what used to be the stairway reveals teel beams and terra cotta everywhere fround the walls and in the new balcosics. You cannot see further heaven-ward, for the sight is cut off by the poards that were laid as a temporary oof to protect the markets during the enovation. They tell you, however, that those boards were out of the way the teel and terra cotta floor of the armoy of the Ancient and Honorables would be revealed. The temporary roof has ot long to stay now.

The slaters have finished their job rom ridgepole to rainwater gutters. The pell that has sounded so many alarms of are is back in its accustomed place. The workmen are busy building the tower around the bell.

Shortly the interior finishing will be in order. The great hall and the hall above must express the ideas of original architect. Unborn generations must see the same general outlines their fathers saw before them, the only change being plaster backed with wire and painted instead of inflammable painted wood.

The Ancients and Honoral is will undoubtedly return to their former quarters before reconstruction is wholly completed. By September or thereabouts, so the guardian at the doorway thinks, Webster, replying to the gen-ticman from South Carolina, will take his stand once more over the stage, Peter Faneuil, with the curly hair, will again mount his pedestal, and the people will gather in the fireproof, cycloneproof auditorium to cheer for liberty and union, now and forever, one and in-

THE UNITED STATES GOLF ASSOCIATION has further distinguished itself. At a recent consultation among the members of its committee these golf Solons became so transported with the importance of their positions they had the effrontery to dictate to clubs what shall be done in their own private competitions. Henceforth a man who wishes to take a day off and play in a club handicap cannot send a wire to his office-"Suffering from nervous prostration," or "Am frantic with neuralgia;" neither will the receipt of such telegrams as "Come at once. Violet has had another relapse," be of any avail, for assumed

names mean disqualification.

That the United States Golf Association should dare to dictate to members of clubs is a further example of its absolute incapacity to hold control of the American golf world. There are hundreds of men who for perfectly honorable and sufficient reasons cannot afford to have their names published as engaged in club competitions—competitions with which the United States Golf Association has nothing whatever to do. Yet, under the latest edict of this commixture of Boston antiquity and American snobocracy, a player resorting to such a course will be disqualified. How this will work in practice remains to be seen. It is satisfactory to know that the ire of all golfers is up, and before it realizes where it stands, the Ancient and Honorable Company of the United States Golf Back Bay Company will be having its peri-wig pulled off its sleek and shiny bald pate.

The question of the constitutionality of this impudent effort to con-

trol private competitions has yet to be thrashed out. One player has already had the pluck to ignore the rule and colloquially put his finger to his nose as a mark of derision. Whether or not the United States Golf Association will have the audacity to haul up this treasonable subject remains to be seen. If it does, the culprit will have the whole body of golfers behind him, and the United States Golf Association will either have to draw in its horns or go out of business.

Another wonderful feat at the same meeting was the passage of a complete alteration of the wording of section to in the by-laws. The Association's original definition of an amateur was so extremely original and so utterly ridiculous that the thick skins of the grand begums were pierced by the shafts of ridicule hurled at them. It was not, however, until I referred to the fact that under its own ruling R. Bage Kerr was ineligible to compete in open tournaments that the Association winced. Whatever had been said before of the rule had been completely ignored, but to question the status of its secretary was getting well into the United State Golf Association's fifth rib. Now all this is altered, and " 'y the secretary, who receives a "solatium "for "honorarium" the United States Golf Association has avoided the word "salary"—
of \$1,000 per annum, but heads of firms who reap a harvest out of retailing golf goods can sail in with a clear conscience.

A curious thing in connection with this alteration of section 10 is that the very man it has hit is hugging himself with the idea that his path is cleared for open tournaments. As a matter of fact, his fetters have been tightened and it has now been made impossible for him to compete in amateur events.

Lawrence Curtis, the wearisome ex-president of the United States Golf Association, has made a laughing stock of himself here, and, what is more to be deplayed of the control of the contr is more to be deplored, of every golfer abroad. Everyone on the other be is raising his eyebrows and saying, "What in thunder do they play verica under the guise of golf?" And all because the effusive and plete ass of muself. Fancy a man, unfortunately with the right to sign himself ex-president of the United States Golf Association, raking up such a question as "Should not a man playing in a four some who up such a question as "Should not a man playing in a foursome who

purposely misses a ball be compelled to play on until he hits it?" What else could golfers in the old country think but that we were a the Ancient and Honorable Artillery of Boston may be so stiff-jointed that they cannot stoop down to a ball, and these little trivialities may occur in Mr. Curtis's set, but unfortunately for our player's reputation, the letter was written in a sweepingly general sense from an ex-president of the present governing body. It was not in the light of a private individual who is a "pawky" player and a star among "pawkier"

Taken seriously, it could be regarded in no other light than that of being the general practice in this country. In future it is to be hoped a body-guard will be provided for Mr. Curtis, armed with gags, strait waistcoats and clubs, and instructed as the straightful of their waistcoats and clubs, and instructed, at the slightest indication of their patient's desire to rush into print, to treat him according to the virulence of the spasm. Mr. Curtis is an excellent sample of the United States Golf Association official. States Golf Association official.

Two open tournaments are set for this week, beginning to-day. Baltusrol gives it's annual affair and the Country Club of Baltimore holds its first important meeting. The last-named offers, among other prizes, a cup restricted to members of associate clubs of the United States Golf Association—a very pretty idea in return for the United States Golf Association's selection of its course for the open champion. ship, but not likely to find favor with the general run of golfers, and not likely to act as an incentive to attract players for the other events. In fact, this questionable discrimination should prove so distasteful to the majority that the affair ought to be a dismal failure.

OLDEST GLORY SOCIETY ON

The Ancient and Honorable Arfillery comanother anniversary. This is not a sensa-tional announcement, in view of the assertion of the New York Sun that the organization enjoys on an average at least one celebration or anniversary every day. Members of the Ancient and Honorable Artillery company are all orators, and delight to indulge in the very foam of a great glory. It is nearly 261 years old, but the members regret that it is not vastly older. It should have been coeval with the discovery of iron or the invention of wine. It should and would have celebrated worthily everything that has happened since. As it is, history is several thousand years ahead of the company, but the company is spurting to make up for lost time. At present it allows few events to slip by uncelebrated. So says the Sun. Then the labors of celebrating are re-Sun. Then the labors of celebrating are recounted. The tiresome oratory is of course the chief portion of the work, but the veterans revel in it and seem to like it. On Monday next in Boston the military guests will report to the chief of staff at 8.30 a. m. Civilian guests will be received at the state house at 9.30, and thence escorted, to the church, where the annual sermon will be delivered. Thence to Mechanics' hall, where the annual dinner will be served early in the officers. ly in the afternoon, according to the Boston fushion. Thence to the common, where the newly elected officers will receive their newly elected officers will receive their commissions from his excellency, Roger Wolcott. Then night brings other stern duties at the banquet board. As we are told, the Ancient is up and dressed early. Then his programme is, something like this: Seven o'clock, morning draught: 7.15, coffee and rolls; 7.45, "light breakfast," samp and price, but and beans, codmilk, ham and eggs, pork and beans, cod-fish cakes, mince pie; 8,30, arrival of military guests, morning cocktail, anchovies, sardines, Swiss cheese sandwiches, radishes, extra morning cocktail; 9.30-12, march to church, sermon, march back to hall; 12 o'clock, regular 12 o'clock light lunch, game pie, veal and ham ple, cold ham, cold roast beef, champagne, apple pie; 1.30, shoehorn, appetizer, first dinner, including pate de fole gras, corned beef and cabbage, roast lamb, roast pork, sweetbreuds, champagne, rhubarb pie and champagne; 4 o'clock, election punch; 5 o'clock, second light lunch, rhubarb ple and champagne; 4 o'clock, election punch; 5 o'clock, second light lunch, Medford wine, olives, Roquefort cheese, Brie cheese, doughnuts, pumpkin ple, Kentucky wine; 6 o'clock, 6 o'clocker; 6,30, second banquet, consisting of everything there is in the Parker house; 11 o'clock, fatigue light lunch, champagne, Cambridgeport crackers, champagne; 12 o'clock, regular midnight "collation;" 1 o'clock, nightcan, scrambled eggs, mutten chops, apple ular midnight "collation;" 1 o'clock, hight-cap, scrambled eggs, mutton chops, apple sauce, strawberry shortcake, apollinaris, bottled beer, nightcap, doch-an-doris. The Ancient and Honorable Artillery | Company of Boston will be 261 years old next monday, and war celebrate the day in an appropriate manner. The Parker House will be assaulted and all the eatables and drinkables in sight will be demolished by this gallant old troop of Major Generals and Field Marshals.

According to the program of the day published by a New York paper, (which may not be official), the exercises will commence with a seven &clock breakfast consisting of ham and eggs, pork and beans, cod-fish cakes and mince pie. Several light lunches will be served during the forenoon, followed at 1,30 by the first dinner of pate de foie gras, corned beef and cabbage, roast pork, sweetbreads, rhubarb pie and champagne.

The second dinner occurs at 6 30, and with the intervening time till midnight filled in with light lunches, the brave soldiers will be kept busy. The final night-cap lunch occurs at la. m., and is to consist of scrambled eggs, apple sauce, strawberry short-cake, bottled beer, pumpkin pie and doughnuts.

· The constant presence of pie is to be noticed, and this makes the New York program appear to be a malicious tissue of falsehood. Anvone versed in the vays of Boston society knows that pie s served only at breakfast.

ANCIENTS' DAY.

The Command Will Observe Its 262d Birthday.

Honors Will Be Paid to Governor on Beacon Hill.

Church Services, Banquet, Parade and Election.

This is the day of all the year for Boston's loyal Ancient. It marks the passage of the 262d milestone of his venerable corps.

The sun will hardly have tipped the gable of the Old State House before his merry horn will be heard sounding its exultant reveille, waking the echoes of Brattle Square and Hanover Street, from whence the trumpeter will carry his tarantella to Mt. Vernon Street before the door of Col. Henry Walker, and sound to the residences of Past Commanders Jacob Fottler and Thomas Olys, Licut. Allen, the veteran clerk of the company, and finally to the door of the new wearer of the Gorget for '99 and 1900, Capt. E. P. Cramm.'

Then the rattle of the drums will rouse the sleepers in Clark's Hotel and the Adams House, the morning march ending at Parker's in School Street, by which time it is anticipated that the town will be broad awake to the glory of the Ancients.

The Roster of the Day.

Bugler will sound "First Call" at about 4 Å. M.

After this at 7.15 the martial host will begin to assemble in the National Lancers' Armory, since Old Fancull has not emerged from its rebuilding process. Breakfast will be served to those who have need of it.

These gentlemen will, it is expected, report to Col. Henry Walker, Chief of Staff for this occasion: Maj. Alonzo Green, of the Amoskeag Veterans; Maj. Lewis R. Cheney, of the Governor's Foot Guards of Lartford, Mas. F. S. Patterson of the Newburyport Artillery Campant; Maj. H. S. Tanner and Capt. R. S. Hardlton, of the First Rhode Island Infantry; Capt. Loris Young and other is of the Lancers Troop A, First Cavalry; Past Commanders of the Andelents of the Committee and Civic organization of the company, Lieut. Albert A. Gleason, the company, Lieut. Sketch of Dr. Hall.

Rev. Dr. William Kittredge Hall; the aniversary preacher for 1899, is of Boston origin. He was born in this city, Nov. 4, 1836. Fiting for college, he was graduated at Yale in the class of 1859. He studied theology in New Haven, Conn., and finished his course at Berlin, Germany. Returning to this country soon after the opening of the Civil War, he entered the service in 1882 as Chaplain of the Saventaenth Connecti-Chaplain of the Seventeenth Connecticut Volunteers and served with his reg-iment in the field. In October, 1865, he became pastor of the First Congrega-tional Church in Stratford, Conn., continuing until February, 1873, when he accepted a call to his present charge, the First Presbyterian Church of Newburgh, New York. He was elected Moderator of the New York Presbytery by the Synod in 1878, and in that position won the love and reverence of both clergy and the laity.

The command reached the New Old South Church a few minutes after ten o' Long before that hour every seat not re-served for the members of the company and the invited guests had been filled, and and the invited guests had been filled, and hundreds of others stood in the aisles and about the entrance, while from the steps of the Public Library building across the street a great crowd watched the company arrive and enter the handsome edifice. The interior of the church, after the arrival of the command, presented a beautiful scene. First in the order of services came the impressive salutation for the colors, everyimpressive salutation to the colors, every-one standing while the Stars and Stripes and the white banner of the Common-wealth were brought to the front of the church to the strains of music by the Salem Cadet Band. In the body of the church were massed the brilliantly uniformed officers and men of the command, with their invited guests. At the sides of the church and in the balcony were hundreds of beautifully-gowned women, the brilliant colors of their dresses and hats contrasting with the glitter and resplend-ence of the soldierly accourrements, Foience of the salute, the colors were crossed in front of the pulpit and "Our Country's Flag" was sung by the grand chorus. The company, chorus and congregation then folined in singing the Doxology, "Praise God, from whom all blessings flow."

Following the invocation by Rev. Stephen

H. Roblin, chaplain of the Ancient and Honorable Artillery Company, the Salem Cadet Band gave the overture, "Mirella," by Gounod. Rev. William K. Hall, D. D., read from the scriptures, and Master Hen-ry Donlan sang Gounod's beautiful "Ave Maria." Then came one of the saddest and most impressive scenes of the services, the reading of the death roll for the year by Adjutant J. Harry Brown. The adjutant, accompanied by two drummers and a bugler, stood before the altar facing the congregation. Solemnly and slowly the names of the dead comrades were read, and at each name the low ruffle of the drums pronounced a requiem. As the last name was read the sweet, sad notes of "taps" sounded clear, calling the soldier

to his last long sleep. The death roll of the company during

This would be to selfishly refuse the duty heaven imposed to provide some government, having taken away that which they had, despotic though it was, that shall guarantee security to life and property that shall direct and guard their steps to freedom and progress. If we have read aright the providences of God in our war with Spain and thus far in the conditions consequent upon it that confront us in Cuba and in the Philippines, it is decreed by that will which is supreme over all that the United States shall be their Savior by the vicarious service of the strong for the weak, of the free and the powerful for the enslaved and the oppressed.

Whatever relations these countries in the coming years may sustain to the fing that now floats over them this shall continue to be true and in the annals of history remain to the end of time that the beginnings of their progress were made and the foundations of their liberties, presperity and power were laid by the labors, sufferings and sacrifices of America's sons.

As to Imperialism.

As to Imperialism.

As to imperialism, it may be confidently said that there is not a trace of those qualities in our body politic which would give rise to it or welcome it. It is foreign to our blood, to our education, to our environments, to our ideals. It is a bugbear worthy of the nursery. Imperialism implies autocratic authority and domination. It implies empire founded upon and sustained and extended by military force and prowess. Where do we find even the hints or suggestions of such a spirit or principle in our national life?

"And as to territorial expansion, pure and simple, for our own aggrandizement or for our own enlargement, the conviction is universal in the nation that we have quite enough territory already to occupy, and more than we can properly manage.

"If there is imperialism in our blood of life, it is only the imperialism of ideas—of justice, of biberty; the empire of virtues that make for the broadest manhood and for the highest, noblest civilization. This let us continue to have and to cherish. War may give the opportunity and lay upon us the duty of exercising and extending such an imperialism. And territorial expansion may be most truly an expansion of our national spirit and life, as they are imparted to peoples destitute of them and who, by an infusion of them, may be helped upward and onward in the path of the world's progress.

"The representatives of the United States of America sit today in congress at The Hague acknowledged as the foremost for peace, as cheerfully adopting any merciful methods for hu manizing war and as the stanch advocates and defenders of the principle of airbitration which their nation originated and has repeatedly exemplified."

The company then reformed and, with the guests, under escort, marched by way of Boylston st and Huntington as short rest sat down to the annual banguest.

commander were Gov Woicott, Mayor
Quarcy, Hon George A. Marden, Maj
G'Reilly of the Watertown arsenal and
other honored guests of the company.

Maj Duchesney was warmly greeted by the assembly when he rose, each. We are gathered here today to eclebrate the 25st anniversary dinner of our corps. The first Monday in June, in accordance with ancient custom, the members of the Ancient and Honorable artillery company gather about them their friends and honored guests, to perpetuate the memory of their predecesors, through patriotic utterance and culogy for those who builded this organization on so substantial a foundation. So, today, in behalf of my com-

thusiastic, and our strength has recently been decidedly increased by the admission to membership of a large number of our fellow citizens, including many members of the active militia and those who served in the volunteer forces of the national sovernment.

"During the past year we have lost a number of valued comrades and friends by death. Peace to their ashes.

"The visit next year of a contingent of the Honourable artillery company of London to Boston is, and has been for some time, a subject uppermost in our minds, and is looked forward to with delight by all of our members, and when our suests step foot upon our shore we will not forget the never-to-beforgotten welcome they gave us in Lonreception and care of our coming suests have been placed in the hands of a solid, substantial and wide-awake committee of our members, with full powers to do all thines possible for the comfort and pleasure of the English visitors.

"I will say but little more. We have invited several gentlemen, who are present, to speak to the several toasts, and whom we are all anxious to listen to your comrades of the Ancients. I want to thank, one and all, for your courtesy and patience towards me during the year now closing as well as for your effective support. I shall ever cherish in my memory the bonor you did me a year ago. The Banquet.

At the close of the exercises at the church the line reformed, and the route of march was around Copley sq. to Huntington ave., to Mechanics Building, where the annual banquet was served.

The balconies around the great hall were profusely decorated with patriotic

Maj. Reilly, U.S.A., commandant of the Watertown arsenal, made one of the most pertinent references of the day, when he departed from the customary when he departed from the customary reserve of an army officer to the extent of declaring, in the course of his brief remarks, that whatever might be said of the army staff of the United States, it did not resemble that of France in persecuting an innocent man. This, of course, was an allusion to the Dreyfus case. Maj. Reilly said he hoped a bordereau would not be sprung on him for this utterance.

to be abandoned. However, the esprit de corps has not departed from us, and today we are not far away even in the tactical work of a military organization. "Our financial condition is excellent; interest in the corps is, as always, entheristic and our strength has recently

our fellow-citizens, including many members of the active militia and those who served in the volunteer forces of the national government."

He then introduced the toastmaster, Capt. Brown, who offered as the first regular toast, amid the strains of the "Star Spangled Banner," "The President of the United States," introducing Hon. G. A. Marden, U. S. sub-treasurer, to respond.

Mr. Marden, witty as ever, assured the ancients that Pres. McKinley fully appreciated the assertion that their hearts and hopes were all with him, as well as their prayers and tears and faith triumphant over their fears.

Gov. Wolcott, after the band had played a bar of "Hail to the Chief," responded for the Commonwealth, being greeted with vociferous cheers. The governor reserred to the fact that this was the fourth time he had had occasion to extend the greetings of the Bay State to the A. & H. A., and he congratulated the ancients as well as himself that it was the last time he should do so. This statement was met with shouts of regret and some groans, while one enthusiast yelled above the din: "Sen. Wolcott!"

The governor referred pleasantly to the session of the legislature just closed, paying a tribute to its worth and the useful character of legislation placed upon the statute book. Gov. Wolcott while recognizing the destrability and propriety of public criticisms upon presidents and governors and those in authority, deprecated that form of criticism which is based upon mere partizanship and the absence of an appreciation of the fact that persons in such authority are usually animated by a noble purpose and pure motive.

Reviewing hastily the wars in which the ancients had participated from colonial times to the present, his excellency paid a high tribute to the martial valor of the Commonwealth, and then described facetiously and amid much amusement the ceremonies with which the commander of the ancients is relieved of his insignia of office on the common.

Mayor Quincy then responded to "The City of Boston," the band playing "Home, Sweet Home" as he arose to speak. Like the governor, he expressed feelings of mingled regret and pleasure feelings of mingled regret and pleasure at severing official relations with the ancients, the pleasure being due to his anticipation of being able to sit on the floor as a lay member of the body next

The mayor alluded to the external beauties of the city contributed by man, but said that the beauties of nature remained the same as in 1838, when the A. & H. A. was born. He looked forward with wonderment as to what the Boston of 100 years hence would be, and declared that the great problems of the future were to be the problems of the future were to be the problems of the future was prouder of the progress of the municipality in helping her people to live more comfortably, to alleviate distress, and he believed the problem of the 20th century for the city will be to secure a wider diffusion of the benefits accruing from wealth and material accruing from wealth and material prosperity among the people.

Maj. Rellly, commandant of the Waterlown arsenal, responded for the United States army, and told how the ordnance and engineer corps had fortified the coasts and made the harbors impervious to the navies of the world. He deprecated the fact that the people did not appreciate the necessity for appropriations for the army as much as the professional men in the army, and were willing to leave them to the member from Oshkosh or Mr. Balley of Texas. He then declared that the U. is army staff did not resemble the

French army staff in persecuting an

innocent man.

Lt. Col. Cochran, commander of the marine corps at the Charlestown navy yard, responded for the United States navy, paying his respects to Edw. Atainson, and told the part the marine corps played in Cuban waters during the late war, and related some personal reminiscences of his life on Boston. The band played "Annie Laurie."

Maj. Duchesney read a cablegram greeting from the London Ancients and the "Honourable Artillery Co. of London" was toasted by Capt. Black attired in a Scotch kilt. He spoke enthusiastically of the Anglo-American alliance, which he declared would one day dominate the globe.

Com. Gilman of the Massachusetts department responded eloquently for the G. A. R., and Rev. W. K. Hall of Newburgh, N. Y., replied to "The Chaplain." innocent man.

This martial eye-opener was played at various points about the city and was responded to quickly by the members of the company, who made their way rapidly to the quarters of the National Lancers on Bulfinch street. Since the overhauling of Fancuil Hall the company has had no established home, but through the courtesy of the Lancers, its morning formation was made from the troop's armory. The first-comers were on hand soon after 7 o'clock, and to Those who desired breakfast was served. Lieut, Albert A. Gleason, officer of the day, reported to Maj. L. N. Duchesney at 7:30 o'clock, and preparations for the morning then went on most rapidly. At 9:30 o'clock the church doors were opened to those fortunate enough to hold credentials, and long before the company arrived every seat in the spacious edifice was taken, while standing room was at a premium. A committee of Ancients were early on hand here, and acted as ushers.

Upon the arrival of the company it marched directly to the seats reserved for it in the body of the church, and without delay the services commenced. This programme was followed:

THE SERMON.

Eloquent Periods Turned by the Rev. William K. Hall at the Old South Church.

Gentlemen of the Ancient and Honorable Artillery of Massachusetts: You will not regard it as unbecoming in me, or as violating the proprieties of this religious service, with the conduct of which you have greatly honored me, if I spend a few minutes of the time allotted to me in some historical references. They are of special interest to us at this present moment, as binding together Newburg, my present adopted home, and Boston, the place of my blith, and the home of my childhood and youth, for which I have ever cherished an honorable pride. Thus, at the outset, we may be brought into closer touch and your minds be quickened into a more lively and gracious attitude for the reception of the truth.

I have been privileged to minister for more than a quarter of a century is a monumental slab on which time has left the marks of its ravages, bearing an inscription to the memory of Samuel Beiknap, who fought at Lexington and Bunker Hill. He was a lineal descendant of one of the founders of this Old South Church that has opened its doors and given a generous welcome to the use of the beautiful, modern sanctuary today. That ancestor became a member of your ancient corps in 1653—15 years after its organization.

Here is another interesting historic let. The assembly composed of upward of 600 mm, resolved unanimously that the tea should be sent back from whence it came, at all events, and that no dury should be purely to the fearless Dr. Young before that aroused assembly, and boldly exclaimed. in that house in the would be used in some practical abiding issues for peace among the nations—pursues its dijecussions from day to day, there look down upon it from those ancient walls the portraits of warriors who helped by their swords to make possible that congress. It would be difficult to find a spot for the convening of such a congress more suggestive of a truth which all history illustrates and conforms—that by the sword oppression, injustice, wrong, cruelty, have been overcome and righteousness and peace established—than in that same land of the Netherlands. And surely no other place could be so suggestive of the war with Spain, in which our own country has been engaged since your last anniversary, and our present efforts to restore order in those newly acquired possessions to which our signal victory in that war has forced us, than that land which witnessed centuries ago the same spirit of barbarism and cruelty which called so long and so londly and at last, thank God, not in vain, for our armed intervention. From those walls in that house in the woods there also looks down upon that congress the portrait of our own Motley, who gave to his countrymen and to the world such a vivid, faithful picture of those bloody struggles for truth and liberty and so for peace, in which the Alva of the Spain of that way appears as the prototype of tha Weyler of that same despotic Spain of today, which to its own cost crossed swords with freemen, and was humbled in the dust before the world.

We are told that true progress comes from peace. But it comes oftentimes

with freehen, and was dust before the world.

We are told that true progress comes from peace. But it comes oftentimes and far more speedlily from war. By what rule of numbers can any one compute the difference in the speed and sweep of progress—the progress of a pure Christianity and all it involves for the prosperity of any people—in the Antilles and in the Philipplines from our late war as compared with the rate of advance, if advance it be called, under the old conditions. But we are also told that humanity is to reach a stage in its progress when war shall cease Every, believer in Christianity accepts this as true, and every lover of mankind wishes and hopes this to be true. Humanity, however, is at a considerable distance from that stage, and the prophecy of the far on-looking Christ is still being realized, and is yet to be realized, "Nation shall rise against nation, and kingdom against kingdom." It is only, sings our Longfellow, that

The echolog sounds grow fainter, then cease.

And like a bell with solemn sweet vibrations.

I hear once more the voice of Christ say

"Peace."

And like a bell with solemn sweet vibrations, I hear once more the voice of Christ say "Place."

Thus far there has been, and there is today, war because of progress. War is the instrument of progress. The Christ came into a world of humanity a good deal snarled and twisted. Hates and fearfully and hopelessly tangled it. And the tangle is not yet unravelled. Christianity has armed and still arms truth and justice and liberty with the sword, by that inherent authority of right over wrong which is its prerogative.

Massachusetts may not yet change her armorial insignia because unable for seconcile them with Christianity. Even here, where the gospel of peace has had the greatest triumphs and the widest benignant sway, no smail part of the population under its sceptre of love and righteousness would respect law and order if the government did not have the sword to support and defend them. I remember, when a mere lad, of wilnessing the generous and enthusiastic reception Boston gave to the Hungarian patriot and exile, Koesuth, and of hearing him, in his address on yonder Common, refer to that armorial shield of the commonwealth crested with an upilited arm, bearing in hand the inscription, "Enso petit placidam sub libertate quietam." That insignium be recognized as silently teaching the truth for which he and his oppressed people for which he and his oppressed people for which he and his oppressed people

for which he and his oppressed people had been fighting-peace in liberty won and defended by the sword.

had been fighting—peace in model and defended by the sword.

That is an ideal humanity before the eye of the great souled Tolstol when he eye of the great souled Tolstol when he collectes the invitation of his Czar to the nations to a peace congress, declaring that it must be utterly in vain, for ing that it must be utterly in vain, for ing that it must be utterly in vain, for ing that it must be utterly in the tidual refuses to beer arms. Encircling above him, sweetly sang the bird. Hate hath no harm for Love, so sang the song, And peace unweaponed conquers every wrong. But this we may reasonably hope, that war, though it may be a ministry for the progress of humanity, may become more and more humanized under the influence of Christianity in the mitigation of its evils, and in its larger merelful provisions. To peaceful arbitration we may also expect the nations will be more willing to leave many minor questions and difficulties for settlement.

THE REV. WILLIAM K. HALL, Who preached the sermon to the Ancients.

But there shall still remain the fact that Christianity does not obliterate, but sanctify, that which God has placed in our nature. National life is the divine order for man, so the national instinct, patriotism, is of his implanting. The nations will not yield their individual sovereignty and national rights, coming into conflict, maybe of his implanting. The nations will not yield their individual sovereignty and national rights, coming into conflict, maybe of honor, and acture as to involve a national honor, and that is war. As said Lord Bacon, and that is a said lord Bacon, and the said lord Bacon,

Take up the white man's burden;
Ye dare not stoop to less,
Nor call too loud on freedom
To cloak your weariness.
By all ye will end whisper,
By all ye leave or do.
The silent, sullen peoples
Shall weigh your God and you.

Take up the white man's burden, Send forth the best ye breed; Go bind your sons to oxide. To serve your captives' need; To wait in heavy harness. On fluttered folk and wild.—Your new caught sullen peoples, Half devit and half child.

How comes it that the soldlers of free, peace-loving, Christian America are today fighting these

New caught, sullen peoples, Half devil and half child?

For the answer, turn back to recent events, the records of which are not yet dry on the pages of history. When the Ottoman sovereign was pursuing to death his Armenian subjects, and the yet dry on the pages of history. When the Ottoman sovereign was pursuing to death his Armenian subjects, and the "great assassin of Europe," as Glastone vigorously styled him, seemed bent on the very annihilation of that ancient race, the cry went up from Christian America: to her Christian mother England to interfere and wrest from his hand the dripping sword, and, if need be, strike to the ground the cruel slayer with her own sword of avenging justice. God gives the right to the strong to help the weak; and, not only this, but lays upon it the duty because of the fact and claim of human brotherhood. The echo of the cry of the Christian child to the Christian mother had not died away, even from our halls of legislation, when at our very doors a people, suffering from barbarities and cruelties as bitter as have been inflicted but the Armenians, appealed for our mereiful intervention. Diplomacy, longmereiful intervention. Diplomacy, longman patiently tried, proving ineffective, at last, to the honor of our Christian manhood, the sword was unsheathed, with the decisive declaration to haughty, despoits Spain that, if not by peaceful measures, willingly, then by war, forcibly, shall your heel of oppression be taken from the neck of prostrate Cuba; there must—there shall be peacel And so we bore witness to the world that we had not learned in vain the altruistic teachings of Christianity, that the truth our Lord uttered in the parable of the Good Samaritan had its in individual, life. Even more, that the truth, symbolized by the cross, may have its illustration in the vicarious service of a great, powerful nation, giving in sacrifice its choicest sons and its material wealth to defend the weak and free the slaved

as Kipling puts it.

But to such a mediatorial service, on a far wider and distant field, in behalf of a mixed and mongrel population, a race of men for the most part semi-civilized or barbaric, the providence of God suddenly called us when Dewey's suns sunk the Spanish fieet in the bay of Manila. Why are our soldiers fighting today in the Philippines, do you ask? Because the God of nations and of battles has sent them there. There are orders from headquarters higher than coders from headquarters higher than those of earth, and from a sovereign those of earth's armies, which are received and obeyed because the events in the providential order in this world necessitate it. Men criticise the policy necessitate it. Men criticise the policy except that of maintaining and defending its own authority. Congress has not yet even considered the gress has not yet even considered the strangle be for the present and future in may be restored, to the end that what may be for the present and future in may be for the present and future in the may be for the present and the world, to peace with themselves and the world, to peace with themselves and the world, to peace with themselves and the world. Cuba and in the Philippines, it is decreed by that will which is supreme over all that the United States shall be their savior by the vicarious service of the strong for the weak, of the free and powerful for the enslaved and oppressed. Whatever relations these countries, in the coming years, may sustain in the fiag that now floats over them, this shall continue to be true, and in the annals of history remain to the end of time, that the beginnings of their progress were made and the foundations of their libertles, prosperity and power were laid by the labors, sufferings and sacrifices of America's some.

Consider another phase of the subject. The relation of such a war to the stability of peace and free institutions of our own country.

This new attitude we have taken toward foreign nations and races, this new departure from the traditional policy of the fathers is fraugh, it is claimed, with great perils to the peace and prosperity of the nation. We are told that this is the manifestation of a growing spirit of imperialism that is ruinous; that it fosters a dangerous national pride in military and naval strength and gratifies an ambition for territorial expansion which led to the downfall of ancient republics.

As to imperialism, it may be confidently said that there is not a trace of those qualities in our body politic which would give rise to it or welcome it. It is foreign to our blood, to our education, to our environments, to our ideals. It is a bugbear worthy of the nursery. Imperialism implies autocratic authority and domination. It imples empire founded upon and sustained and extended by military force and prowess, where do we find even the hints or suggestions of such a spirit or principle in our national life?

As to territorial expansion, pure and simple, for our own agrandizement or for our own enlargement, the conviction is universal in the nation that we have quite enough territory already to occupy and more than we can properly manage. If there is imperialism in our blood or life it is only the

The representatives of the United States of America sit today in that congress at The Hague acknowledged as the foremost for peace, as cheerfully adopting any merciful methods for human.zing war and as the stanch nd-vocates and defenders of the principle of arbitration which their natific originated and has repeatedly exemplified. And this, too, though her military forces are at this hour preserving or restoring order in possessions wrested by war from Spain. That congress needs no assurance or agreement of any kind that this nation of freedom and progress shall not by her army or her navy menage the peace of other nations in the gratification of an ambition for wider rule or extended boundaries or in the petty revenge for some real or imaginary affront to national honor; that congress needs not to be told that the victories of this nation on land and sea in the recent war have been victories of truth and rightcousness which must make ultimately for an enduring

sea in the recent war have been victories of truth and righteousness which must make ultimately for an enduring peace and for continued progress; that, although commercial advantages and pecuniary profits may come to the nation because of the war, and although gaining an enviable prestige by its swift and decisive victories, yet for human rights and for human lihertles the war was waged, the triumph won and the lands today possessed.

While all this is true, there is heard the warning voice from some that we are entering upon a new, untri- I path in our national life that is beset with the greatest and most alarming dangers, and that we are forgetting the sober, wise counsel of Washington in his sober, wise counsel of Washington in his farewell address.

ANCIENTS VERY OLD.

The Company Celebrates Its 261st Anniversary.

Latter Held for the First Time in Mechanics' Hall.

Drum-Head Election on the Common Toward Night.

The 261st anniversary of the Ancient and Honorable Artillery Company of Boston was ushered in yesterday morning at sunrise by the sound of the reveille from the field musicians of the organization.

At this initial note the clans of the Ancients gathered from far and near. Early comers were served with break-fast in the armory of the Lancers, in place of Faneull Hall, the usual gathering place of the company. By 8.30 the ranks had been swelled to almost their full quota of Ancients, and battalion line was formed on Howard street, Maj. L. N. Duchesney in command.

The company was divided into two battalions. The 1st battalion consisted of the infantry wing, with 1st Lieut. George H. Innis as commander and Lieut. Thomas J. Tute as adjutant, The Salem Cadet band furnished music for this battalion.

The 2d battalion, made up of artijlery, was under the command of 2d Lleut. James M. Usher, with Capt. Francis Meredith, Jr., as adjutant. The 2d battalion had the music of the drum and fife corps.

Maj. Duchesney had a large honorary staff, among whom were Department Commander John E. Gilman and Asst.-Commander John E. Gilman and Asst. Adjt.-Gen. Preble, G. A. R., Gen. Samuel Lawrence; the staff of the 1st battalion light artillery, and Maj. Lewis R. Cheney, Governor's Foot guard, Connecticut; Maj. H. S. Tanner, 1st Rhode necticut; Maj. H. S. Tanner, 1st Rhode Island; 11aj. Alonzo Green, Amoskeag Island; 11aj. Alonzo Green, Amoskeag Veterans, Manchester, N. H.; Capt. F. S. Patterson, Newburyport artillery; Capt. R. S. Hamiffon, 1st Rhode Island; Capt. Doris Young, Lancers.

On the left of the infantry was the veteran company, commanded by Capt.

THE ANNUAL BANQUET.

Ancients Made a Brilliant Appearance at Mechanics' Hall, and Gov. Wolcott Speaks.

The Ancients' banquets in the past have been pretty much alike; but that of yesterday, in celebration of the 261st of yesterday, in celebration of the 261st anniversary of the company, was some-thing out of the ordinary, mainly for the reason that it was held in Mechanics' Hall, instead of Fancuil Hall, where the Ancients have been wont to meet in years gone by.
It is said that Faneuil Hall will be

shelved; so far as the Ancients' ban-quets are concerned, Mechanics' Hall offering superior advantages. Fancuil offering superior advantages. Fancuil Hall will be too small for the big cele-bration in 1900, when the London An-cients will be here, so that the prece-dent established yesterday will be followed when the London people come.

There were 500 of them, and, combined with the decorations of the hall, they made a show orations of the like of which was never before seen there, albeit they did not occupy more than half of the foor space. But the fact that they could not fill the high hall did not prevent the foor the control of the same in time for the banquet, but he came in time to extend his own greetings and the city's to the company.

Adjt. J. Henry Brown, the toastmaster, first presented the Hon. George A. Marden, sub-treasurer of Boston, to respond to the toast of "The President of the United States." The Ancients' band played "The Star Spangled Banner," and Mr. Marden made appropriate remarks.

The next toast, "The commonwealth of Massachusetts," was responded to by the Governor. He said that this was the fourth time he had had the privited for the state to the ancient organization, and he stated that it would be the last time he should have that glad privilege, at which there were cries of "No!" from enthusite were cries of "No!" from enthusite members of the company. A cry of "Senator Wolcotti" was also raised.

Thirty-six hours ago, he said, it was his duty, which he performed with mingled feelings of regret and satisfaction, to prorogue the General Couri of 1899, and he said that he believed that here was no Legislature that had not left some permanent act of value to the educational liberties of the commonwealth, to the civil responsibilities of the citizens and the permanent good and benefit of the state. We hear, said the Governor, criticism of President, of Congress, of Governor, and Legislature—and it is wise and just that such criticism should be made, provided only that it is not the mere expression of partisan resentment or opposition; that it is not the mere expression of that thoroughly un-American and untrustful spirit that would condemn those who are elected by the people.

The Governor naid a compliment to

demn those who are elected by the people.

The Governor paid a compliment to the captain of the company on account of his qualities as a soldier, and closed with a reference to the new responsibilities of the nation, saying that this nation must show that today, as in the past, the United States has the virtue, the manhood, the courage and the high the manhood, the courage and for resolution to meet honorably and for resolution to meet honorably and for and every responsibility which is placed upon it.

the historic enclosure, followed by the dust-covered and sweltering command. A number of the older members had come down from Mechanics Building in carriages, the fatigue incident to escorting the Governor from his home on Commonwealth avenue being greater than they desired to undertake.

Upon reaching the parade ground the companies formed in single file with the right resting upon the broad walk that ends at Charles street. In the mean time the Governor had been escorted to his tent, where, with his staff, he awaited the signal to proceed upon his tour of inspection. This came from the band, and the pace set was killing. The Governor and Capt. Duchesney led, followed by four members of his excellency's military household. The Ancient and Honorable artillery company of Massachusetts was just 261 years old yesterday and the anniversary was celebrated in the old-time manner with a parade, religious services, banquet and a drumhead election.

On account of the repairs in progress at Faneuii hall the company had to seek other quarters, and as it proved the committee were equal to the occasion and through their able management the event was one of the most successful ever held by the company.

The time-honored custom of "drumming up" the members was followed out, and at dawn yesterday morning drum major "Andy" Stone, with a corps of fifers and drummers, disturbed the slumbers, not only of the Ancients, but also of the people who happened to be their neighbors. The result was that over 300 members of the gallant old company, in every conceivable uniform,

The annual sermon was preached by Rev. W. K. Hall, D. D., of Newburgh, N. Y.

REV. W. K. HALL, D. D. Who preached the sermon before the Ancient and Honorable Artillery Company.

The speaker recalled the memory of Revolutionary and colonial patriots, a number of whom trailed their pikes before early Governors as members of the Ancient and Honorable Artillery of those historic days. In passing, a tribute was paid to Massachusetts men in Washington's army, whose dust mingled with the dust of Newburgh, thus binding the speaker's birthplace with the scane of his ministerial labors. He spoke also of a nephew of Gen. Warren, the martyr of Bunker Hill, leading forth to the dance, at the only I celebration Washington ever ordered, his bride, one of the fair daughters of Newburgh, and the descendant of an early pre-Revolutionary Ancient. The speaker continued: The speaker recalled the memory of

FIRST LIEUT. FRANK HUCKINS.

First Lieut. Frank Huckins is one of the most popular of all the young officers of the Ancient and Honorable Artillery Company. He commanded the star company on the London trip and infused his own enthusiasm into its members to such an extent that its drills were steady and continuous. He was born in Bonton Aug. 7, 1859. Educated in the public schools, he was graduated from the English High School in the class of 1877. He began his business career on leaving school in the leather business, but in 1834 left that to enter the hard pine timber business, and for several years has been sole member of the firm of P. S. Huckins & Co.

Did not the angelic choir herald His mysterious birth by the glad song "On earth, peace among men?" And is it not His gospel, the gospel of peace? Yes, but there preceded in that joyous acclaim of the heavenly host the significant strain, "Giory to God in the Highest," and His gospel is the gospel of right equipment, and host of right equipment, and so and only so-Highest," and His gospel is the gospel of righteousness, and so—and only so—of peace. Let us not forget that acclamation and its precedence. For in this lies a tremendous fact, which is the surest solution of the problem that has vexed and still vexes the Christian world today—how to reconcile Christianity, the keynote of which is peace,

As to imperialism, it may be confidently said that there is not a trace of those qualities in our body politic which would give rise to it or welcome it. It is foreign to our blood, to our elucation, to our environments, to our ideals. It is a bugbear worthy of the nursery. Imperialism implies autocratic authority and domination. It implies empire founded upon and sustained and extended by midiary force and prowess. Where do we find even the hins or suggestions of such a spirit or refleciple in our national life?

If there is imperialism in our blood or life it is only the imperialism of ideas, of justice, of liberty; the empire of virtues that make for the highest, toblest cyvilization. This let us continue to have and to cherish. War may give the apportunity and lay upon us the duty of exercising and extending such an imperialism. ANCIENTS' ANNIVERSARY

Celebration of the Event Closed with the Customary Drum-Head Election of, Officers on the Common

Under a boiling sun the members of the Ancient and Honorable Artillery Company marched from Mechanics Building late yesterday afternoon for the final ceremony in the celebration of the two hundred and sixty-first anniversary of the organization.
The reserved area on the parade ground
was crowded by brilliantly-gowned women and the scene was picturesque. About half-past five the booming of the guns announced to all the city that the Ancients were coming, and a few moments later the command swung into the Common to the strains of a lively march by the Salem the strains of a lively march by the Salem Cadet Band. Governor Wolcott was escorted to the tent, there to await the signal for the tour of inspection. Meantime the companies formed in single file and the inspection began. This ceremony over, the governor and officers of the command took their station for the review. The march past was finely done, alignments and distances being excellent. Then came one of the most interesting ceremonies of the day, the drum-head election. The great square the drum-head election. The great square was formed according to custom and the big bass drum was brought into the centre, the perfunctory election confirming the nominations made last month. Gov. Wolcott, after the band had played a bar of "Hall to the Chief," responded for the Commonwealth, being greeted with vociferous cheers. The governor referred pleasantly to the session of the legislature just closed, paying a tribute to its worth and the useful character of legislation placed upon the statute book. Gov. Wolcott while recognizing the desirability and propriety of public criticisms upon presidents and governors and those in authority, deprecated that form of criticism which is based upon mere partizanship and the absence of an appreciation of the fact that persons in such authority are usually animated by a cell purpose and pure motive.

The Ancients and Honorables of Boston must rush to the rescue of their co-workers, the garrison at Halifax. An order has been issued that the heroic guardians of that fortress must out their bangs down to an inch. This is 'ard on Tommy Atkins. But we believe that the Halifax garrison decline to be called after that gentleman. It is remarkable that such an order should be given at this time, but we suppose It is because of the warm weather and the desire to get rid of the winter's accumulation of creeping things.' Still, some other method might have been adopted. It is too bad to spoil the beauty of such gallant warriors as these bangmen.

TWO GREAT CONVENTIONS.

The city of Boston has been the scene during the past week of several notable gatherings, the most resplendent of which, in a gold-lace and waving-plume way, was the anniversary celebration of the Boston Ancient and Honorable Artillery Company last Monday.

But far exceeding this in point of general interest were two religious conventions, representing the two extremes of religious thought.

The first was held in the Hollis Street Theatre last Friday and was the annual convention of the Free Religious Association of America.

Delegates were present from a number of states, and different speakers had been invited to present the arguments of various religious, philosophical, scientific, and agnostic schools of thought. The response to the invitation was general, and the speakers ranged from an ardent Congregationalist to Colonel Ingersoll, agnostic.

Rev. B. F. Mills, Thomas Wentworth Higginson, Anna Boynton Thompson, Prof. James H. Hyslop, and Rev. Jenkin Lloyd Jones were among those who expounded their beliefs, and the beliefs ranged from an absolute faith in the infallibility of the Bible to the utmost freedom of thought.

Several speakers defended psychology and transcendentalism and Swami Abhedananda of India explained the mystic doctrine of the Hindoos. Colonel Ingersoll gave the most concise statement of his views that have yet been made public and closed with these words: --- "rouse yourself to do all useful things -to reach with thought and deed the ideal in your brain-to give your fancies wings, that they like chemist bees, may find art's nectur in the weeds of common things; to look with trained and steady eyes for facts—to find the subtle threads that join the distant with the now-to increase knowledge to take burdens from the weak to dev. lop the brain -to defend the right -to make a palace for the soul. This is real religion. This is real worship."

Rev. B. Fay Mills decided that Ingersoll was not an irreligious man.

The other notable gathering occurred on Sunday and was an assembly of Christian Scientists from all over the world. The unenviable notoriety recently gained by this society on account of some deaths in its ranks from their belief in supernatural healing, and the strong agitation against the "science," makes all movements of this society particularly interesting just now.

There have always been people who firmly believed in the existence of miracles, and there always will be such people. An inherent love of the supernatural is too firmly implanted in the human animal to be eradicated, except by thou-ands of years of education and we are still in the infancy of our education.

Just as the world flatters itself that an era of rationalism has arrived, a new wave of superstition arises and the work of years is to a certain extent undone.

The heathenism of our purion fore-

fathers, legible traces of which are still to be discerned in portions of New England, has scarcely been subdued, when there arises from the center of that same N. E. the prophetess of a new sect.

Thousands upon thousands flocked to her standard and the world is asked to believe that there is no such a thing as sickness, that it is only evil thought, and that is sin, and sin is error, and error is not and never was and therefore is false. Only the true is beautiful and actual, and therefore we must seek the wherefore of the whence and shun the thusness of the which. All of which may be so, but is doubted by a great many.

Whatever our beliefs may be, the Christian Scientists should be treated with respect. There are many humbugs among them, as there are in any great body, but the majority of them are honest and earnest, and if they want to dispense with medicine, the law should not interfere with them. This is a free country and every man in it should be permitted to choose his own method of healing, or dispense with method altogether, if he sees fit.

Where a sick man is opposed to it, and his Christian Science friends insist upon their own form of treatment, that is another matter. If death result from a lack of proper medical attention, the stern hand of the law should be laid upon the Christian Science homicides, and long confinement in an asylum might free their minds of some erratic notions.

Meanwhile, that old humbug of an institution known as the Board of Police keeps on its way trying experiments here and there and making new coalitions and alliances just as if its work was not cut out for it and it did not do it steadily and surely. I see that they are having a taste of Board of Police idiocy in Fall River also. And the Governor is receiving commisseration because he is pestered with hearings on the subject. But what can you expect? If the state government is to run our local institutions, why, it must take the troubles that come with that responsibility, that is all. You can't give a Governor the right to appoint commissioners and then not hold him responsible for their acts. They are his agents. They represent him. Chairman Clark is Gov. Wolcott's personal rep. resentative on the Police Board of Boston. There is no escape from this position. Qui facit per alium facit per se. And the Governor cannot escape the odium that attaches to his appointee, try as hard as he will. His address before the Ancients last Monday was in the nature of a plea for immunity from criticism on the score of trying to do his duty conscientiously. Nobody doubts that. If that is the way a man's conscience works, why all right. Only if I were appointing a commissioner I wouldn't appoint a man who could pass through a dive three nights before I called in the state police to raid it and not see anything. And I wouldn't make a man with such bad eyesight chairman of the board. Nor would I give a pigheaded youth, who insults his elders and superiors for asserting the rights of manhood and citizenship, the power to continue that practice if I knew it. Mr. Adams, by way of novelty, has started out with the approval and thanks of the W.C.T.U. I see.

THE ANCIENT AND HONORABLE ARTILLERY COMPANY.

HENEVER Bostonians count over the peculiar features of this city, one of the first to be mentioned is the truly ancient and honorable Ancient and Honorable Artillery Company. This organization celebrated its two hundred and sixty-first anniversary on Monday, with a parade, religious service, banquet and drumhead election.

Time honored customs are many with the Ancients, one of them being the "drumming up" of officers and members. This means that at sunrise the drum major is going about with a corps of fifers and drummers, and at the initial notes of the celebration Ancients begin to gather from near and far. By half past eight o'clock the battalion line was formed on Howard Street, with Major L. N. Duchesney in command. The com-

this customary gathering place has been of necessity abandoned this year because of the repairs which are there being made. It is probable, too, that next year's dinner will be served in Mechanic's Hall, since the banquet will be a large one, and the Ancients will then have as guests members of the Honourable

Artillery Company of London.

Some idea of the handsome decorations of Mechanic's Hall may be gained from the picture on page 14, which shows the appearance of the banquet room and tables at the moment that the Ancients were assembled ready to take their allotted seats. Flags and streamers adorned the walls, and the tables were masses of the most beautiful flowers. Seated at the right and left of the commander were Governor Wolcott, Mayor Quincy, Hon. George A. Marden, Major O'Reilly of the Watertown Arsenal, and other honored guests. Major Duchesney was

warmly greeted by the assembly when he rose.

After bidding his guests, on behalf of the command, a hearty welcome, he referred to the late war, so happily over, and to the fact that in spite of temporarily losing its home, and fore-

Dany was divided into two battalions, the first being commanded by First Lieutenant George H. Innis, and the second by Second

Lieutenant James M. Usher.

The line of march was taken up, the march taking the organization past the State House, where the company was reviewed by Governor Wolcott, and joined by many important invited guests. The march ended at the New Old South Church, where the Ancients worshipped, listening to an elaborate musical prothe Ancients worshipped, listening to an elaborate musical programme, hearing the reading of the death roll, and a sermon preached by the Rev. William K. Hall, D. D., of Newburg, N. Y. The services closed with the singing of "America" by the entire congregation standing. A beautiful feature of the church service was "saluting the colors," the band playing appropriately when the flag was carried into the edifice, while the grand chorus, under direction of Mr. Herbert Johnson, sang "Our Country's Flag."

The command then marched to Mechanic's Hall on Huntington Avenue. This was elaborately decorated for the ban-

tington Avenue. This was elaborately decorated for the ban-quet which is an important feature of the field day. The Ancients have been in the habit of dining in Faneuil Hall, but

going its drills the esprit du corps was in no manner departed, and even the tactical work of a military organization was not far away. The financial condition he reported excellent, and he further expressed satisfaction in the recent admission to membership of many of the active militia and those who served among the volunteers during the late war.

His words were listened to attentively, especially when he re-ferred to the coming pleasure of entertaining a contingent of the Honourable Artillery Company of London, and to the fact that the arrangements is the receiping and care were in that the arrangements for their reception and care were in charge of a "solid, substantial and wide-awake committee

Department Commander Gilman of the G. A. R. ably represented that organization. Rev. Dr. Hall spoke briefly for "The Chaplain." and Rev. E. A. This closed the list of toasts. The company then adjourned to the parade ground of the Common, where in accordance with another ancient custom a drumhead election was held. To each officer Governor Wolcott said a few congratulatory words, and

Loudon, (Eng.) Telegraph. May 24, 1899.

It is an open secret now that when war recently threatened the country, several important Volunteer centres received private intimation to be prepared for hasty mobilisation. However, it may be the fashion at times in certain quarters to decry the usefulness of that branch of the reserves, but when emergency arises the Volunteers are invariably sought after and bade to get ready. Although Volunteer artillery and cavalry are especially valuable, they have even re-ceived less help and fostering care from the authorities than the more numerically strong foot battalions. The batteries of that branch are still armed with the practically obsolete heavy muzzle-loading sixteenpounders, and the men carry the Martini-Henry car-bine. But, despite such drawbacks, individual energy may do much, and in other directions there are Volunteer corps, as well prepared to take the field as most of the forces belonging to the nation's mythical Second, Third, Fourth, &c., Army Corps. Amongst the Volun-teers who have visited Aldershot for the advantage of a week's training during the Whit holidays were the 3rd Kent Volunteer Artillery, best, perhaps, known as the Royal Arsenal Artillery, and the Honourable Artillery Company. The former, who are under Colonel H. Hozier, is an exemplary corps in many respects, approximating very closely in discipline and smartness to the regulars. All the men are employes at the Woolwich Arsenal, and a few of them are old soldiers. It is a big corps, able to parade a full brigade division of artillery

The horse and field batteries of the H.A.C. turned out well on Wednesday for the now annual week at Aldershot. Mustering at the Armoury House in the morning, the eight guns and accompanying waggons were sent off to Waterloo in several parties, an arrangement which facilitated loading the trains, and reduced the inconvenience to street traffic in the very busy hours. Major McMicking, of the horse battery, in the absence of the Earl of Denbigh, was in command, aided by Captain Vray (adjutant). The officer of the horse battery, besides the Major, were Captain Wright and Lieutenants Connell and Cartiand, together with Sgt. majors Lonsbrough and enables; and of the field battery, Major Bell, Captain bunoum, and Lieutenants Archer and Bailey, with Serseant-majors Foster and Rendall. Surgeon-captain tesce and Veterinary-surgeons Tennant and Stanley also vent with the division. Each gun had its proper six lorses, and all the animals appeared to be of a character cuitable for the work to be performed in the field at Aldershot.

The total number of Volunteers of the Metropolis for whom returns have been made to attend the Prince of Wales's Review on the 8th of July is a little over 27,000, but this number will be exceeded by the anticipated inclusion in the Force of the Woolwich Arsenal Artillery and Infantry Corps. The Honourable Artillery Company will send nearly 600, with its two Batteries (eight guns and 140 horses); and the Volunteer Artillery Corps of the Metropolis reckon for 2,000, and the Engineers for 1,600. Of the five Infanter Brigades, the South London promises to be the strongest with 5,200, the East London supplying 5,000, the Surrey 4,200, the North London 3,850 and the West London 3,400. The Medical Staff Corps and Cadet battalions complete the 27,000. The Woodwich Arsenal Artillery Corps, for whose attendance sanction has not yet been given, would add sixteen guns and a proportionate number of horses to a force which, at present, consists entirely of troops acting as Infantry, excepting the batteries of the Honourable Artillery Company. Up to the present the number of Veteran Volunteers whose attendance has been sanctioned is between eight and nine

THE QUEEN'S BIRTHDAY.

TROOPING THE COLOUR.

The magic attraction of tradition surrounds the Trooping of the Colour, and draws annually a crowd whose picturesqueness and colour add to the brilliance of the spectacle. Saturday morning saw that spectacle this year at its brightest and its best. A thin veil was drawn across the sun's surface, and the trees of St. James's Park rose though a pearly haze with a fragrant hint of pink hawthorn and gleaming laburnum. Beneath the trees and beyond the great rectangle of the Whitehall parade moved the black masses of the en wd that had come as early as to a popular matrace in order to see the one great military cerem mal of the Landon year. On singer sides of the ro tangle-under the grateful shale of the Treasury build not, on comson carpet defands, or making garly col use I win low loves in the site atter of Whitehall -le und or st d a'l that i pr. te, gay, and fish to I in the "pel she ? botch " which assembles in Landan for the season. There is no prettier sucht in the year; it is a picture which, with its shimmering trees and the glint of martial steel beneath them, its orderly pattern of military uniform. and it-studied background of grey building and fluttering colour, seems designed almost with the car falness of a theatrical artist. It received its finishing touch on Saturday by the presence of a Royal party of an almost Jubilee year completeness in the Levée Room windows of old Whitehall. The Princess of Wales, surrounded by a couple of grandchildren, little Prince Albert of York and one of the Duchess of Fife's daughters, together with Peggy and Fatricia of Connaught, sat at the middle window; the Duchess of York, with the future King of England, the Duke

toters, Princess Victoria and Princess Charles of Denmark, and Prince Christian were at other

The ceremony of trooping the colour was an agreeable blend of martial display, of slightly incomprehensible military ritual, and of the National Anthem. The first part of the programme, although the fascinating mystery of the "trooping" is absent from it, was by far the braver show. In the middle of the great drab rectangle of the parade were massed the bands of the regiments-a gorgeous patch of scarlet, gold, and twinkling brass-and round the ground the nine companies appointed for the ceremony-Grenadiers, Coldstreams, and Scots Guards-were ranged in column under the command of Colonel Eaton, Grenadier Guards, Field Officer in Brigade Waiting. As ten o'clock chimed from the neighbouring clock towers a little stir made itself noticeable at a point in the square, and then, as if the clock had started the figures into movement, the explosive ring of words of command travelled swiftly round the ground, and with a click a thousand rifles came to the shoulder. Then, as if they had waited for their cue, the plumed Headquarters Staff emerged from among the trees and paced round the square, while the massed bands broke responsively-and for the first time-into the National Anthem. As the cavalcade drew nearer with jingling of bits and trample of hoofs, it became possible to

General Sir Evelyn Wood, Major-General Clery, D.A.G., and Major-General Kelly Kenny. Behind them rode the Commander-in-Chief carrying the Field Marshal's baton and his uniform crossed by the blue ribbon of the Order of St. Patrick. The Prince of Wales, the Duke of Cambridge, and the Duke of Connaught rode in line behind Lord Wolseley; and behind them again Prince Christian and the Duke of York. A little group of foreign attachés in uniforms as rare as brilliant brought up the rear of the inspecting party. When the Royal salute had been completed the Generals and Princes rode round the line again, the bands playing a couple of marches, and then at last came the mystic performance of the troop. Preceded by the four drum-majors in resplendent gold brocade, the massed bands marched at the slow across the ground first the phyers on brass, next the drummers, after them the buglers, and last the plaided pipers. As they reached the point where two privates and a sorgeant guarded Queen's colour, they changed front with splendid dexterity, and marched off leaving the colour for a moment in splendid isolation. "Escort for the colour," rang out a command, and at the word a company of the 2nd Coldstreams stepped out to the music of "The British Grenadiers," and halted in front of the cynosure. The lieutenant in command of the company, accompanied by his sergeant-major, moved

The Hon. Artillery Company's Ceremony.

The Honourable Artillery Company celebrated the Queen's birthday with a parade and trooping the colour on their parade ground at Armoury House, City Road, during the afternoon. The full strength on parade was 444, including 302 infantry, eighty-six on parade was 112, fifty-six of the field baitery. The Company's band was augmented by the drums and Company's pand was the colour being saluted to fifes of the Scots Guards, the colour being saluted to the playing of the "British Grenadiers." Captain Kent was in command of the escort for the colour, the trooping ceremony being a replica, as fac as the programme was concerned, of that gone as the programme mass distribute, of that gone through on the Horse Guards ground in the morning. through on the Horse Guards ground in the morning. Those present included Lord Denbigh, commanding the regiment; Colonel Boyle, as second in command; the regiment; the regiment; Colonic Logica, and in command; Major McMiking, commanding the horse battery; Major McMiking, commanding the field battery; Major F. M. Bell, commission and neid battery; Adjutant-Captain Rac, Major William Evans, Lord Adjutant-Uaptan Load, the German Attaché, de Vesci, the French Attaché, and the Bist de Vesci, the French Attaché, Colonel Sir C. Evan Smith, and the Bishop of Marl-Colonel Sir C. Evan Children, and the Disnop of Marlborough, chaplain of the regiment, besides several officers from Aldershot. Major-General Sir Coleridge officers from Addersides of the line. The trooping Grove made the inspection of the line. The trooping of the colour being concluded, there was a march past by the batteries in column, a trot past in batteries, and in single file. An advance was next made in review order, the ceremony being brought to a close with a color, the ceremony being brought to a close with a general salute. Ministerial Banquets.

HON. ARTILLERY COMPANY AT WINDSOR.

To-day (Saturday) her Majesty reviews the Honourable Artillery Company in the Great Park, at Windsor, at six p.m. All the arrangements have been completed for the ceremony, and it is understood that there will be a full muster of the members. Colonel Lord Denbirh and the Adjutant of that ancient corps inspected the parade ground yesterday, which has been admirably chosen for the purpose by the Ranger, Prince Christian. The spot is upon the open slopes between Queen Anne's Ride and the famous Long Walk. The 1st Life Guards will, it is said, provide the escort and assist the 2nd Scote Guards in keeping the ground. A guard of honour will be provided by the Eton corps. The Prince of Wales, as Captain-General of the H.A.C., will head the Command when it marches past the Queen. In order to enable the troops to reach the ground in good time, the two hatteries will parade at the headquarters, Finsbury, to-day, at 11.15 a.m. From there men, horses, and guns will move off by the West gate en route for Paddington Station, where they will entrain in a special at 12.30 p.m. The force will proceed via the Farringdon Meat Market, Holborn, Oxford-street, Langhamplace, &c., to the railway. At 2.10 p.m. the infantry of the H.A.C. are to "fall in" on their own grounds and march at 2.30 p.m. to Broadstreet Station, where they will entrain. Provided the weather is fine, there is sure to be a large turn out, both in London and Windsor, to see the troops. After the review, Major-General Trotter, Commanding the Home District, will officially inspect the command, which thereafter will return to town.

The following is extracted from the official pro-

Steamer New England Put Out This Morning with the Largest Number of Passengers Ever Taken from Boston-Several Well-Known Boston People Aboard

Shortly after nine o'clock this morning the Dominion Line steamer New England, with the largest number of passengers

Shortly after nine o'clock this morning the Dominion Line steamer New England, with the largest number of passengers aboard ever taken by one ship out of Boston, sailed, under command of Captain Junes McAuley, for Liverpool by way of Queenstown. The demand for first cabin passage has forced many of the officers to give up their staterooms, and, save when the Ancient and Honorable Artillery Company went to London, there never before has been so large a saloon list on any ship sailing from this port.

Among the saloon passengers are H. O. Apthorp of Milton Academy, George F. Babbitt of the Board of Health, and Colonel Henry E. Walker of the Ancients, Rev. Dr. Lorimer of Tremont Temple, Rev. bridge, are on the way for their summer vacation trips in Europe. Professor Graham Sumner of Harvard, Professor Sumner of Yale, and Professor Williams of Brown are also starting for their vacations on the New England. Other passengers are J. H. Clune, ex-postmaster of Springfield, Osborne Howes, Lieutenant Hunter of the Royal Navy, J. R. Leeson, Camerom S. eleven, and Rev. E. J. Prescott of Salem. The New England got under way only the tug A. W. Chesterton, which carried a party down the harbor with the steamer, and the tug W. H. Gallison, also loaded with a crowd bound to see the New England to the side nearest the wharf, waving handkerchiefs and calling out last messages to crowd that lined the decks; the White handkerchiefs formed a fluttering background, relieved here and there by a flarting red golf flags. Next to the handkerchiefs, indeed, the passengers in waving good-bye to their decked its way to the eastern for the pushed its way to the eastern native land.

Before the steamer sailed the classes were distinctly differentiated, as planks, but at the wharf-end all were mixed they crowded about one of the three gangplanks, but at the wharf-end all were mixed a glimpse of some departing friend, all pushing and good-naturedly crowded. There was much laughter and some tears, too, but on the whole the partings were bright, like the day. The New England at least swung clear into the channel and sounded four long, shricking blasts on her whistle; the she was off. The tugs, with their loads of people with improvised megaphones, steamed close to the New England's side, and the crowd at the wharf thinned away gradually.

At the Women's Council in London, Mrs. Gates, in discussing "The Scientific Treatment of Domestic Servants," speaking of the necessity of training the lady of the house, as well as the servants, complimented the Queen, saying: "Think not that this queenly woman and womanly Queen has not had an influence upon us in wifehood matherhood and mistress-Queen has not had an influence upon us in wifehood, metherhood and mistress-ship." This beautiful allusion to Her Majesty as "possessing the queenliness of a woman and the womantiness of a queen" was first used at the banquet in 1896 given the Honourable Artillery Company in London, at which Colonel Waiker so ably predict. The sentiment has become historic and is often quoted. The London papers at the time said it would live long and become classical.

Boston Home Journal. July 15, 1899.

While the "Ancients" were abroad in 1896 eight members of the organization, happening to be together in Paris on July 14, organized what has since been known as The Up Stairs Club. The anniversary of this occasion was celebrated last evening by an elaborate dinner at the Parker House, attended by all of the members except Mr. Caleb Chase, who was detained by illness. There were also nine invited guests, making in all a party of sixteen. The table was set in the larger of two adjoining rooms, the folding doors being open and the orchestra in the smaller apartment being hidden from view by a barrier of palms and rubber plants. The entire light of the main room was derived from numerous fairy lamps around the border of the board and a very ingenious arrangement of incandescent,

bulbs and prisms scattered through its centre over a bank of moss, luxuriously covered with roses and other cut flowers. Added brilliancy of effect was produced by the display of cut glass and solid silver, the finest that the house affords. The menu was acknowledged to be one of the best ever served to an equal number of guests at the Parker House, and the souvenir gifts received by each member will long serve as pleasant reminders of a most enjoyable hour. Additional interest in the occasion was caused by the fact that it occurred upon the birthday of Mr. Fred M. Purmort, an officer of the club, who has just been admitted to membership in the firm of J. R. Whipple & Co., proprietors of the Parker House, Young's Hotel and Hotel Touraine. The officers of The Up Stairs Club are: President, Capt. Thomas J. Olys; vice-president, Col. Sidney M. Hedges; treasurer, Mr. Caleb Chase; secretary, Linux J. Stanza Carling Mr. Linux J. There are only eight members of the "Upstairs Club," they are all Ancients and Honorables, and they first christened themselves the Bastile Club, which name they changed after they began to have annual dinners in a cosy up-stairs room at the Parker House. The club was organized in Paris, July 14, 1896, upon the anniversary of the fall of the Bastile. It was one of the incidents of the famous trip abroad of the Ancients, and the gentlemen who as-sembled in Paris and began the little organization which they have since kept intact were Captain Thomas J. Mr Purmort did more, however, than entertain his brother Ancients with a sumptuously set table, for at the plate of each was a cut-glass and silver tankard, placed there as an appropriate gift from him. The special guests of the company last evening were Colonel Alexander M. Ferris, Colonel Fred W. Wellington, Peter Morrison, Colonel Harry Hastings, Major Laurence N. Duchesney, Captain Edward P. Cram and Arthur T. Lovell. Lieutenant Cotter had general charge of the affair.

THE LISTENER

I see that, at the Women's Council in London, someone has been working over the beautiful allusion of Colonel Walker to the "queenliness of the woman and the womanliness of the Queen," apropos of Queen Viotoria. As an ardent advocate of the Anglo-American alliance, and of the Anglo-Saxon empire, and all those things, I claim the privilege of protesting against all these fulsome attempts to make out of the yenerable sovereign something which she these fulsome attempts to make out of the venerable sovereign something which she is not, to wit, a "queenly" woman. What is the necessity of this humbug? Is not the British Queen able to afford to do without it? Is she really tall and stately? Is she lithe and willowy? Can she be seen in a crowd when she is not standing on a platform? On the other hand, is she morally and mentally so small that she cannot get along without a considerable amount of the most laughable flattery in the papers and in public addresses? There is her grandson, the emperor of Germany, who likes moral and mental flattery well enough, but won't stand any flattering allusions to his personal attractions. It may be that a good many Englishmen are more of less hypnotized by the idea of royalty, so that the Queen really does appear tall and beauthe Queen really does appear tall and beau-

ANCIENTS GOING TO PHILADELPHIA

Their Annual Fall Field Day in October Will Be Celebrated in the Quaker City, with a Trip Afterward to Gettysburg

A desputch from Philadelphia says that the meditations of J. Hampton Moore, secretary of the mayor of that city, were in-terrupted yesterday by William, the col-ored messenger, who tiptoed into the mayor's office bearing a tray, on which were three cards. Mr. Moore took the cards and on them read the names, Colonel George Innis, Captain E. P. Cramm and Captain Thomas J. Olys. Each card had in addition the words: "Ancient and Honorable Artillery Company of Boston."

Mr. Moore went to meet his visitors. They told him that Philadelphia had been selected for their coming outing, and that ut three hundred of the members would or there on the first Monday of next Octo-er. They said that wherever they went they asked the principal officials of the city to dine with them. All these things were welcome tidings to Mr. Moore, and although the mayor was not there he venottable arms of the city would open wide receive them. The day after the meeting the Quaker City it is the intention of the nembers of the organization to go to Cettysburg. It was learned that the trip would cost the members \$12,000 or \$15,000, but, as the captain said, "They can stand Colonel Innis is chairman of the com-

Boston's Celebrated Artillery Company to Hold Their Annual Banquet in This City.

Captain E. P. Cramm and Captain Uhlrichs, of the Ancient and Honorable Artillery Company of Boston, with a Artillery Company of Boston, with a committee of seven members of that organization are in this city, and this morning called upon Mayor Ashbridge. The entire command, which numbers 350 men, will go to Gettyshurg this year, and returning will hold their annual barquet, which is always given in October, in this city. There will be about 200 military men and officials invited. Last year the company went to England as the guests of the Ancient and Honorable Artillery Company of London, and next year that company will be the guests of the Boston organization and will be taken around the larger cities of this country.

Its final name was derived from a shoemaker, one William Copp, who lived in the near vicinity, and it will be known as Copp's Hill until time shall be no more. The family tomb of the old shoemaker, which holds his and his descendants' bones, is in this quiet burial place. At the battle of Bunker Hill, June 17, 1775, the British erected a battery of six guns on Copp's Hill and used it, and the soldiers used to make targets of the gravestones, many of which bear the marks of the bullets to this day. The Ancient and Honorable Artillery Company of famous memory once claimed the ownership of part of the hill, and paraded and drilled there once in Revolutionary days. After the British left Boston they set up another claim by right of an old mortgage, which, however, was subsequently discharged.

of purple and gold? Will not brass blare? Will not the corps which boasts the Prince of Wales' companionship make its presence weighty? It will; oh, it will.
Colonel George Innes, Captain E. P. Cramm and Captain Thomas J. Olys, Ancients and Honorables, called upon Mayor Ashbridge at at the City Hall yesterday, but his Honor was out of the city. They wished to arrange for the Artiliery Company's annual "Field Day" here on the first Monday in October.

Three hundred of the Bostonians will visit the city, accompanied by a bend of thirty-five pieces. They will stay a day in Philadelphia and a night. The word night with the Ancients and Honorables is all but synonymous with the word banquet—that is, when they are visiting. So they will banquet at one of the large hotels. Mayor Ashbridge, other city officials and military men of Pennsylvania will be guests. Next day the company will travel to Gettysburg. The Ancients and Honorables pay their expenses to the last cent whenever and wherever they take a trip. A "Field Day" costs them about \$15.900; but they don't care. Why, next year they mean to take the Honorable artillery Company to London, the species. year they mean to take the Honorable Ar-tillery Company to London, the guests of which they were in 1896, all over these

which they were in 1896, all over these United States in a special train. What, therefore, is a jaunt to Quebec or Philadelphia to them?

Besides Colonei Innes, Captain Cramm and Captain Olys the company has sent here Lieutenant J. M. Usher, Lieutenant J. E. Cotter, Lieutenant W. S. Best, Captain Geo. E. Hail and Judge Emory Grover.

CAPT. JOHN MACK DEAD.

Former Commander of the Ancients Passes Away at His Home in Roxbury.

Capt. John Mack, a former commander of the Ancient and Honorable Artillery Company, died at his home, 53 Dudley street, Roxbury, Tuesday, aged 75 years.

He was born at the South end of Boston to, and at an early age learned the plaster and stucco trade. He carried on a large business for many years, and toward the latter part of his life was engaged in masonry and contracting work.

He joined the Ancients on April 2, 1860, and served as adjutant of the com-

pany in 1863, second lieutenant in 1867, first lieutenant in 1871, adjutant in 1878, and captain in 1882.

While he was in command of the Ancients he assisted in entertaining President Arthur, the occasion being his visit to this city to take part in the Daniel Webster birthday celebration. He was the only captain of the Ancients who ever had the honor of doing escort duty to a President of the United States.

of Captain John Mack were present at his funeral from his residence, 53 Dudley street, funeral from bis residence, 53 Dudley street, yesterday afternoon. The organizations represented were the Ancient and Honorable Artillery Company, of which he was a past commander: Boston Light Infantry: De Molay Commandery, Knights Templar; St. John's Lodge of Masons, and the Master Plasterers' Association, of all of which he was a member. The services were conducted by Rev. George L. Perrin of the Every Pay Church, and the Harvard (garret, composed of Jewell Boyd, L. M. Bartlett, W. B. Inillys and J. L. Thomas, sank "Gathering Home," "Nearer, My God, to Thee" and "Passing Out of the Shadow," all favortio hymns of Captain Mack, and all favorite hymns of Captain Mack, as, selected by him for the occasion shortly before his death. Mr. Perrin read selections from the Scriptures and spoke briefly. He said that "old as the story of death is, we are not ready for it. It always comes to unwelcome ears. Whether the message comes in youth, old age or middle life, no one can say may. A memory reaching back for many years will fill out the picture of this man's life. You have known him in social and business relations, in civic and military organizations. He was a man who took particular interest in military matters and in fraternal organizations. But it was in the home that he was best known This man, in his home life, was a gentle-man. He was a kind father and a good husband. During his years of suffering he was patient and self-sacrificing. You will remember him for the good he did and the sweet fellowship of his life. He is God's child and his Pather has teken him home."

From information furnished the Executive Committee of the Ancient and Honorable Artillery Company of Boston, it would seem that interest in the proposed trip of the London company to this country next year is becoming intense on the other side. Mr. Hillman, the secretary of the London company at the present time, has the names of more than one hundred members of the London company who anticipate making the voyage and he expects that fully one hundred and fifty will come to this country.

A correspondent writes: There was one rather remarkable point in the march past at the Volunteer Parade which, so far, seems to have escaped notice. I refer to the fact that some battalions passed at the "slope" with bayonets fixed, and some at the trail. As it is laid down that Volunteer rifle battalions—and all Volunteer infantry are "rifles"—are to adhere to the form of drill laid down for rifle battalions, correctly speaking, all the troops should have marched past at the trail, with the exception of the infantry of the Honourable Artillery Company. The only Volunteer brigade which is permitted to drill in the same manner as its line battalions is the Hampshire Brigade, which did not take part in Saturday's function. It would be a good thing if the authorities would lay down a fresh ruling on this point. For my part, I would like to see all Volunteers clothed in scarlet permitted to drill in all respects as their line battalions. It would do a little towards encouraging esprit de corps and the territorial sentiment. Boston Hevald.

NARROW, ESCAPE FROM CRUEN Brigadier-General William A. Bancrott

and Colonel William A. Pew probably do not realize how near they came to having a real battle last Saturday evening at Matiapan bridge. It would not have been a sham fight without an enemy. It would have caused more nervousness to congregate under the hat of the Salem polonel than was found there yesterday when he was ordered out to look for an nvisible foe with the thought that if sinnk cartridges were to be used by his nen some might by mistake fire one paded with ball.

If the mayor had been appealed to by he citizens of Doston, who were denied the right to cross this bridge, and had noted on thandvice of the law department. he would have ordered sufficient force there to have removed the obstruction placed by the Metropolitan Park Commission. This would have been resisted by the Park Army under Major-General Edwin U. Curtis, and war, cruel war, would have been the instant result. In this emergency the M. V. M. would have been ordered to the scene. The captaingeneral is away, muking war on certain animals and fish. His subaltern from Dalton was in New York, trying to arrange a truce between the bulls and bears. The commander of the First brigade, M. V. M., was, it is reported, at Saratoga, making an examination of the madical properties of mineral water to

be used by the Ancients next year.
In this event General Bancroft had absolute power. For by section 98 of the laws of 1898, in the absence of the commander in chief and General Mathews he has all the powers of the captaingeneral to call our and lead the army, Of course, his road caused all the trouble ndirectly, and he would be found backing in General Curus in his attempt to "hold he bridge," but this would have made to difference. Silver Dollar Smith Tells His Friends in New York all About It, but Draws on His Imagination Largely to Give It an Air of Verisimilitude-Says Quincy Slapped Him On the Back,

The Fund for the Entertainment of Municipal Guests, which Mayor Quincy dips into at the ate of \$200 a week, thus helping along the everish rush of the municipal debt, ran up guinst two visitors from the city of New York other day. This is the way the Sun tells it:

Martin Engel and Isidor Cohen, a special committee of the Martin Engel association appointed to gather material for a series of lectures on tumicipal reform to be delivered next winter in the rooms of the association, at Ludlow and Grand streets, went to Boston on Saturday night to study the municipal

"It's a great move," said Silver Dollar Smith yesterday to a group of the faithful. "Martin is going to call ou my friend Quincy the mayor, who recently established a lot of free baths in Boston. Engel says they would be a great thing for the East side and he wants to find out how to work

"On my last visit to Boston," continand Smith, "I met Quincy. When I told him who I was he slapped me on the back and said: 'Smith, old boy, I met you in Chicago. I remember you very well.' Then he burst his sides laughing as I told him a couple of funny stories. 'Say,' he says. 'Smithy, I want to show you Young's hotel and the Parker house where the Audient and Honorables hang out.' He took me to these hotels and we had a great time. Then I was introduced to George Fred Williams and we discussed the silver question. I gave Engel a letter of introduction to Quincy and asked Quincy to show Eugel the town."

"Will Engel call on the unti-imperiulists?" asked a reporter.

"I guess so," said Smith, "but be will give them a frost when he finds out that they don't believe in keeping anything that belongs to thom. We don't go on that basis here. We want all that is

The exaggerations of returned travellers are to be forgiven, but we cannot forgive the statement that Mayor Quincy slapped Smith on the nek. We know that never could and never did

It is another bit of fletion, that the mayor burst his sides laughing at a couple of Silver Dollar Smith's stories. The mayor may have listened to the stories and may have laughed, t Silver Dollar did not know it. in trying

painfully to recall after it was all over just what the mayor did, Silver Dollar allowed himself to be led into error. Mayor Quincy has burst his sides only once since he went into municipal life, and that was when he rode down the Springfield hill on the Belanger unicycle. That was merely a sartorial burst, requiring only a new set of buttons and a gross of stitches.

Silver Dollar's remark as to the anti-imperialists alone bears the semblance of truth. When he made that, he certainly was not under the spell of the Fund for Entertaining Municipal Guests, and therefore was free to state the simple facts, without hyberbole.

He cordially recognises the fact that the oldfield battery of the regiment was for many years the pioneer corps of volunteer field artillery, and he would greatly regret if the intended change should be distasteful to some of the older members, or should, by the slight extra expense, cause inconvenience to the members generally.

It was at this same General Court that the inhabitants were ordered to have weekly trainings, which ordinance was the beginning of the military organization which Capt. The Pilgrims, forced by religious intolerance, first from London to Amsterdam, thence to Leyden, and so on from old to new Plymouth, brought with them not only " their principles, but firearms," and it was in the cabin of the Mayflower that a compact was framed and signed which was the germ of the idea that found expression in the clause of the Constitution that "the right of the people to bear arms shall not be infringed." It is to bear atting Captain Taylor, that the first military meeting in this country, of which there is any authentic record, was held in Plymouth in 1621, when Myles Standish

Gov. Wolcott Will Review the Regiment Thursday Afternoon.

Three days of camp have done wonders for the First regiment, and the funniest part of it is that the officers themselves were not aware of the progress made until the steady battery lines and faultless execution of the manual at last night's parade overtook them with surprise.

Even the most untrained eye could not fail to detect the improvement of yesterday's over previous parades. Considering, moreover, that the First contains so many recruits, the work was remarkable. Colonel Pfaff was not there to note the splendid advance his men had made, for he had gone to Marion as the guest of Colonel Converse, acting quartermaster general on the governor's staff.

In very handsome shape, and though the guard is not effective in keeping the men-from leaving camp, in other ways it does its work well. This morning at about Its work well. This morning at about three o'clock, after a disturbance had been checked successfully on one of the outskirts of camp, the cry tame to the grardhouse down the chain of sentinels: "Fire, Number twelve!" In less than a minute the whole guard, sleeping in the guardtents, tumbled out, formed in line, and was running at double quick to the woods healt of the cogk-houses, where a blaze back of the cook-houses, where a blaze could be seen through th trees. There were more than forty of the men, but they worked together like veterans, and soon had the brush fire under control. It was a pretty picture in the woods, the red-caped soldiers grouped about the smouldering em-bers of a fire, with lantern-light filting over different faces and figures—now on a tall officer in top-boots; now on a bow-legged bugler, his burnished trumpet and

red-cord whipped against flapping shirt.

About twenty men, mostly qualified marksmen, spent yesterday morning at the Battery E rifle range in New Bedford. They were accompanied by Captain Gibbs of Battery E. Lieutenant Portal, inspector of rifle practice, and a detail of E men for markers. Private Schultze of Battery A made the

largest score, forty-four.
Yesterday Colonels Morgan and Converse of the governor's staff and Colonel Rotch of Governor Brackett's staff visited camp. Colonel James Edgar of the Ancient and Honorable Artillery Company and two former officers in the First Massachusetts, Lieutenant Colonel James F. Jackson of Fall River and Major A. E. Perry of New Bedford, also visited the camp yesterday.

In addition to work of this sort, the executive committee is formulating requests for the part that it hopes the national government will take toward siving the visitors recognition in Americal similar to that which the Ancients received when in England in 1896/
The committee on hotels and banquets, which has as its alm the biggest banquet ever given in this country, not in price per plate nor in number of diners, but in other respects, is grappling with the mass of details which such an enterprise inother respects, is grappling with the mass of details which such an enterprise indetails which such an enterprise into the respects, is grappling with the mass of details which ladies in their families can give, and the volunteered co-operation of experts in their line of work. The transportation committee, acting jointly with the executive committee, is hardly ready to sign a definite contract for the trip through the country on which the visitors will be taken, but it has practically agreed upon the train—that which its members inspected in February—and is securing a refusal of it for some time in June More definite action cannot be taken until more is known as to the number of London artillerymen who are coming, the exact dates of arrival and departure, and the precise itinerary to 10 followed. "I received an invitation," he began, "through my friend, B. F. Keith, who was a member of the Ancient and Honorable Artillery, and who happened to be in London. The uniforms were something gorgeous. The members stood in two long lines, awaiting the coming of the prince, who is always punctual. I was dressed in my usual boy-size clothes, a small American flag stuck in my Tuxedo coat. I walked around restlessly. The major-domo was a very grand personage with a hearthin but on one and only a prosonage, with a bearskin hat on one end and long boots on the other. He must have been eight or ten feet high. He chased me to the rear of the room several high. He chased me to the rear of the room several times,—evidently not knowing who I was,—but every time he turned his back I would bob out again, sometimes between his legs. The prince came, and almost the first thing he did was to walk across the floor to me and say: 'Hullo, little chap. I am glad to see you.' I had met him before. Then Henry Irving bore down on me and shook my hand, and so did Mr.

wind again asserted istelf and gave another perfect day for the fifth under canvas.

The schedule was carried through without a break. One valuable innovation was made during the day. It was suggested by Capt. Whiting that the officers would not be doing a bad thing if they should just go in for a little drill on the disappearing rifle themselves. This was voted the proper tiling, and the officers that went to work were Capts. Frothingham, Whiting and Fuller and Lieuts. Day, Fullerton, Wilson, Grant, Cormack, Paine, Wolcott, McCulloch, Glesson and Frye, Battery Quartermaster Sergeant Bauman of the 7th United States artillery, on duty at the post, was selected as instructor, and every man entered with a spirit into the voluntary work. While the sergeant was rubbing it into the shoulder straps, Capt. Lundeen, The United States artillery, came along, and was rather surprised, to find one of his sergeants instructing officers, but, appreciating the desire of the militlamen to learn, he also took hold, to the end that much of value was absorbed by this detachment. There were few spectators about in the forenoon, but every car from noon to sunset was crowded, the attendance reaching almost the numbers of Sunday. The afternoon arrivals found that Quartermaster Keenan had completely roped off the parade, a wise precaution. There is as much room as ever for sightseers, but the roop prevents them from crowding into the parade and interfering with the manoeuvres of the troops.

terfering with the manoeuvres of the troops.

The interesting event today was the visit of the mayor and the subsequent roview and evening parade. The review went off nicery, as did the following parade, but, contrary to custom, the mag would not come down in time to the "Star Spangled Banner," but hung half down for a time, the signal halyards having run off the sheaves. The regulation requiring the loop down of tents at retreat was followed tonight only in part by the guard and the first, second and third companies.

An immense crowd is anticipated Thursday, when Gov. Wolcott reviews the command. Capt. Whiting, who has charge of the salute, has selected his firing party from D. F and L and guarantees that the city will be apprised when the Governor reaches camp, for he proposes giving his. excellency a rousing salute from the guns of Port Rodman. The powder has been selected and a grass crop cut in anticipation of making the old guns talk.

There is a Leautiful lack of restraint about the I. A. C.'s dinners that is much to the liking of the Pringe, and the organizers of the feast see to it that there are some first-class entertainers on hand. The Prince loves a good story well told, and that is why Depew and His Royal Highness get on so well together. The last time the Prince dined with the Ancients, Depew was a guest, and in his speech did for himself with the H. A. C. He said, briefly, that there were three great branches of military organizations in England; first, the regulars, who would fight anywhere, for any cause, at any time; second, the volunteers, who would fight to defend their shores at any time; and third, the H. A. C., which would not fight at any time for anything anywhere. Full publicity was given to this, but it has never before been told

how Mr. Depew came to make the speech.

Among the members of the Honorable Company there is a Sergeant who stands well over six feet in his socks. His sense of humor, however, is not in proportion to his height. Just before dinner was served, and while guests and hosts were freely mixing together, Depew ran up against this giant and fell into conversation with him. The Sergeant was full of the glories of his company, and Depew, having a dim idea that the H. A. C. had, as a matter of fact, done little fighting. but wishing to give the enthusiastic Sergeant a chance to tell of some blows, it suddenly struck him that during the Cromwellian war, when every one fought, the company must have played a spirited part. So he said to the Sergeant: "I am not so well up in the history of your organization as I should be, I fear. For instance, which side did you take in the Cronwellian civil war?"

"Well, that's it, you know," said the Sergeant; "this company has seldom, I may say never, been without clever men at its head, and that accounts for our splendid record. men at the Civil War we had an extra clever man, sir, the cleverest officer, perhaps, we ever had, and he managed it so tricky, sir, that neither Cromwell nor the King knew what to make of us, sir, and we went through the whole beastly trouble without firing a gun. We were the only company in England that did not lose a single man,"

This man's earnestness so tickled Mr. Depew that he put

his foot in it an hour or so later, by telling the truth.

After four years' work in that city, not satisfied with the opportunities there afforded 'him, he moved to Boston and commenced business for himself by opening a small clothing store in Roxbury on Washington street, opposite Vernon

Washington street, opposite Vernon street.

While still retaining the Roxbury store, Mr. Shuman in 1869 entered into partnership with Mr. John Phillips, under the name of Phillips, Shuman & Co., for the transaction of a wholesale business in boys' clothing. The concern prospered greatly and occupied a large building on Summer street until burned out in the great fire of 1872. Immediately after the fire the concern secured a building on Washington street, cccupying what is now a portion of the site of their present store, and opened a retail department for the sale of boys' clothing. Failing health compelled Mr. Phillips to retire in 1876 and he died soon after.

The immense establishment at the corner of Washington and Summer streets, denominated the "Shuman corner," is the result of Mr. Shuman's business energy, lit exhibits an achievement of no ordinary merit in the progress of mercantile improvement.

He is a many tres, and he is a recognized authority of leading financial questions. He is a man of generous impulses and is very popular in business, social and public life. In recognition of his versatile ability and accomplishments he has been called upon to fill many positions of public and private trust. He is intensely loyal and patractic, and his love for the "Stars and Stripes" is evinced by his gift a few years ago of a beautiful American fing to the Boston City Hospital, as also one to the Dudley Schood, where his daughters received their early education.

He is president of the board of trustoes of the Boston City Hospital, and during of the Boston City Hospital, and during the past fourteen years, while occupying this position, he has given much thought, time and work to the needs of this great institution. Mr. Shuman is a member of the socalled Mayor's Cabinet or Advisory Board to the chief executive of Boston. On the inauguration of Mayor Josiah Quincy in January, 1826, the newly elected Mayor suggested that the seven representative organizations of the largest mercantile and financial interests of the city should each elect a member to confer with and advise the Mayor at needed times, on questions of vital interest to business, circles and commercial Boston. There are other improvements now in process of construction, all going to show that he has been active in the interests of the city. He has brought about a reduction in the cost of treating patients not by depriving them of any of the accessities, but by shrewd and careful purchases and the economical expenditure of appropriations. An instance of his foresight was seen in the purchase of the land for the convalescents' home in Milton. Mr. Shuman went out to Milton and sought a desirable site for the home.

He paid \$1500 to bond the land and then asked for an appropriation for the purchase of the site. The City Council had such absolute confidence in him that the appropriation was made immediately, although if it had not been Mr. Shuman was prepared to keep the land for his own use. The site today has doubled in valuation, and the home on it is another evidence of his husiness ability. When a city purchases land the price is usually put at an evorbitant figure, and Mr. Shuman, realizing this fact, saved the city more than \$30,000 by the plan he pursued.

Although in August, the vaction month, a meeting of the London committee of the Ancients would be thinly attended, preparations for the visit of the London company next June are being urged forward. Indeed, some committeemen are taking advantagee of their presence in other cities on pleasure trips to advance the arrangements for the reception and entertainment of the Englishmen. In addition to work, of 'this sort, the executive committee is formulating requests for the part that it hopes the national government will take toward giving the visitors recognition in America similar to that which the Anclents received when in England in 1896. The committee on hotels and banquets, which has as its aim the biggest banquet ever given in this country, not in price per plate nor in number of diners, but in other respects, is grappling with th mass of details which such an enterprise involves. Its members are enthusiastic and full of suggestion. They have the help of hints which ladies in their families can give, and the volunteered co-operation of experts in their line of work. The transportation committee, acting jointly with the executive committee, is hardly ready to sign a definite contract for the trip through the country on which the visitors will be taken, but it has practically agreed upon the train-that which its members inspected in February-and is securing a refusal of it for some time in June. More definite action cannot be taken until more is known as to the number of L. don artillerymen who are coming, the exact dates of arrival and departure,and the precise itinerary to be followed. Colonel Walker, Dr. Lorimer and the Rev. Mr. Horton Discussi Foreign Issues,

Among the 700 passengers who returned to America yesterday on the Canada was Colonel Henry Walker of the Ancients.

Mr. Walker, when interviewed by a Post reporter yesterday afternoon, spoke very happily of his trip. He said:

"While I was abroad I was only in London two days and saw very little of the people who will be our guests later.

the people who will be our guests later. I know little or nothing of the plans more than have been given out. I had a delightful trip, though, through Switzer-land with an old friend, over some of the more famous battlefields, and at one or

"In France, where I was for a few days, I found the feeling very high over the Dreyfus matter But it is pretty hard to tell which way it runs stronger. I think the more sober-minded people recognize the fact that there is not evidence analyst to convict Dreyfus. They feel enough to convict Dreyfus. They feel much as we do on this side. But there are many who are just like the average Frenchman. The Latin races are decaying. There is a great deal of prejudice, and this may count. Very many feel that there was some destitry in the war department and they Profile had ever department and that Dreyfus had some-thing to do with it, but they think he has been made a scapegoat and that there is not evidence enough to convict him."

Mr. Shuman expresses himself enthusiastically regarding the prospects for success in raising the full sum required, now that the vacation season is coming to an end, and members are gradually returning home. He does not state figures, but it is understood that the subscriptions to date aggregate over \$12,000.

Bidgeport (let.) Standard Boston Glober. Sept. 20 st. 1899. Sept. 2/1 1879.

I It is announced, not without muc

fear and trembling on the part of the people of the Quaker City, that the Ancient and Honorable Artillery company of Boston once commanded by Miles Standish, and noted from that day for its trencher triumphs, is eating and drinking its way slowly but surely towards Philadelphia, with a view of investing that city on or about October 2nd. The defences of Philadelphia are not in the best possible condition, and some of the bars are down, so that the entrance of the visiting cohorts may be made easy; easier than their entirtainment perhaps! But we have faith in the patriotic feeling of Philadelphia, and believe that she will rise to the full masure of the occasion. The Even. ing Telegraph of Philadelphia says: "The event is considered in military circles a very important one, and preparations will be made during next week to give the crack regiment of Boston a rousing reception." That sounds about right and shows the proper spirit. But the men with whom the Philadelphians have to deal, have had a high standard of gastronomic and bibulous excellence to live up to, and long practice has given them a condition not easily to be coped with. One of our poets, Holmes, we believe, has pictured the "Ancients" at the time when the pace was set by Standish himself, and puts it more or less, thus:

"He poured the flery Hollands in, The man who never feared,

And drank a deep and solemn draft, And wiped his yellow beard. And then the men around that board,

The men who fought and prayed, All drank as 'twere their mother's milk, And not a man afraid!"

Men brought up under that sort of an example and inured to the stern realities of such duties and responsibilities are not lightly to be encounter-el and it behoves Philadelphia to brace herself and prepare by all reasonable means to endure and, if possible, survive such an unusual visita-

This sum had come from the company generally, and without much hard work, but he stated that \$20,000 more is needed, and the applause that his speech received indicated that it would be forthcoming.

ancestors' characteristics and abilities. Theodore Sedgwick was born in May, 1746, at Hartford, Conn., and through the affection of his younger brother, John Sedgwick, later a major-general in the Revolutionary army, he was partially educated at Yale college. The father had died young. Theology and law both interested him, but he finally decided to. study the latter and entered the law office of Colonel Mark Hopkins, a distinguished citizen of Great Barrington, grandfather of President Mark Hopkins of Williams college, and was admitted to the Berkshire bar in Sepember, 1765, when he commenced to practice his profession at Great Barrington, but he did not meet with the success that he wished, and so he soon removed to Sheffield, which town he represented in the general court, both before and after the revolution, and where he obtained a large practice. Mr. Sedgwick remained loyal to British rule until he was fully convinced of its injustice, when he took a decided and active stand for independence. In 1774, a convention of sixty delegates, chosen by the towns of the county, met at Stockbridge to take some action on British oppression, and Mr. Sedgwick was chosen clerk, and one of a "committee to take into consideration the Acts of the Parliament of Great Britain, made for the purpose of raising and collecting a revenue in America, and report their sense of them." At the beginning of the war he served for a time on the staff of General John Thomas, when that officer led a successful expedition to Canada, and on its return his cordial and appreciated friend, (at that time) Aaron Burr, whose grandfather, Jonathan Edwards, was associated with the Stockbridge Indian Mission) urged him to accept the office of secretary and aid on the staff of General Israel Putnam, but instead, during the latter part of 1776, and throughout 1777, he was commissary for the norhern department of

In 1875 he removed to Stockbridge -his third settlement in Berkshire county-and became the leading lawyer west of the Connecticut river, and occupied a prominent legal position in the adjoining counties of New York state. During 1786 and 1787 he was active in quieting the "Shays' Rebellion," and was the recipient of the rebels'bitter dislike, as he did not approve of their misguided attempts for righting the wrong. Mr. Sedgwick was one of the delegates to the convention called to form the constitution for the Massachusetts commonwealth, and also of that which assisted in establishing the constitution of the United States. He was a member of the continental congress, and was continuously a member of either the house of representatives or senate in the first six congresses, and in the last he was speaker of the house. He was district attorney for Western Massachusetts, and

later was attorney general for the commonwealth. He was twice a commissioner, to attempt the boundary settlement between New York and Massachusetts. At the time of his death, in January, 1813, he was an associate justice of the supreme court of Massachusetts, which office he held eleven years, from 1802. Washington offered him the important honor of secretary of the treasury after Hamilton's retirement, but he declined it; and he was also appointed a justice of the Massachusetts court of common pleas, but did not take his seat. One of the most important objects that interested Judge Sedgwick was American slavery, and his efforts toward their freedom was one of his brightest honors. He was chairman of the committee that made the report to the house of the bill that later became the original fugitive slave law, and he was one of the earliest members of the Abolition society of Pennsylvania. of which Franklin was president, and his influences resulted in freedom for the slaves of Massachusetts. He was a member of the American academy of Arts and Science, and Princeton college conferred on him the degree

of L. L. D. In 1801, Judge Sedgwick retired from active public life, and his remaining years were occupied with the requirements of the state supreme court and his private affairs. Judge Sedgwick occupied a prominent place among the lawyers and states-men of his day, and his strong love for right for right was the corner stone of his life, both in his sympathies with the continental and federal periods. That he had enemies there is no denying, but surely he was not alone in that respect, and while his decisions on the subjects of his day may sometimes have been opinionated, it was because he fully believed that he was right. His eloquent and clear speeches on different subjects received much praise from distinguished contemporaries, even outside his own party. personality he was a gentleman in the true sense of the word, and of fine presence, a subtle blending of in-herited and individual aristocracy and democracy and he undoubtedly felt that while an honorable ancestry should always be decidedly appreciated, it was simply a foundation on which to build the structure of his life work, and that the more honorable the ancestry the more responsibility was inherited.

Judge Sedgwick was first married to Eliza Mason, daughter of the elder Jeremiah Mason, who died within a year of their marriage, second to Pamela Dwight, daughter of Brigadier General Joseph Dwight, and Abigail Williams Sergeant, former widow of John Sergeant, normer with the Stockbridge Indians, and sister of the founder of Williams college, and third to Penelope Russell, daughter of Charles Russell, who survived him. His devotion to his family was one of His devotion to his family was one of his strong characteristics. By his second marriage he was the father of ten children, of whom three were lawyers of distinction. Theodore practiced his profession at Albany and Stockbridge, author of a treatise on "Public and Private Economy," several times elected to the Massachusetts legislature, one of the founders of the Boston and Albany railroad, the commercial backbone of the state, and many times nominated for governor on the democratic ticket, before that party's state success. Her charming personality, good influences. distinguished gracious hospitality, friends and clever writings, proved her to have been a remarkable woman. Many of the descendants of Major General Robert Sedgwick, ' (or as some of the family have called him "the governor," from his supreme command of Jamaica,) have been people of especial ability and prominence up to the present time, in many of the walks of life. The family are still represented in the old Judge Sedgwick mansion at Stockbridge by Henry Dwight Sedgwick, Esq., many years a lawyer in New York, and who possesses many of the Sedgwick characteristics. One of his sons, Rev. Theodore Sedgwick, rector of the Episcopal church at Williamstown, is a most worthy bearer of his Berkshire county ancestors' name. Judge Sedgwick and many of his descendants are buried in the interesting Sedgwick burial ground at Stockbridge, where a noticeable grave stone is that of Mumbet, a slave, whose freedom was due to the Judges' interest, and who showed her appreciation, by devotion to his family, during the remainder

The Famous Organization Has Been to London Lately, but Now Wants to See the Export Exposition.

From "The Record's" Correspondent. Boston, Muss., Sept. 9.—When the Ancient and Honorable Artillery Company of Massachusetts visits Philadelphia on their annual autumn outling on October 2 next the good people of that city will see the oldest regularly organiz-ed and chartered military organization on the American continent, but they will also see one of the most pictures que and unique aggregations that ever in-

ever city they visit.

It has for some years been the custom of the Ancients to visit some city each year, making the journey in palatial special trains. The last pilgrimage was to Quehec ently last spring, when, from all reports, that city was captured one morning before breakfast. Nearly every promisent city in the country has had the distinguished honor of entermining this organization and there is no doubt but that joility and goodfellow-hand in the Quaker City as in any place in the and.

no other organization was ever honored before. It may be mentioned here that in 1900 the Honorable Artillery Company of London will return this visit, becoming the guests of the Massachusetts Ancients, who will take them on an extended pilgrimage through the United States in a special train.

OVER 250 YEARS OLD.

"The Military Company of Massachusetts" received a charter signed by John Winthrop, then Governor of the Massachusetts Bay Colony, March 13, 1638. Under that charter it still lives, now bearing the name of "The Ancient and Honorable Artillery Company of Massachusetts," and being the oldost military body and chartered organization in the New World.

The petition of the charter, if not

formerly refused, remained in abeyance for some time, Governor Winthrop giving as a reason for not granting it that it might be dangerous "to erect a standing authority of military men who might easily, in time, overthrow the civil power." Some historians say that the religious question also entered into the matter, as many of the petitioners differed thereon from the authorities, by whom dissenters from the Puritan faith and customs were looked upon with but little favor. There is also every reason to believe that the petitioners had associated themselves together for military purpose some time prior to the date tary purpose some time prior to the date of their charter.

MODELED ON THE LONDON COMPANY.

Among the charter members of "The Military Company of the Massachusetts," its first commander, Robert Keayne, stood foremost. Keayne came to Boston from London in 1635. In London he had been a member of the Honorable Artillery Company. The train bands which had been organized in Boston and surrounding towns, similar to those of the mother country, needed some central power to increase their efficiency by insuring a general system of drill, to be a "school of soldiery," to which the officers of all these military bodies were to belong. As the Honorable Artillery Company had acted in that capacity in Old England, it served as a model on which Keayne and his associates fashioned the new company in their new home.

Upon the roll of its members are to be found the names of men who in their day and generation through the history of Massachusetts have been foremost in peace and in war, and have occupied the highest places in science, art and literature, in social, professional, political and military life.

military life.

For many years the Ancient and Honorable Artillery Company well-filled the massion for which it was founded, and held its place at the head of the citizen diery of the colony and of the State.

The transformation of the Puritan and Pilgrim colonies into a powerful and prosperous Commonwealth gradually changed the relations of the company to the volunteer militia, but it still stands as a military company, performing military duties and having officers bearing military rank and titles, who are each

NEW OFFICERS EVERY YEAR.

The company has always kept in touch with the spirit of civil liberty and self-government which has ever characterized the community about it. The custom of electing all officers annually by vote of all its members has never been departed from, and the custom, an equally significant one, of officers at the close of their term of service again taking their place in the ranks still exists. The habit of alternate obedience and command is still cherished, and this explains the statement above that nearly everyone is an officer or an ex-officer.

Existing under a special charter, the company has occupied an exceptional position. It is not subject to the general laws of the State or nation relative to the militia, or volunteer forces. Its charter may be en recognized by the statutes of Massachusetts, and in the statute of 1792 of the National Congress relating to the militia the company was exempted from its provisions.

to the militia the company was exempted from its provisions.

Under its charter the company was empowered to elect a captain, a lieutenant and an ensign, the captain and lieutenant to be such only as the Court or Council should allow, though no officers were to be put upon the members of the company "but of their own choyce." In 1821 a second lieutenant was chosen, and in 1823, under an amendment to the charter, an adjutant was added to the list of commissioned officers, the office of ensign being abolished at the same time. No further change in the organization of the company has since been made. Sergeants, varying in number from time to time, have also been elected annually, who, although the organization of the company is in some respects a regimental one, still, according to the old custom, command companies.

LONG ROSTER OF OFFICERS. LONG ROSTER OF OFFICERS.

LONG ROSTER OF OFFICERS.

The roster of the commissioned officers is nearly complete for 256 years. There is no record of an election of an ensign in 1649, From 1687 to 1690, inclusive no meetings of the company are recorded. From 1775 to 1785, inclusive, owing to the unsettled condition of public affairs and the absence of many of the members in the Continental Army, no meetings of the company were held, but in 1786, the pressure of war being no longer felt, it started into new life.

According to ancient custom, on the first Monday in June of each year a sermon is preached before the company followed by a dinner, an election of officers for the year ensuing, and the commissioning of the officers elected, by the Governor of the State. Each comminder, a short time previous to the election, selects a preacher of the election.

The headquarters of the Ancients is in Faneuil Hall, the "Cradle of Liberty." Robert Klayne, by his will, left \$1500 to be partly used for building a masket house, in which he desired one room to be set apart for the "Artillerr." This was done and the company occupied the room until the building was burned in 1711. In 1713 the erection of a new town house, where Boston's famous Old State House, now stands, was begun. This was destroyed by fire some years later.

This was destroyed by fire some years later.

In 1740 Peter Faneuil, a wealthy merchant of Boston, offered to erect and present to te town a building on condition that it should be used as a market house. At a town meeting, July 17, 1740, the offer was accepted by the small majority of seven out of 727 votes cast. The building was erected far exceeding in size the one originally planned. For several years the prejudice against it as a market house still existing, it was little used for that purpose, being, in modern parlance, "boycotted." It was destroyed by fire January 13, 1701; immediately rebuilt, and in 1805 enlarged to its present size by doubling its width and adding a third story, now used exclusively as the Armory of the Ancients.

KOTED NAMES ON THE ROLL. NOTED NAMES ON THE ROLL

It was formerly the custom to place on the roll of honorary members the names of men noted in public life, or of those who, by their long and useful services in behalf of the company, had merited the honor. For many years past few honorary members have been elected, the most distinguished of them being James Monroe. Chester A. Arthur, once ed, the most distinguished of them being James Monroe, Chester A. Arthur, once President of, the United States; His Royal Highness, Albert, Prince Consort, and His Royal Highness, Albert Edward, Prince of Wales. On the roll all are classed simply as members.

The original records of the company tributes 1602 are not power to be found.

prior to 1698 are not now to be found. Precisely when or how they disappeared cannot be known, though several transcripts of portions of them still exist.

Forty-five members of the Tycoon Club had a joily time on Thursday at the beautiful country home of Mr. George J. Raymond and at the famous Wayside Inn at South Sudbury. The Tycoon Club is composed largely of Boston business and professional men, most of whom are also members of the Ancient and Honorable Artillery Company.

The party left Boston in a special car attached to the 11:45 A. M. train from the North station, and upon arriving at Sudbury were shown the interesting collection of antiquities at Wayside Inn. In the afternoon an elaborate dinner was served in the barn of Woodstock farm. At Wayside station the club was met

The doric columns under the gallery are surmounted by the original balustrade. Ionio columns above carry the entablature in exact duplicate of the old. The caps of the columns are picked out in gold, presenting a brilliant decorative effect.

The steps on either side of the hall as well as those in the gallery consist of steel stringers, wrought fron risers and bave treads of hard pine. The risers are perforated to allow the escape of warmed air as the hall is heated through galvanized fron ducts brought down the entire length under the treads. The steps in the gallery, which previously were of unequal rise and tread have been made uniform.

The speakers' platform at the rear of the hall had been extended to connect with the side steps at some late day, probably within 30 years. As this extension burled the bases of two of the columns on either side, having no advantage except to enlarge the platform space, it was decided to go back to the original design, which leaves a space between the platform and the

The face of the platform contains sockets for adjusting lights to supply the reporters' tables. The newspaper men who have been obliged to report night meetings in Fanculi hall will recall the inconvenience which the insufficient lighting has put them to in the past. The stailway of the exit from the rear of the hall to the street has been encased in expanded metal and thoroughly fireproofed.

The decorative feature of the ceiling consists of a conventional lotus leaf design. Previously this design was recessed in the ceiling, but as this could not be done under the new conditions, the architects have handled the design to very good effect. There is one innovation, a border of electric lights having been put in place.

The lighting of the side galleries comes from the back of the entablature, and consists of bulbs set in decorated cusps, producing a soft, reflected light. The lighting around the gallery front will be similar to that previously employed, which consisted of very handsome bronze brackets of colonial design. These brackets have been carefully preserved and repolished, and will be surmounted by glass globes, in which the light will be placed. The quarters occupied by the Ancient and Honorable artillery company have been somewhat changed. Their main hall will be 18 feet wider on account of the reconstruction of the roof trusses. Previously the lower chord of the main truss was in the floor of this hall, and now it has been placed in the ceiling. The Ancients will have the lighting of this hall entirely from the ceiling. The trumpet-shape dormer windows now terminate in a semi-circle in the ceiling. The trumpet-shape dormer windows now terminate in a semi-circle in the ceiling. The Governor's Foot Guards wear the red coats which were adopted as part of their original uniform.

The Old Guard of this city, which will parade under the command of Major Briggs, was also chartered by the state as an independent military organization, being formed in 1868 of former members of the old Light Guard and the City Guard, independent companies which were incorporated into the militia. The only other independent military bodies in this state are the Veteran Corps of Artillery, the Albany Burgess Corps, and the Troy City Guard. The Veteran Corps of Artillery, of which the Rev. An event which will long be remem-bered by Sergt Frank P. Stone of the Ancient and Honorable artillery com-pany took place last night, and al-though a host of friends attempted to pany took place last night, and although a host of friends attempted to surprise the genial sergeant at his home in Winthrop st, Roxbury, he was equal to the occasion, as not only find he the grounds surrounding his residence, "Stonewall," brilliantly illuminated, but he had also a band on the lawn to receive the party.

It had been decided some weeks ago to present Sergt Stone with a slight token of esteem, and some 160 members of the Ancients assembled at his residence last night and there was a warm welcome for all. In addition to many members of the Ancients, including severel past commanders, there were also many friends in the dramatic and musical professions.

Shortly after 9 o'clock the company gathered in the parlor and Commander E. P. Cramm presented Sergt Stone, in behalf of his friends, a beautiful goldmounted sword and belt suitably inscribed. It was the special request of the donors that it should be worn on his coming trip to Philadelphia.

Sergt Stone made a feeling response. Col Walker added a few words in appreciation of the worth of Sergt Stone. Then all were royally entertained. One of the interesting features was the "German subway." which was very liberally patronized during the evening. Among those present were:

O. M. DOUGLAS IS DEAD

Boston Manager of American Press Expires Suddenly.

HAD MANY FRIENDS HERE.

O. M. Douglas, residential manager for New England of the American Press association was found dead-in bed at his room in Hotel Gladstone at Roxbury yesterday morning. He was about 35 years old. A widow survives him.

Mr. Douglas was practically well krown in Pittsfield, where he had for years been the guest of the Fark Whist club on his visits to this city. He was an excellent whist player and had introduced at the whist club many of the new systems of whist in use in the club's play. He was the guest of the club for the last time about three weeks ago.

Mr. Douglas went to Boston from Lewiston, Me., about 14 years ago, up to that time having been connected with the job printing and business office of the Lewiston Journal. He went to Boston as a bookkeeper of the American Press association, and four years later was made residential manager for New England, Mr. Douglas was a prominent Mason and a member of the Ancient and Honorable Artillery company.

Mr. Douglas was a very quiet man, but one of genial temperament and peculiarly fitted for the business of the great association he represented in New England. His acquaintance in his territory was very complete and he was everywhere respected and belov ed. Ever since its founding in 1887 the Journal has had relations with the American Press and its acquaintance with Mr. Douglas was that of hundreds of others.

THE ANCIENT AND HONORABLES

Famous Artillery Company to Be the Guests of Philadelphia Next Week,

Guests of Philadelphia Next Week.

Elaborate arrangements for the reception and entertainment of the Ancient and Honorable Artillery Company, of Massachusetts, which will visit Philadelphia for a two day's stay on Monday next, have been completed.

The company, under Edward P. Cramm, 250 strong, and accompanied by the Salem Cadet Band, will arrive at the Reading Terminal about five o'clock Monday afternoon. On its arrival the organization will be welcomed by a committee of the veteran corps, First regiment, N. G. P., Commander Theodore E. Wiederschein, Senior Vice-Commander R. Dale Benson, Edwin N. Benson. Past Commanders General James W. Latta and William W. Allen, Captain C. Stuart Patterson, George C. Thomas, Dr. Charles Turnbull and Charles Este.

The veteran corps will act as an escort to the visitors, and after the welcome the two organizations will march to the Continental Hotel, where the Bostonians will be quartered during their stay here. The line will be reviewed at the Union League by Mayor Ashbridge.

Tuesday will be given up to sight-seeing, and the visitors, escorted by a detail of the veteran corps, will, at the invitation of Dr. William B. Wilson, visit the National Export Exposotion. In the evening the annual banquet will be given at the Continental Hotel.

On Wednesday the visitors will start on their way home. A detail of the veteran corps will escort them from the hotel to the railroad station.

The Aucient and Honorable Artillery is one of the oldest military organizations in the country. It had its inception when the first white settlers arrived in Massachusetts, and was formed as a means of repelling attacks from the Indians. The organization sprang into existence in 1637, when meetings for instruction and discipling commenced.

means of repelling attacks from the Indians. The organization sprang into existence in 1637, when meetings for instruction and discipline commenced. In that year a petition for a charter was sent to Governor Winthrop, but it was refused. The company finally obtained a charter March 13, 1638, which was signed by Governor John Winthrop.

The Prince of Wales was made an honorary member of the organization during its recent Egropean tour, and at that time they were received by Onean Victoria.

On Wednesday evening at "Stonewall," the residence of Stirgeant Frank P. Stone, a company of his associates in membership of the Ancient and Honorable Artiller. Company asserbled, and Commander E. P. Cramm, on behrif of all, presented the host with a beautiful gold mounted sword and belt, suitably inscribed. The occasion was one of social enjoyment, and a most happy one in all particulars. Philadelphia will be honored by the distinguished and celebrated Bostonians

who will come on Monday next to visit the Exposition. The Ancient and Honorable Artillery Company is the pride of the Hub and the most select and distinguished organization in that city. The Honorables are also notorious travelers, and their peregrinary goings and comings are the events of the season in the Massachusetts capital.

Phila (Ja.) Call.

Their trip to England awhile ago has become historic. They shook hands with the Ancient and Honorables of London who are just a shade more ancient and honorable than the Boston company, Then they hobnobbed with princes, dukes and duchesses, and it was even hinted that they shook hands with the Oucen without more eeremony than the casual "how are you?"

In any event, the Aucient and Honorables are Boston's finest, and their visit to the Quaker City is an event of more than passing interest. It is needless to Bay they will be royally welcomed.

It is rather a singular custom, this going about through the land and spreading the tray of their welcome to those whom they meet, but it is a long honored and a fixed custom of the ancient artillerists from the Bay State, and one from which they never deviate.

Three years ago they invaded the dominions of the British Empire, carrying with them their side arms by special diplomatic privilege, and cheerfully invited the Prince of Wales and other sons of royalty and nobility to sit with them and dine.

olutionary origin, the First Troop, Philadelphia City Cavairy.

In the mere matter of dates respecting the antiquity of these two organizations, the artillerists from the Hub have a little the best of it, showing 136 years to the good in a parallel of time.

But the City Troop, of Philadelphia, has maintained since the year before the Revolution a continuous muster roll of men in active military service up to the present day, and in some aspects the interesting occasion of a mingling of the Ancient and Honorable Artillery Company with the successors of the famous troop of light horse that fought with the Centennial Army at Princeton and Trenton suggests the adage of and Trenton suggests the adage of

Greek meeting Greek.

The City Troop has an unbroken record of more than a century as an organization. The Ancient and Honorable Artillery Company derives its record chiefly from the personal records of men

in its roll of membership, covering a period of ten generations. It has no fighting record as a body in the wars of the United States. It has an escutch-eon on which is inscribed the date of its charter from the Provincial Council, of Massachusetts, June 7, 1638.

Compared with that proud title to antiquity the age of the City Troop seems to be yet in the haloyon stage of youth. But there is scarcely a comparison to be made from a military viewpoint. The First Troop, Philadelphia City Cavalry, is distinctly a military organization and First Troop, Philadelphia City Cavarry, is distinctly a military organization and has been continuously such since the day of its organization. The Ancient and Honorable Artillery Company is a chartered organization, having on its rolls members with military records, but it is not a distinctively military body subject to calls for duty from the State or national Government. It resembles or national Government. It resembles the State in Schuylkill Fishing Club, or the State in Schuyikii Fishing Chas, the Society of the Cincinnati, an old incorporated hody with a name full of antiquity, but concerned chiefly with the pride of good-fellowship and the pleasures of the feast.

Until a few years ago the Ancient and Honorable Artillery Company, of Mas-

sachusetts, as an organized body, never wore a uniform. Its members appeared on civic or festive occasions, according to its ancient custom, each attired in the uniform of some military body of which he was or had been a member, and there was rather a marked fincture of variety in the state of these.

Three years ago the fulldress uniform of the artillery branch of the United States Army was adopted for a memor-able trip abroad, the marching members discarding rifles, which they usually car-ried, and adopting sabres in conformity

It cherishes on its roll of honorary membership the name of his royal highness, the Prince of Wales, who happens to be the rominal head of the older organization in London, from which the Ancient and Honorable Artillery Company takes its name.

The London organization has an armory and parades in regimental formation, wearing a uniform similar to the Royal Artillery.

The father of the Prince of Wales, the Prince Consort, was likewise an honorary member of the Ancient Artillery Company of Massachusetts.

Among other distinguished names on its honorary roll are those of James Mouroe and Chester A. Arthur, two Presidents of the United States.

On its active roll of members through a period of several generations are the names of many citizens of Massachusetts with noted military records in the wars of the United States and of the colonies before the revolution.

The Ancient and Honorable Artillery Company was chartered as the "Military Company of Massachusetts." Its chief founder and first captain, Robert Keague, came to Plymouth's shores in the days of the Pigrims' flight, having been a member of the Honorable Artillery Company of London. From the historic connection between its founder and the older organization in London, kept up under the Prince of Wales, the successors of the military company of Massachusetts adopted the title of the Ancient and Honorable Artillery. The "armory" of the "Ancient and Honorables" is confined to a room in Faneuil Hall, Boston, where it meets annually and at other periods, elects officers and starts out on its festal journeys once a year.

On their trip to this city, they will make their stay at a hotel where rooms have been reserved, for Tuesday and Wednesday next, for 350 visiting members of the organization. From their hostelry they will send out their invitations to their guests, the gallant members of the City Troop.

The membership of this unique body is made up of men of every shade of occupation, from a teamster to a banker. They come from all the walks of trade and industry, as well as the higher plane of the professions. Like its patrinymical ancestor, the Honorabie Artillery Company of London, it distinctively represents the commonalty.

A good idea of the character of the organization is given in a condensed extract from a speech delivered in Baltimore, on the occasion of one of the yearly jaunts of its members, by Colonel Henry Walker, a Union war veteran who commanded the company on its memorable voyage to London. In responding to some polite compliments from the citizens of Baltimore, he said:—

"The Ancient and Honorable Artillery Company each year, leaving the city of its birth to visit other sections of its country, has become a proselyting missionary body, not seeking to propagate religious dogma or political faith, but to carry the hospitality of the Bay State to its sister States, and to make converts to interstate brotherhood and national unity. The company is a representative of the business and social life of the Puritan Commonwealth, made up of citizens of almost every trade and profession.

At the meeting of the Ancient and Honorable Artillery Company, held last week in the East Armory, the command received from Major Woolmer-Williams of London, a beautiful medallion in commemoration of Queen Victoria's sixtieth year of reign. The presentation was made by Captain A. A. Folsom, and a hearty vote of thanks was given for the donor. Dr. Henry L. Pinmmer of East Boston and James E. Blake of Attleboro were elected to membership. For the fall field day the company lett for Gettysburg and Philadelphia on last Saturday afternoon at 4.55 o'clock from the South Station, and will return on the following Thursday.

Perhaps no member of the Ancient and Honorable Artillery Company is more popular with the entire membership of that organization than is Col. Frank P. Stone. His genial and happy manner, always the same, makes him a pleasant companion. and it was decidedly a happy occasion when about two bundred members of the company went to his fine residence Stonewall in Roxbury, and presented him with a magnificent sword of the artiflery pattern, and a handsome gold telt. Colonel Stone, as a host, cannot be excelled, and the comrades found him "equal to the task" this time.

UNIQUE MILITARY BANQUET

Civilians Were Few and Far Between, and the Scene Was Brilliant With Gold Lace and Soldierly Trappings.

A most enjoyable feature of the celebration of the two-hundred and sixty-second anniversary of the Ancient and Honorable Artillery Company, of Massachusetts, was the banquet given at the Continental Hotel last night. The large banquet hall was filled by the 280 members of the company, who came to this city on its "fall field day," and the company's guests, including three-score of Philadelphians and Pennsylvanians who are prominent in official and military life.

Elaborately decorated with the Amer-

who are prominent in official and limitary life.
Elaborately decorated with the American colors the feast room presented a pretty appearance, which was added to by the brilliant colors of the great variety of uniforms worn by the artillerymen and those of the military guests. In the centre of the room the Sulem Cadet Band was stationed, and all through the evening it played particular airs and stirring marches, cakewalks being numerous. The guests included the officers of the First Regiment Veteran Corps and the Second City Troop, which acted as escort upon the arrival of the visitors, also the commanders of the various other State and local military and naval organizations.

A WELCOME FOR THE GUESTS.

Commander Edward P. Cramm, of the artillery company, presided at the banquet, and at his right was seated Mayor Ashbridge. After a most elaborate menu had been discussed to the satisfaction of the inner man, Commander Cramm delivered an address in which he welcomed to the Cestive board the company's city and State guests. He said:

"To me our greeting here to-night appears not like that of strangers come together from distant cities, but rather like that of a reunion or gathering of the descendants of the pioneers of a great cause. The tie that binds brother to brother, the true sympathy born of fellowship in a common struggle are the ones that appeal to me in welcoming you to-night.

On the arrival here the company marched direct to a hotel, and a few minutes later the whole party took vehicles for the battlefield, visiting the scenes of the two first day fights, returning to Cemetery Hill, where a most interesting lecture was defluced by Certain Luther W. Minute. livered by Captain Luther W. Minnigh, who in the course of his remarks spoke of the part taken by Massachusetts troops, and also told of how General A. P. Martin assisted in saving the day with his battery on Little Round Top. His remarks were loudly applauded, and possibly one of the most interested listeners was General Martin himself. There were also several members of the company from Massachusetts and Maine who participated in the battle. livered by Captain Luther W. Minnigh, who and Maine who participated in the battle. Later the company dined at the hotel and in the evening the whole town turned out to listen to the concert by the band.

Wêlcome to Boston's Pride:

HE EXPECTED arrival in this city to-day of Boston's pet Ancient and Honorable Artillery, as guests of the First City Troop, should put the local organization on its mettle as entertainers. These solid business men of the Hub enjoy a lively time in a dignified way, and they know a good thing when they see it. They are intensely proud of their record-the oldest military organization in the United States, and the special favorites of the Prince of Wales, who is at the head of the parent organization on the other side of the Atlantic.

Good after-dinner talkers these Boston dignitaries have proved themselves at feasts where they have been conspicuous. The Mayor and other city and State officials who will banquet with them are likely to hear some talk worth listening to. When the Ancients parade they will be worth looking at. If you see them march by, applaud them for the conscious pride they so artfully conceal.

But while the State House is deserted and city Hall bereft of official life the city was not without a ruier who could queil a riot, stop a famine or put out a fire. He is Colonel Nathaniel G. Robinson, Mayor Quincy's secretary, and he had the keys of city Hall, the cable code and other paraphernalia of the Mayor's office, so that the people who have great property interests felt' secure in the absence of 50 many notables. He has been acting Mayor since Thursday last, the day that his Honor had to run to catch the train out of the Union station. For a time some of the officials feit perturbed left he should make removals, but such a proposition was out of the question, because there was no aldermanic quorum. On the contrary the city's affairs moved along the old lines. The municipal navy, icomprising the Cormorant, the J. Putnam Bradlee and the John Howard, had a day off in honor of Dewey's return. The bicycle lantern law was declared null and vold on full moon nights and steam radiators were put in the sidewalks back of City Hall, so that there were reforms inaugurated in his absence which even a Ruskin or a Bellamy colony would rejoice in. The colonel felt confident in being able to quell any attempt to seize City Hall and move it down near the Hendricks Club, for he had the Boston Light Infantry, of which he is commander, iready to do or die.

The gallant Captain Jack Adams, who is governor of the State House, even though he is not Governor of the Commonwealth, had all the pennants safely put under lock and key, and he had President Smith of the Senate and Speaker Bates at the end of the telephone, so that in case the Governor and Lieutenant-Govin case the Governor and Lieutenant-Governor failed to materialize either of them would be ready to take up the arduous duties of state. The only instance of any hostile move against the State since the Governor left for Washington was a telegram received from Billerica or some place n.ar ex-Senator Holden's farm that the gypsy moth had been discovered in that vicinity, and as all the caucuses had been held the sergeant-at-arms did not think it worth while to alarm the Board of Agriculture, which has the task of exterminating that winged vision of destruccerminating that winged vision of destruc-

It was one of the most successful excursions ever undertaken by the company, and Commander Cramm was heartily congratulated by the members of the organization this morning. From the time of leaving Boston Saturday it was one round of pleasure, nothing occurring of an unpleasant character to mar the trip. The railroad service was the best, at all places the train was on time and both at Gettysburg and Philadelphia the company was overwhelmed with courtesies, which were highly appreciated by the members of the company. The company left Philadelphia yesterdity afternoon and marched to the Reading terminal, which was packed with people to witness the departure, and as the train bulled out gave the company a rousing "send-oft".

Mayor Ashebridge Tells How New / York Dewey Committee Snubbed

Philadelphia, Oct. 3.-The Ancient and Honorable Artillery company of Massachusetts, 250 strong, the oldest military organization in the country, is to-day celebrating its 262d anniversary. After the Bostonians reached the Continental hotel last evening, escorted by the veteran corps of the 1st regiment and the 2d city troop, all form and ceremony seemed to have been dropped and the members were informed that they would be at liberty until 7 o'clock this evening when the Honorables will hold a reception at the Continental hotel and at 8 o'clock they will sit down to their annual banquet.

It was rather late this morning when the men appeared for breakfast. Cap-tain Edward P. Cramm, commander of the organization and Captain Charles W. Knapp, his adjutant, were, however, astir early shaping things for the events of the day

At 11 o'clock the commissioned officers of the company, in response to an invitation, visited Mayor Ashebridge. When the officers, about 25 in number, were lined up in the mayor's reception

room, they presented a pleasing picture in their natty uniforms.

In receiving the visitors Mayor Ashebridge said: "There is an affinity between Philadelphia and Boston that is concluded that the two cities and reliable as old as the two cities, and which will continue, I hope, as long as they exist. New York is nearer to us than your city, but New York lackscourtesy for which Boston is noted."

And the mayor narrated his experience in reaching Admiral Dewey at the Waldorf-Astoria, in spite of the efforts on the part of New York's reception committee to prevent the Philadelphia delegation from seeing the admiral.

PHILADELPHIA, Oct 2—The Ancient and Honorable artillery company arrived here this evening, after a pleasant run from Gettysburg, where they had occupied many hours in viewing the battlefield.

At 5 o'clock this morning the drum corps made a tour through the corridors of the hotel Eagle, the company's headquarters, to awake the members. At 7 o'clock the whole command was on its way to the battlefield in vehicles provided by the committee.

Capt Minnogh accompanied the party and gave the company one of the most interesting descriptions of the fight which virtually wound up the career of

Gen Lee and terminated the war.
The company first visited the "Devil's Den," where the members were photographed, and later drove to "Little Round Top," where the captain related how Gen Martin succeeded in getting his battery into position and virtually saving the day for the union army.

The Ancient and Honorables are commanded by Captain Edward P. Crass, and contain, beside a number of very wealthy and notable New England men, walthy and notable New England men, many who have won renown on the field of battle. There are among them any number of colonels and captains, with a general or two thrown in. Every one of them has seen some military service, and therefore they do not want to be confounded with "toy" soldiers. Some of them may be old, but they can carry rifles and know how to drill. But this is not all. They how to drill. But this is not all. They have a history that runs back to 1638, and furthermore do not ask for money or

appropriations, paying their way wherever they might wish to 30. This is their 262d annual outing, and they have chosen Philadelphia this time because everything seems to be coming Philadelphia's way. Their uniforms make up a wide assortment of glery and pomp. A few are just plain to blue and red, but others represent the bravery of the Continental days. In other words, every member is entitled to wear the uniform of any organization of which we once was a member.

The next "blow-out" in honor of Admiral Dewey will occur in his native state and it may be safely predicted that for the first, time the Green Mountains will lose their distinguishing color and will be painted red. If the long suffering admiral recovers from Vermont's reception by October 14 he is expected at Boston, where he will be given the freedom of the subway, initiated into the mysteries of Back Bay society and led through the devious mazes of the streets of the Hub City. It is proposed to make the Boston celebration unique in its way, differing from the New York affair as Boston baked beans differ from the dry and uninspiring article served under that name in California, a celebration centering in the old state house. under the guidance of the sacred codfish and having reference to the intellectual rather than the material results of the sinking of Montojo's fleet. The governor and the state troops-including those who distinguished themselves in Porto Rico, we presumewill be largely in evidence and the school teachers will pour tea in the senate chamber during the reception. The arrangements for the Boston

Dewey exaltation are not yet fully completed and for that reason no announcement has yet been made to the public of the part ex-Governor Boutwell, Senator Hoar, William Lloyd Garrison and the Anti-Imperialist league is to take in the proceedings. We assume, of course, that the Ancient and Honorable Artillery, right resting on the brewery, will act as escort to the admiral, but just what position the Anti-Imperialist league i to take in the parade is a question that nearly everybody wants to have answered and answered quick. The Anti-Imperialist league would doubtless make a great showing in the parade. Dressed in their fine new Fullpino uniforms they would remind the admiral at once of those precious scenes in a far off land which his eyes will never more reast upon. With Sec retary Erving Winslow dressed as Aguinaldo, on muleback, and the Connecticut Valley Patriots, seventeen and a quarter strong, bringing up the rear the Boston commons would rise up as they never have risen up before in one long wild shout of joy. And a carlon of bromo seltzer would be required for the next morning.

By all means let the sacred codfish distribute anti-imperialist li erature along the line of march and Hos or get up on its hind legs and yell for the Fllipinos when Dewey come: marching along.

The commissioned officers of the Ancient and Honorable Artillery of the State of Massachusetts, with the Veteran Corps of the First Regiment, were in-"troduced to Mayor Ashbridge in the latter's public reception room this morning. The bright uniforms of the two organizations, with the rich furnishings of this famous room, added a zest to the ceremony, which drew forth the most favorable comment. The Artillery was in command of Captain, Edward P. Cramm and the Veteran Corps under the command of Captain P. C. Ballinger.

Much to the surprise of the guests, Mayor Ashbridge refrained from making a speech, but he talked quietly to the members. something to be remembered, for few organizations of the kind have so unique an individuality, and the field day that has gone is in no way an exception. It is and may well be a boast of the crack command that it accepts hospitality nowhere, and rather entertains than is entertained when it leaves Boston for its annual field day. The banquet held last night at the Continental Hotel was very elaborate, and its success reflected credit on the committee having the arrangements in charge. ments in charge.

The day was passed according to the likings of the individual members of the company. While many went to the Export Exposition, it was not as a body. The management had given an invitation to all members to make a visit to the grounds, but it was not expected that they would go as a command, and free access was given to all who came in the uniform of the company. Others made a tour of the places of historic interest in Philadelphia.

At 7 o'clock a reception by the officers of the command was held in the parlors of the hotel, and at 8 o'clock the guests and members marched to the dining room. Then, while the party stood, the bugle sounded "To the colors," and the company's stand of colors was carried into the hall.

Sen. Lott is an Ancient and he wanted to go to Philadelphia with the boys. So he arranged to have his senatorial convention Saturday night. The caucus law forbids the holding of a convention until four days have elapsed since the caucuses. According to the senator's mathematics the four days were up Saturday, as the caucuses were held Tuesday. But some one told him he didn't know how to figure, and the senator was frightened. He consulted Andy Balley, who declared there wasn't a doubt about it. If the republican convention were held before midnight Saturday, Bailey ruled, the democrats might contest its held before midnight Saturday, Bailey ruled, the democrats might contest its legality before the ballot law commission and Lott would then be left high and dry without any recourse but to run on nomination papers, which would of course break his heart. VISITORS' UNIQUE PARADE

Country's Oldest Military Organization is Here.

CAME ON ITS ANNUAL OUTING

The Ancient and Honorable Ar tillery Company, of Massachusetts, Celebrates Its Anniversary.

The most unique parade Philadelphians have ever witnessed was that of the Ancient and Honorable Artillery Company, of Massachusetts, which arrived here yesterday afternoon to spend part of its "fall field day." The visitors, who will go to the Exposition to-day and have a banquet to-night, number 250 men and officers, and have brought with them the famous Salem Cadet Band, of thirty pieces. The artillery company is the oldest military organization in the country, having been formed as a school for officers in 1638, through the efforts of Robert Keayne, a member of the artillery company of London, who came to the colonies at that time. second city troop looked pretty.

Becorted by the Veteran Corps of the First Regiment, of this city, and the Second City Troop, the visitors formed the centre of a very imposing procession that traversed Market and Chestnut streets just before dark. The occasion afforded the Second City Troop opportunity to show the new uniforms, which were declared handsome by the crowds that filled the sidewalks. The uniform is patterned after that of the Tenth English Hussars. The tunic is of scarlet, attractively braided in white, while the breeches are of blue stockinet, with a scarlet stripe down the side. The headgear is a black fur busby, with scarlet bag; white plume and cord. Other portions of the uniform are white buff, leather shoulder belt, patent leather carfridge bex, white buff leather carfridge bex, white buff leather carfridge bex, white buff leather shoulder belt, patent leather carfridge bex, white buff leather shoulder bett, patent leather carfridge bex, white buff leather short patent leather cost and glit spurs. The most remarkable feature of the visiting paraders lay in the great variety of costumes they were. They marched eight abreast, and in some of the lines there were no two costumes alike. In the old days no one could join the company unless he had seen service in some other organization, and he was allowed to wear the pniform of the former organization. In the parade there were worn the cotsumes of various old-time artillery companies, the garb of the Continental army being very conspicuous, while there were seen in numbers thand Army, regular army, volunteer army, Roston National Lancers' uniform of the artillery company. EXPOSITION DEWEY DAY

The Admiral to Visit Philadelphia' Great Show.

UNIQUE INVITATION TO HIM

Charles H. Cromp and Dr. Wilson Bear a Scroll to the Naval Hero, Bidding Him Attend Commercial Congress.

When Admiral Dewey visits Philadelphia in fulfillment of the promise he gave to Mayor Ashbridge in New York, he to Mayor Ashbridge in New York, he will be made the guest of honor at the National Export Exposition and the International Commercial Congress. This will follow out a programme arranged months ago by the Exposition managers, who decided to set apart "Dewey day" at the big show whenever the time of the Admiral's visit to this city became fixed. Every detail of this plan, it is now promised, will be carried out.

President Charles H. Cramp, of the Commercial Museum, and Dr. W. P. Wilson, director general of the Exposition, went to Washington last evening to present an invitation to Admiral Dewey to attend the opening of the Commercial Congress on October 12. They will present to the Admiral a handsome scroll of blue and gold, the colors of the city of Philadelphia. On the top of the scroll is a drawing of the main entrance of the Exposition building in water colors. water colors.

Each capital letter in the inscriptions is illuminated in gold, and the seal of the Museum is also in gold. The back of the scroll consists of old moire gold silk, and it is bound in blue leather.

Mr. Cramp and Dr. Wilson have been assured of an audience with Admiral Dewey to-day, when they will present him with the scroll. It may not be possible for the Admiral to be present at the opening of the Congress, as his visit to this city may not be made until a later date than October 12. There is no doubt, however, that when he does come to Philadelphia he will devote a portion of his time to the Exposition and Congress. gress.

RECEPTIONS TO FOREIGNERS. At a meeting of the Exposition Committee on Amusements yesterday Director General Wilson presented a verbal report outlining the plans for the reception and entertainment of foreign delegates to the Commercial Congress. They will be tendered formal and informal receptions, and it will be seen to that the delegates will be provided with plenty of amusement and recrea-

A dash of life and color was given to the Exposition yesterday morning by the visit of the Anciont and Honorable Artillery, or Boston. Hended by the Salem Cadet Band, the company marched to the Exposition, and its members were welcomed by Director General Wilson and other officials, who tendered to them the freedom of the big show. The artillerymen, with their bright uniforms of varying cut and line, took possession of the Exposition buildings and the Midway, and attracted general attention.

After weeks of preparation, the Chinese village opened yesterday for the first time, and the colony of almond-skinned Celestials attracted hundreds of visitors. The rough board buildings which comprise the village have been covered and bedecked with guady Chinese paper and hangings, and the shops and stalls have been fitted up for trade. Considerable work remains to be done, however, to present the village in its true atmosphere of Oriental life and activity.

Ordinarily they squat together in groups and circles to shove rice down their capacious throats with chopsticks, but yesterday they resorted to every possible means to insure privacy for themselves during meal times. They closed and tied doors and windows, and when that was ineffectual to keep out pryers, they hid themselves in corners, or behind boxes and barrels while eating from their rice bowls.

Rag-Time Music at Morning Concert Enlivens Them for the Day.

THEN, GO-AS-YOU-PLEASE

In the Evening a Reception and Banquet to Prominent Persons. Will Go Home To-Day,

Those merrymaking military visitors from Boston, disgnised under the imposing title of the Ancients and Honorables, began the day early yesterday. Immediately after breakfast the members corraled the members of Professor Missud's Second Cadet Band and lined them up in front of the office of the Continental Hotel.

"We always begin the day with a little tune," was the explanation made to the

rofessor Missud is the Sousa of Boston He is the "March Prince." When he went to England with the Ancient and Honorables last year he was placed on a pinnacle with Dan Godfrey. If the "little tune" that was called for in the Continental yesterday morning had been given in a public hall in this city many persons would gladly have given up hard cash to hear it.

Starting off with a rollicking march of his own composition, Professor Missud and his thirty musicians were soon surrounded by a rong of admirers. Scores of persons came it was all about. After the march was con-cluded and liberally applanded the professor switched off into infectious rag-time music and gave the nimble-footed Bostonians the on they were aching for. Dozens of feet truffed gentlemen in a corner near the loak room did a little ballet-girl business. For twenty minutes the professor was

kept busy and then he stopped for a rest This was the signal for a bit of regular low comedy, which the Ancients indulge in whenever they have a field day. From the unch counter came Lieutenant Harry Hat-ey, the wag of the organization. He had purloined a large soup ladie and gravely walking to the professor's music stand he signaled to the band to go ahead, the pro-fessor looking on with well-feigned astonish-

The musicians started off at a lively galt with "A Warm Reception," and the Heutenant's arms were some going like a windmill. The joke of the thing was that when he called on the musicians to stop they kept right on playing, and when he wanted them to go on they would suddenly stop, chat for a moment or two, and then start in one by one,

The Bostonians and all the persons around enant Hartley retired, blushing with pleasure at the praise showered upon him.

For an hour the concert continued and it was a very enjoyable one. Professor Missud is the antithesis of Sousa in mechansin. His baton barely moves, and he stands serect as a colonel of the guards. sition. Others wandered about town and watched with a great deal of interest The Times bulletins about the race. These Bostonians take their outing in a thoroughly independent way, allowing every member the largest latitude in the way of enjoying himself as he pleases. They pay their own expenses everywhere, have an abundance of money to do it with, and go in for a thoroughly enjoyable time. They all said lest night that they liked Philadelphic last night that they liked Philadelphia.

Boston Committee Leaves Tonight to Talk Over Details of His Visit Here-Organizations Offer to Turn Out in His Honor and Photographers Want to Take His Picture

That committee of three decided on at yesterday's meeting of the Dewey commit-tee to go to Washington and to make personal arrangements with the admiral for his visit to this city will leave tonight at his visit to this city will leave tonight at seven o'clock. The secretary of the Dewey committee, Elwyn G. Preston, will go on the part of the commercial interests; Gen-eral Francis A. Appleton will go on behalf of the governor, and B. W. Wells will represent the mayor. They will find out just when Admiral Dewey will arrive and depart, find out when the Olympia will reach port, and all the other details that can be easily ascertaind in the capital but are clusive in Boston.

What has already been done in regard to

receiving Admiral Dewey makes it evident that there will be no lack of material for a big demonstration. The trouble is, the a big demonstration. The trouble is, the admiral's stay in Boston will be so short that not half the organizations who would like to take part in the honors can be given an opportunity. The Kearsarge Naval Veterans offered their services through Captain Wilson at the State House this morning; the Grand Army men signified their willingness to assist yesterday, and it has been talked that the Ancient and it has been talked that the Ancient and Honorable Artillery Company would probably turn out. But apparently the only opportunity for these and similar bodies to participate will be on Friday evening, at best, and the admiral's arrival early enough to make such a parade effective is by no means a sure thing yet. I ooks, when time is taken for the State to give its welcome, turn out its troops, and give its State dinner, as if there would be very little left for any other demonstration while the admiral is in Boston. Even the Norwich University Alumni Association's linner will probably have to go over until some time later.

But even while the arrangements are yet uncertain, the prospective visit of a man whom everybody wants to see is making a lot of business for the governor's office.
Applications of all sorts are beginning to drift in there. Some of the most insistent are from photographers who want to get special privileges in order to take Dewey's picture when he reviews the troops, or when he receives the gift that is to be presented, or at some other time when all eyes are focused upon him.

Secretary Preston and Hon. George E. Smith were at work with the governor for some time this morning over the Dewey arrangements, and Secretary Preston afteryard had a talk with the mayor.

The governor afterward appointed this committee to have entire charge of the Dewey reception, and of all communicatons regarding it: Hon, George E. Smith. Hon. John L. Bates, General J. L. Carter of the staff, Alpheus H. Hardy and Wal-lace F. Robinson, of the Chamber of Com-

days' pilgrimage, all pretty well tired out.

It was one of the most successful excursions ever undertaken by the company, and Commander Cramm was heartily congratulated by the members of the organization.

From the time of leaving Boston Saturday it was one round of pleasure. The railroad service was the best, at all places the train was on time, and both at Gettysburg and Philadelphia the company was overwhelmed with courtesies.

The company left Philadelphia Wednesday afternoon and marched to the Reading terminal, which was packed with people to witness the departure, and as the train pulled out gave the company a rousing "send-off." The run to Jersey City was made without incident and the command was taken across the river to the Pligrim, which was in waiting. It was a jolly party that assembled later in the evening on the afterdeck of the steamer and listened to an excellent concert by the band, under the direction of Jean Missud.

At 7.30 yesterday morning the company disembarked at Fall River and took a special train for home, arriving at 9 o'clock at the Back Bay station. The company formed on the platform and marched to the east armory, where it was dismissed.

Adjourned Session of the Common Pleas Division to Resume Sitting Tomorrow.

That which appears to be interesting the townspeople more than anything clese just at present is the forthcoming celebration of the 125th anniversary of the Kentish Guards. It is safe to predict that the 16th of October will be such a day as has not been seen in East Greenwich for many years. The people of the town feel justly proud of their pet military organization, and mean to do all in their pewer to help make the celebration a success. Many of the citizens contemplate closing up their places of business that they may the better have an opportunity to take part in the festivities. The following organizations have accepted invitations to be present: The Newport and the Warren artillery company. The Newport artillery, which is the only organization in the state older than the Guards, does not often accept invitations away from home, so the Guards feel honored to know that as many as a hundred artillerymen will be present from Newport. It is expected that two delegates from each of the following well-known military organizations in the United States will attend:

An Unpardonable Omission.

The official order for the formation of the parade in Boston to-morrow in honor of Admiral Dewey has been published in the Boston papers with a flourish of pride, and although not as long as the recent parade in New York it will unquestionably be interesting and picturesque. But for some unknown reason one famous military organization, indeed the most famous military organization which the old and historic city possesses, has been left out of the line of the procession. There will be two platoons of mounted police, one leading and one following the parade, the City band, the Seventh United States artillery, Governor Wolcott and staff in all the glory of gold lace, navy yard marines, the crew of the Olympia, two brigades of state troops, naval militia, cadets and the ambulance corps, Captain Myles Standish commanding, but the great glory and glitter and dash and swagger and real military bearing that would have made the parade worth looking at is not going to be there. The Ancient and Honorable Artillery has been snubbed.

Why Boston, on this great occasion in its history, when it is giving a glad right hand to the renowned admiral, should have neglected that famous command that has celebrated so many victories on land and sea, that long ago conquered all Europe and conveyed the fame and knowledge of Boston to foreign lands, that contains within its proud uniforms all that is bravest and fairest and most distinguished, is inexplicable. Admiral Dewey would have felt thrills of admiration running up and down his spinal column at the sight of the Ancient and Honorables, There, he would have remarked, is true military grace and dignity. There are heroes. There is an organization that represents the spirit of '76, the culture of the Back Bay and the flower of the public gardens. In seeing this great aggregation of warriors one feels less keenly the loss of the sight of the battle of Bunker

For the snub to the Ancient and Honorables Boston deserves to be punished severely. The subway should be closed for a period of thirty days.

From 40 to 50 years ago he always had charge of the decorating upon all great occasions of a public character, and the mention of his name was considered a guarantee that whatever he was connected with would be a fine affair.

He was one of the oldest and most popular members of the Ancient and Honorable artillery, a member of the Masons and Knights Templars. For years he was chairman of the overseers of the poor of Malden, and as such had much to do with constructing the present fine home on Forest st for the poor. To be Entertained.

The visit of the Ancient and Honourable Artillery Co., of London, England, the oldest military body on the globe, to the Ancient and Honorable Artillery Co. of Boston, the oldest military organization on this continent, is an opportunity which the British-born residents of Boston, and its vicinity could not allow to pass unnoticed. As a means to this end. a number of them got together, and organized a committee of 50, which numbers within its ranks, Englishmen, Irishmen, Scotsmen, Welchmen and Canadians. Capt. Thos. T. Stokes was chosen president, and John F. Masters, secretary. The Ancient and Honorable Artillery Co., graciously surrendered their guests to this committee for one night, and June 5, 1900, has been selected when a grand reception and ball will be tendered them, in the Mechanics' Institute, which has been engaged foa that occasion. A number of the leading men of Canada, representatives from the North Atlantic Fleet, and the Halifax Garrison, with prominent men from our state, and from some of the Canadian Military organizations are expected to be present, and do honor to the distinguished visi-GLASKA. tors.

THE ANCIENTS.

The press and printing committee of the London committee, Ancient and Honorable Artillery Company, is in correspondence with many of the leading citizens and military men in Montreal Chicago and New York, in relation to the visit of the Honourable Artilery Com-

visit of the Honourable Artilery Company of London to this country the coming summer All reports from our sister cities are so full of enthusiasm and good cheer that the London committee feel very much encouraged as to the success of the plan of visiting them with the Ancient and Honorable Artillery Company's guests from abroad. Arrangements are being made for decorating Boston on a most magnificent scale and with such elaboration as will surpass in brilliancy anything of the kind ever before attempted. Several master electricians are now planning novel designs appropriate for the occasion. A beautiful souvenir of the visit, with interesting historical facts and steel engravings of distinguished members of both regiments, is being prepared.

Historie Military Bodies. Among military organizations are some

Among military organizations are some independent companies of notable history. One of these is the Governor's Foot guards of Hartford, Conn., two companies, an independent body, which was organized in 1770, under a charter, like the Ancient and Honorable Artillery company of Boston, which was formed in 1636; the Newport Artillery company, formed in 1741; the Veteran Corps of Artillery of this city, organized in 1790, and constituting the Military Society of the War of 1812, and the Philadelphia City troop, which was organized just before the war of the revolution.—New York Evening Post.

A LOSS TO THE ANCIENTS.

The death of Rufus M Yale is a great loss to the older members of the Ancient and Honorable Artillery Company, with which he was associated for 40 years. At one time they held their field day at Odiorne's pond and Mr Yale's baby daughter, now Mrs Charles T Small, was formally declared the daughter of the regiment.

BOSTON TIGERS MAKE MERRY.

Light Infantry Veteran Corps Has Its 101st Birthday.

Banquet and Reunion Held at the Hotel Trafalgar - Capt. G. E. Loyett Tells of His Adventures in England with the Ancients-Col. Boyd Also Talks.

A century old and a year to spare is the record of the historic Boston Light Infantry "Tigers," more formally known as the Boston Light Infantry Veteran Corps. Members of this ancient organization banqueted at the Hotel Trafalgar, Massachusetts avenue, last night, and afterward installed the new staff of officers. The major commanding, Nathaniel G. Robinson, who is now entering upon his third term in that office, presided at the dinner, and gracefully welcomed the members and guest.

Mai. Robinson introduced as the first and principal speaker Capt. George E. Lovett of the 1st brigade, Massachusetts signal corps, who entertained the com-pany with a spirited description of his experiences with the Ancients when they visited England in 1896. He spoke especially of the visit to Windsor Castle,

they visited England in 1896. He spoke especially of the visit to Windsor Castle, where they were received by the Queen; to Marlborough House, where the Prince of Wales did the honors, and to Aldershot, the rendezvous of the British troops.

Maj. Robinson then called upon Col. Francis Boyd, a member of the Tigers since 1835, a commander for many years, beginning in 1849, and the man best qualified to speak of "The Old-Time Tigers." At the close of this speech the younger members paid their respects to their predecessors by an effective rendition of the battery K yell.

The active corps of the Tigers is now battery K of the 1st heavy artillery.

After Capt. William J. Lockhart, company 4, had favored the company with a song, Lawrence Miller of the Queen's Guards told some vivid stories of his experiences while campaigning with the British troops in India.

The following officers were installed:

Major commanding, Nathaniel G. Robinson; captain of first company, Frank W. Huckins; captain of second company, Frank W. Huckins; captain of fourth company, William J. Lockhart; first lieutenant, second company, Thomas J. Donovan; first lieutenant, third company, William H. C. Noble; first lieutenant, fourth company, Phillips Eaton; second lieutenant and ensign, Edwin I. Warsbauer. Staff officers, Capt. Walter C. Brown, adjutant; Capt. Frank B. Livesey, paymaster; Maj. Frank H. Little, quartermaster; Lieut. George F. Pinkerton, commissary; Lieut. Everectt G. Priest, surgeon; Capt. Francis S. Howard, chaplain.
